Race, Class, and Political Consciousness John C. Leggett, 1972 *Race, Class, and Political Consciousness* Stanislaw Saks, 1972 **From Black Power to Hip Hop** Patricia Hill Collins, 2006-01-19 A provocative analysis of the new contours of black nationalism and feminism in America *The Price of Progressive Politics* Rose Ernst, 2012-07-23 Social justice activists in the United States face an increasingly difficult task how do they fight policies based on damaging images of race class and gender identities in an era of colorblind racism Through the voices of women activists in the welfare rights movement across the United States *The Price of Progressive Politics* exposes the contemporary reality of welfare rights politics revealing how the language of colorblind racism undermines this multiracial movement Rose Ernst argues that although many activists are well meaning and truly committed they nonetheless find themselves reproducing many of the same racial and gender biases that they are trying to fight against Through forty nine in depth interviews with activists in eight organizations across the United States Ernst presents an intersectional analysis of how these activists understand the complexities of race class and gender and how such understandings have affected their approach to their grassroots work The vibrant stories of these welfare rights activists from around the country reveal the volatile issues of race and class that underlie the deep complexities and contradictions of grassroots organizing and the tensions which are often heightened by the language of color blind racism Engaging and accessible *The Price of Progressive Politics* offers a refreshing examination of how those working for change grapple with shifting racial dynamics in the United States arguing that organizations that fail to develop a consciousness that reflects the reality of multiple marginalized identities ultimately reproduce the societal dynamics they seek to change *The Oxford Handbook of Global South Youth Studies*, 2021-09-23 Ninety percent of the world's youth live in Africa Latin America and the developing countries of Asia Despite this the field of Youth Studies like many others is dominated by the knowledge economy of the Global North To address these geo political inequalities of knowledge *The Oxford Handbook of Global South Youth Studies* offers a contribution from Southern scholars to remake Youth Studies from its current state that universalises Northern perspectives into a truly Global Youth Studies Contributors from across various regions of the Global South including from the Diaspora Indigenous and Aboriginal communities locate and define the Global South articulate the necessity of studying Southern lives to enrich re interpret legitimate and offer symmetry to Youth Studies and utilize and innovate Southern theory to do so Eleven concepts are re imagined and re presented throughout the Handbook personhood intersectionality violences de and post coloniality consciousness precarity fluid modernities ontological insecurity navigational capacities collective agency and emancipation The outcome is a series of everyday practices such as hustling navigating fixing waiting being on standby silence and life writing that demonstrate how youth living in adversity experiment with and push back against routine and conformity and how research may support them in these endeavors and simultaneously redefine the relationships between knowledge practice and politics what the volume

editors term epistep Praxis The Handbook concludes with a nascent charter for a Global Youth Studies of benefit to the world that no longer excludes assumes or elides but rather includes new possibilities for representing youth researching amongst them and devising policies and interventions to better serve them This volume is a critical addition to the field of Youth Studies and one that should be of interest to scholars researchers and students working in this area in both the Global North and South
