Race, Ethnicity, Gender and Human Rights in the Americas Celina Romany, 2001 Intimate Partner Violence and Advocate Response , Melissa Beske, 2016-04-21 Intimate Partner Violence and Advocate Response Redefining Love in Western Belize offers new insight into the cross cultural analysis of gender based intimate partner violence by blending activist anthropology with in depth ethnographic research to evaluate and help ameliorate the crisis in Belize Drawing from twenty months of fieldwork in the Belizean Cayo District conducted between 2002 and 2013 Melissa A Beske investigates the prevalence and complexity of partner abuse the contributing cultural and structural factors and the advocate dynamics across local national and transnational frameworks in combating the problem Combining enlivened narratives comparative viewpoints and scholar activism this book not only illustrates the lived suffering of partner abuse in Cayo but it also engages with the passionate commitment of survivors and supporters as they endeavor to create a more equitable and peaceful community In doing so it demonstrates an effective strategy for the interdisciplinary assessment of gender based abuse which satisfies demands for theoretical impartiality while simultaneously enabling researchers to take an ethical stand in social causes **Narratives of Mass Atrocity** Sarah Federman, Ronald Niezen, 2022-09-08 Offers a narrative approach to post conflict intervention showing how legalism following mass violence encourages dangerous binaries **Power Interrupted** Sylvanna M. Falcón, 2016-04-16 In *Power Interrupted* Sylvanna M Falcón redirects the conversation about UN based feminist activism toward UN forums on racism Her analysis of UN antiracism spaces in particular the 2001 World Conference against Racism Racial Discrimination Xenophobia and Related Intolerance in Durban South Africa considers how a race and gender intersectionality approach broadened opportunities for feminist organizing at the global level The Durban conference gave feminist activists a pivotal opportunity to expand the debate about the ongoing challenges of global racism which had largely privileged men's experiences with racial injustice When including the activist engagements and experiential knowledge of these antiracist feminist communities the political significance of human rights becomes evident Using a combination of interviews participant observation and extensive archival data Sylvanna M Falcón situates contemporary antiracist feminist organizing from the Americas specifically the activism of feminists of color from the United States and Canada and feminists from Mexico and Peru alongside a critical historical reading of the UN and its agenda against racism **The Multivoiced Body** Fred Evans, 2009-04-17 Ethnic cleansing and other methods of political and social exclusion continue to thrive in our globalized world complicating the idea that unity and diversity can exist in the same society By envisioning the public as a multivoiced body Fred Evans offers a solution to the dilemma of diversity The multivoiced body is both one and many heterogeneous voices that at once separate and bind themselves together through their continuous and creative interplay By focusing on this traditionally undervalued or overlooked notion of voice Evans shows how we can valorize simultaneously the solidarity diversity and richness of society and resist the pervasive

countertendency to raise a chosen discourse to the level of one true God pure race or some other oracle that eliminates the dynamism of contesting voices To support these views Evans taps the major figures and themes of analytic and continental philosophy as well as modernist postmodernist postcolonial and feminist thought He also turns to sources outside of philosophy to address the implications of his views for justice citizenship democracy and collective as well as individual rights Evans straddles both philosophy and political practice confronting issues of subjectivity language communication and identity For anyone interested in moving toward a just society and politics The Multivoiced Body offers an innovative approach to the problems of human diversity and ethical plurality

leaders parliamentarians influencers state representatives and activists In particular the chapters demonstrate how the mobilization of legal language notably the language of human rights has become fundamental to developing and consolidating new political agendas concerning secularism tolerance freedom of expression gender and sexuality family and cultural heritage In the authors approach human rights assume a central role in social disputes as a language in which actors constitute themselves as rights subjects form activist networks and pursue their goals by expressing themselves in public Given its focus and scope the book will be of interest to all scholars seeking to understand the relationships between diversity and the regulation of religious practices in plural societies where the classical notion of secularism continues to show its limitations

Movements for Human Rights David L. Brunsma, Keri Iyall Smith, Brian Gran, 2016-09-07

How do people work together to advance human rights Do people form groups to prevent human rights from being enforced Why In what ways do circumstances matter to the work of individuals collectively working to shape human rights practices Human society is made of individuals within contexts tectonic plates not of the earth's crust but of groups and individuals who scrape and shift as we bump along competing for scarce resources and getting along These movements large and small are the products of actions individuals take in communities within families and legal structures These individuals are able to live longer yet continue to remain vulnerable to dangers arising from the environment substances struggles for power and a failure to understand that in most ways we are the same as our neighbors Yet it is because we live together in layers of diverse communities that we want our ability to speak to be unhindered by others use spirituality to help us understand ourselves and others possess a space and objects that are ours alone and join with groups that share our values and interests including circumstances where we do not know who our fellow neighbor is For this reason sociologists have identified the importance of movements and change in human societies When we collaborate in groups individuals can change the contours of their daily lives Within this book you will find the building blocks for human rights in our communities To understand why sometimes we enjoy human rights and other times we experience vulnerability and risk sociologists seek to understand the individual within her context Bringing together prominent sociologists to grapple with these questions Movements for Human Rights Locally and Globally offers insights into the ways that people move for and against human rights

Protecting Human Rights Defenders at Risk Alice M. Nah, 2020-11-22 This book assesses the construction operation and effects of the international protection regime for human rights defenders which has evolved significantly over the last twenty years in response to the risks people face as they promote and protect human rights Drawing upon the experiences of human rights defenders who continue to persevere in their activism in Indonesia Egypt Kenya Mexico and Colombia this edited collection examines the ways in which formal protection mechanisms by state and civil society actors intersect with self protection measures and informal protection initiatives by families and friends It highlights that protection practices are most effective when they are designed to address the specific risks that human rights defenders face which are gendered and intersectional reflect how defenders understand risk security and protection and are appropriate for the dynamic sociopolitical and legal contexts in which defenders operate This book proposes ways in which the protection of human rights defenders at risk should be reimaged and practised This book will be a thought provoking guide for students and scholars of politics international relations law and human rights as well as to practitioners engaged in the protection of human rights defenders at risk
