A Woman on the Edge of Time Jeremy Gavron, 2016-09-20 London 1965 A brilliant young woman a prescient advocate for women's rights at the dawn of modern feminism has just gassed herself to death leaving behind a suicide note two young sons and a soon to be published sociological study *The Captive Wife Conflicts of Housebound Mothers* Hannah Gavron had seemingly led a charmed life since childhood She had been a champion equestrian had studied acting alongside Peter O Toole As a bright sophisticated adult swept up in the progressive politics of the 60s she was a promising academic and the wife of a rising entrepreneur No one who knew Hannah ever imagined that she might take her own life Jeremy Gavron was just four when his mother died Afterward a silence descended so completely on her family and friends that it was as if she had never lived In this searching portrait of Hannah Jeremy embarks on a quest to break forty years of silence to try to understand who his mother was and what drove her to suicide He's left to piece her life together from what remains letters diaries and the faded memories of old acquaintances As he digs into her past he uncovers a darker side to Hannah's life societal pressure marital strife and inescapable sexism that discounted her desire for more as a sign of mental illness Ultimately Jeremy not only comes as close as he can to knowing his mother he also vividly captures the suffocating constrictions placed on every ambitious woman in the mid twentieth century

Sailing to the Edge of Time John Kretschmer, 2018-11-13 John Kretschmer is sailing's practical philosopher as much a doer as a thinker And that is the overarching theme of this chronicle of a sailing life Often amusing sometimes poignant occasionally terrifying but always inspiring his deeply personal account is a welcome reminder of the good life waiting at sea With hundreds of thousands of nautical miles under his keel John's adventures have taken him several times around the world with challenging crossings of the Atlantic and the Pacific a narrow escape from a coup in Yemen an unlikely deliverance from a coral reef off Belize as well as more serene introspective passages where trade winds are blowing and stories are flowing His crew has included CEOs actors writers teachers kids in essence everyone John's narrative is interwoven with practical tips and advice in seamanship but also and just as importantly his hard won insights about making the most of our lives He truly believes we find out who we really are and what we are capable of far from the shackles of land when we find a place where time changes shape days may merge into one another but minutes are memorable To live adventurously is to live more fully and that is the life John Kretschmer continues to live In this book he shares his simple profundities that will inspire those who live to sail and those seeking something more rewarding from life

*Secret Weapons and World War II* Walter E. Gruenden, 2005 Gruenden's analysis of this fundamental flaw in the Japanese war effort seamlessly weaves together science technology and military history to provide an entirely unique look at a crucial but understudied aspect of World War II Comparing the science and weapons programs of all the major combatants he demonstrates that Japan's failure was nearly inevitable given its paucity of strategic resources an inadequate industrial base the absence of effective centralized management to coordinate research

military hostility toward civilian scientists and bitter interservice rivalries In the end Japan could not overcome these obstacles and thus failed to make the transition to the kind of Big Science it needed to ward off its enemies and dominate the Far East
