Critical Readings in Teacher Education ,2008-01-01 Like other fields of study teacher education defines itself both by what it includes and by what it excludes Teacher educators and researchers have spent a great deal of time seeking and attempting to eradicate the flaws in existing structures and practices but significantly less time learning to perceive the absences The premise of this book is that until we can identify and begin to address what is absent teacher education will be constrained by a perennial recycling of concerns that have characterized so much of research policy and practice to date If teacher education is to have a different future we need to ask different and difficult questions This book with contributions from theorists in Australia Canada and the United States addresses the challenges we face in establishing a more hopeful future for teacher education The authors provocative contributions identify what is missing in teacher education while providing critical counterpoints to existing frames of reference in the field In writing against the grain they open up new conceptual spaces and exciting trajectories for a different teacher education **Educating for Human Rights and Global Citizenship** Ali A. Abdi,Lynette Shultz,2009-01-01 Nearly sixty years after the Universal Declaration of Human Rights in spite of progress on some fronts we are in many cases as far away as ever from achieving an inclusive citizenship and human rights for all While human rights violations continue to affect millions across the world there are also ongoing contestations regarding citizenship In response to these and related issues the contributors to this book critique both historical and current practices and suggest several pragmatic options highlighting the role of education in attaining these noble yet unachieved objectives This book represents a welcome addition to the human rights and global citizenship literature and provides ideas for new platforms that are human rights friendly and expansively attuned toward global citizenship Book jacket
