Race, Class, Gender, and American Environmentalism Dorceta E. Taylor, 2002 Race, Class, Gender, and American Environmentalism Dorceta E. Taylor, 2002 Examines the environmental experiences of middle working class whites people of color in the U S during the 19th 20th cent Race class gender had profound effects on people s EV experiences consequently their activism While some middle class whites fled the cities their urban ills to focus on outdoor wilderness wildlife issues some stayed in the cities to develop urban parks help improve urban EV conditions The white working class collaborated with white middle class urban EV activists to improve public health worker health safety whereas people of color developed activist agendas that linked racism oppression to worker health safety issues loss or denial of land ownership infringement on human rights

Environmental Knowledge, Race, and African American Literature Matthias Klestil, 2023-04-20 This open access book suggests new ways of reading nineteenth century African American literature environmentally Combining insights from ecocriticism African American studies and Foucauldian theory Matthias Klestil examines forms of environmental knowledge in African American writing ranging from antebellum slave narratives and pamphlets to Charlotte Forten s journals Booker T Washington s autobiographies and Charles W Chesnutt s short fiction The volume highlights how literary forms of environmental knowledge in the African American tradition were shaped by the histories of slavery and race mainstream environmental writing traditions and African American forms of expression and intertextuality Turning to the Underground Railroad debates over education and home building and the aesthetics of the pastoral and the georgic Environmental Knowledge Race and African American Literature provides an original perspective on the African American ecoliterary tradition that uncovers new facets of canonical and understudied texts and offers new directions for ecocriticism and African American studies

Love Canal Revisited : Race, Class, and Gender in Environmental Activism Elizabeth D. Blum, 2008 Historical snapshots of the Love Canal area Gender at Love Canal Race at Love Canal Class at Love Canal Historical implications of gender race and class at Love Canal

American Indian Literature, Environmental Justice, and Ecocriticism Joni Adamson, 2001 Although much contemporary American Indian literature examines the relationship between humans and the land most Native authors do not set their work in the pristine wilderness celebrated by mainstream nature writers Instead they focus on settings such as reservations open pit mines and contested borderlands Drawing on her own teaching experience among Native Americans and on lessons learned from such recent scenes of confrontation as Chiapas and Black Mesa Joni Adamson explores why what counts as nature is often very different for multicultural writers and activist groups than it is for mainstream environmentalists This powerful book is one of the first to examine the intersections between literature and the environment from the perspective of the oppressions of race class gender and nature and the first to review American Indian literature from the standpoint of environmental justice and ecocriticism By examining such texts as Sherman Alexie s short stories and Leslie Marmon Silko s novel *Almanac of the Dead*

Adamson contends that these works in addition to being literary are examples of ecological criticism that expand Euro American concepts of nature and place Adamson shows that when we begin exploring the differences that shape diverse cultural and literary representations of nature we discover the challenge they present to mainstream American culture environmentalism and literature By comparing the work of Native authors such as Simon Ortiz with that of environmental writers such as Edward Abbey she reveals opportunities for more multicultural conceptions of nature and the environment More than a work of literary criticism this is a book about the search to find ways to understand our cultural and historical differences and similarities in order to arrive at a better agreement of what the human role in nature is and should be It exposes the blind spots in early ecocriticism and shows the possibilities for building common ground a middle place where writers scholars teachers and environmentalists might come together to work for social and environmental change

Indigenous Environmental Justice Karen Jarratt-Snider, Marianne O. Nielsen, 2020-05-05 This volume clearly distinguishes Indigenous environmental justice IEJ from the broader idea of environmental justice EJ while offering detailed examples from recent history of environmental injustices that have occurred in Indian Country With connections to traditional homelands being at the heart of Native identity environmental justice is of heightened importance to Indigenous communities Not only do irresponsible and exploitative environmental policies harm the physical and financial health of Indigenous communities they also cause spiritual harm by destroying land held in a place of exceptional reverence for Indigenous peoples With focused essays on important topics such as the uranium mining on Navajo and Hopi lands the Dakota Access Pipeline dispute on the Standing Rock Indian Reservation environmental cleanup efforts in Alaska and many other pertinent examples this volume offers a timely view of the environmental devastation that occurs in Indian Country It also serves to emphasize the importance of self determination and sovereignty in victories of Indigenous environmental justice The book explores the ongoing effects of colonization and emphasizes Native American tribes as governments rather than ethnic minorities Combining elements of legal issues human rights issues and sovereignty issues Indigenous Environmental Justice creates a clear example of community resilience in the face of corporate greed and state indifference

Environmental Sociology Leslie King, Deborah McCarthy Auriffeille, 2009-03-16 Environmental Sociology intended for use in Environmental Sociology courses uses sociological methods and perspectives to analyze key environmental issues The reader is organized like an introduction to sociology reader and comprised of readings that are accessible to and interesting for undergraduates Peak Oil Matthew Schneider-Mayerson, 2015-10-14 In recent years the concept of peak oil the moment when global oil production peaks and a train of economic social and political catastrophes accompany its subsequent decline has captured the imagination of a surprisingly large number of Americans ordinary citizens as well as scholars and created a quiet yet intense underground movement In Peak Oil Matthew Schneider Mayerson takes readers deep inside the world of peakists showing how their hopes and fears about the postcarbon future led them to prepare for the social

breakdown they foresee all of which are fervently discussed and debated via websites online forums videos and novels By exploring the worldview of peakists and the unexpected way that the fear of peak oil and climate change transformed many members of this left leaning group into survivalists Schneider Mayerson builds a larger analysis of the rise of libertarianism the role of oil in modern life the political impact of digital technologies the racial and gender dynamics of post apocalyptic fantasies and the social organization of environmental denial

What is Critical Environmental Justice? David Naguib Pellow, 2025-05-14 Human societies have always been deeply interconnected with our ecosystems but today those relationships are witnessing greater frictions tensions and harms than ever before These dynamics mirror those experienced by marginalized communities across the planet but they also provide a foundation for transformative thinking and action to address these challenges In this updated edition of his innovative contribution David Naguib Pellow introduces a new framework for critically analyzing Environmental Justice scholarship and activism In doing so he extends the field's focus to topics not usually associated with environmental justice including policing incarceration the Israel Palestine conflict and the Black Lives Matter movement In doing so he reveals that ecological violence is first and foremost a form of social violence driven by and legitimated by social structures and discourses He enriches this radical approach to Environmental Justice by drawing on Indigenous Studies the Black Radical Tradition Disability Studies Queer and Transgender Studies and Multi Species Justice among others Those already familiar with the discipline will find themselves invited to think about the subject in entirely new ways This book is a vital resource for students scholars and policy makers interested in innovative approaches to one of the greatest challenges facing humanity and the planet

The Oxford Handbook of Environmental History Andrew C. Isenberg, 2017 The Oxford Handbook of Environmental History draws on a wealth of new scholarship to offer diverse perspectives on the state of the field

Science and Nature Carolyn Merchant, 2017-11-07 Science and Nature brings together the work and insights of historian Carolyn Merchant on the history of science environmental history and ethics The book explores her ideas about the interconnections among science women nature and history as they have emerged over her academic lifetime Focusing on topics such as The Death of Nature the Scientific Revolution women in the history of science and environment and partnership ethics it synthesizes her writings and sets out a vision for the twenty first century Anyone interested in the interactions between science and nature in the past present and future will want to read this book It is an ideal text for courses on the environment environmental history history of science and the philosophy of science

New Perspectives on Environmental Justice Rachel Stein, 2004 Women make up the vast majority of activists and organizers of grassroots movements fighting against environmental ills that threaten poor and people of color communities This collection of essays pays tribute to the contributions women have made in these endeavors The writers offer varied examples of environmental justice issues such as children's environmental health campaigns cancer research AIDS HIV activism the Environmental Genome Project and popular culture among many others Each one focuses on gender and

sexuality as crucial factors in women's or gay men's activism and applies environmental justice principles to related struggles for sexual justice. Drawing on a wide variety of disciplinary perspectives, the contributors offer multiple vantage points on gender, sexuality, and activism. Back cover

Routledge Handbook of Gender and Environment Sherilyn MacGregor, 2017-07-14. The Routledge Handbook of Gender and Environment gathers together state-of-the-art theoretical reflections and empirical research from leading researchers and practitioners working in this transdisciplinary and transnational academic field. Over the course of the book, these contributors provide critical analyses of the gender dimensions of a wide range of timely and challenging topics, from sustainable development and climate change politics to queer ecology and interspecies ethics in the so-called Anthropocene. Presenting a comprehensive overview of the development of the field from early political critiques of the male domination of women and nature in the 1980s to the sophisticated intersectional and inclusive analyses of the present, the volume is divided into four parts: Part I Foundations, Part II Approaches, Part III Politics, policy, and practice, and Part IV Futures. Comprising chapters written by forty contributors with different perspectives and working in a wide range of research contexts around the world, this Handbook will serve as a vital resource for scholars, students, and practitioners in environmental studies, gender studies, human geography, and the environmental humanities and social sciences more broadly.

Pests in the City Dawn Day Biehler, 2013-11-01. From tenements to alleyways to latrines, twentieth-century American cities created spaces where pests flourished and people struggled for healthy living conditions. In *Pests in the City*, Dawn Day Biehler argues that the urban ecologies that supported pests were shaped not only by the physical features of cities but also by social inequalities, housing policies, and ideas about domestic space. Community activists and social reformers strived to control pests in cities such as Washington, DC, Chicago, Baltimore, New York, and Milwaukee, but such efforts fell short when authorities blamed families and neighborhood culture for infestations rather than attacking racial segregation or urban disinvestment. Pest control campaigns tended to target public or private spaces, but pests and pesticides moved readily across the porous boundaries between homes and neighborhoods. This story of flies, bedbugs, cockroaches, and rats reveals that such creatures thrived on lax code enforcement and the marginalization of the poor, immigrants, and people of color. As Biehler shows, urban pests have remained a persistent problem at the intersection of public health, politics, and environmental justice, even amid promises of modernity and sustainability in American cities. Standing Our Ground Joyce M. Barry,2012-08-22

Standing Our Ground Women Environmental Justice and the Fight to End Mountaintop Removal examines women s efforts to end mountaintop removal coal mining in West Virginia Mountaintop removal coal mining which involves demolishing the tops of hills and mountains to provide access to coal seams is one of the most significant environmental threats in Appalachia where it is most commonly practiced The Appalachian women featured in Barry s book have firsthand experience with the negative impacts of Big Coal in West Virginia Through their work in organizations such as the Coal River Mountain Watch and the Ohio Valley Environmental Coalition they fight to save their mountain communities by promoting the development of alternative energy resources Barry s engaging and original work reveals how women s tireless organizing efforts have made mountaintop removal a global political and

environmental issue and laid the groundwork for a robust environmental justice movement in central Appalachia

Vanishing America Miles A. Powell, 2016-11-14 Miles Powell explores how early conservationists became convinced that the vitality of America's white races depended on preserving the wilderness. Some conservationists embraced scientific racism, eugenics, and restrictive immigration laws, but these activists also laid the groundwork for the many successes of the modern environmental movement.

American Unexceptionalism Kathy Knapp, 2014-05 The novels in question all take place in the sprawling terrain that stretches out beyond the Twin Towers, the postwar suburbs that since the end of World War II have served like the Twin Towers themselves as a powerful advertisement of dominance to people around the globe by projecting an image of prosperity and family values. These suburban tales and their everyman protagonists grapple, however indirectly, with the implications of the apparent decline of the economic, geopolitical, and moral authority of the United States. In the context of perceived decay and diminishing influence, these novels actively counteract the narrative of American exceptionalism frequently peddled in the wake of 9/11.
