## **Race Culture And Ethnicity In Psychiatric Practice Working With Difference:**

Race, Culture, and Ethnicity in Secure Psychiatric Practice Charles Kaye, Tony Lingiah, 2000 People from ethnic minorities are overrepresented in secure psychiatric care and have been reported to receive differential treatment from staff. It has been suggested that these people especially Afro Caribbean groups suffer from prejudicial legal criminal justice and psychiatric system. This text questions whether Western white oriented practice and systems of belief can or should be applied to service users from other cultural racial ethical or spiritual backgrounds. **Psychiatric and Mental Health**

issues and much more      *Clinician's Guide to Cultural Psychiatry* Wen-Shing Tseng, 2003-05-07 Increasingly psychologists are becoming aware of sensitivity needs with respect to treating patients from differing cultures Culture can play an important role both in what a patient discloses about themselves how likely they are to follow a therapist's advice and whether specific therapies are likely to be effective for them Following on the heels of Tseng's Handbook of Cultural Psychiatry comes this Clinical Application of Cultural Psychiatry This more concise book focuses on information most relevant to treating patients The book discusses how culture plays a role in specific disorders depression anxiety eating and sexual disorders substance abuse schizophrenia etc relevant sensitivities to keep in mind in treating specific patient populations age groups differing religions and differing ethnicity's Written by a nationally and internationally recognized scholar clinician and author Has the proper combination of knowledge skill and conceptual discussion for clinical practicalities Provides comprehensive and systematic coverage of major topics for clinical application Enhanced by more than 120 tables and figures and nearly 30 case illustrations Will serve as a major textbook in the training of psychiatric residents and clinical psychologists      **Psychiatric Contours** Nancy Rose Hunt, Hubertus Büschel, 2024-03-08 Psychiatric Contours investigates new histories of psychiatry derangement and agitated subjectivities in colonial and decolonizing Africa

**Social Work, Mental Health, and Public Policy in Diverse Contexts** Sheying Chen, 2023-08-29 The discipline of social policy oftentimes deemed a part of social work as a profession was born in the West Unlike social policy that started with the post war idea of a welfare state in the mid 20th century social work traces its roots to individual casework pioneered by the Charity Organization Society COS early social administration including state wide poverty relief an advocacy effort of the COS but with deep roots in the English Poor Laws of the 17th century and social action emphasizing political activities to improve social conditions originating from the Settlement House Movement which began in the 1880s The development of social work is historically intertwined with that of public welfare philanthropy and charity and is an inherently international subject This conception is broader than international social work as a discrete field of professional practice which crosses geopolitical borders and all levels of social and economic organizations with a focus on development However each nation has a story of its own in terms of professionalization of social work in the evolution of public welfare and philanthropic charitable undertaking within its particular economic political social and cultural settings A wide ranging and in depth study of various especially non Western country cases is essential to an adequate comprehensive understanding of the social work profession which is also a basic requirement of its value of diversity China is undoubtedly an important case with the largest population on earth It's also unique in view of so called Chinese characteristics which are sometimes fundamentally different from other particularly Western societies It's even intriguing given the country's lengthy complex history and its recent rapid rise to a global superpower with a claim of national goals and core values that seem to be rather considerable to social work as a helping profession Therefore any significant lessons learned from the Chinese experiences would help with a better

international understanding and further advancement of social work and public welfare at a global scale
