*Ssali: Power Back to the People*, 2023-06-02 The infamous Scramble for Africa resulted in random and unlikely borders that remain today The West partitioned territory for the sake of its short term goal of influence or mastery They gave little thought to the long running consequences for the Africans themselves This arbitrary carving up of Africa the colonial policy of divide and rule and the resultant segmental cleavages in most post colonial African states may be blamed for the horizontal inequalities conflicts and insecurity rampant since independence In Uganda as in many other African countries the most evident of such cleavages have been tribal and ethnic Recently there have been calls for constitutional reform that would devolve power to the tribal regions and revive the idea of federalism which was the organizing principle in the immediate aftermath of independence This book highlights the dynamics of ethnic politics in the post independence sub Saharan setting in general and the background meaning and relevance of the debate on ethnic federalism in Uganda in particular Part of the book covers Vick Lukwago Ssali's own experiences growing up in an independent but troubled Uganda However its central thesis is based on the voices of selected samples of ordinary people in ten different tribal areas of Uganda and what they comparatively think about the issue of federalism Is their loyalty growing towards the centre or fading outwards from the troubled state to their integral traditional and cultural units

Kirkwood-Tucker, Frans H. Doppen, 2023-06-01 The significance of this book is its uniqueness First the book contains a collection of fourteen chapters that capture the personal professional and historical experiences of international global scholars and artists to which they were subjected in their native country and after they immigrated to the United States What makes this book project highly unusual in comparison to other publications is that these international global scholars and artists experienced historical events of trauma and joy in their native country and in their newly adopted country of the United States that lie deeply buried in their sub consciousness that these memories are unforgettable and still painful for them that these memories are a constant companion in their daily lives and that the experienced historical events of trauma and joy have shaped their professional and personal lives to this very day There exists a paucity in the global education literature of this far reaching topic and thus it has the potential to enhance and diversify the global education literature Second the significance of this book lies in the pedagogical power of the oral history narrative tradition and its impact on students at the secondary and tertiary levels in education When one s lived experiences of trauma or joy occur during a critical time in history they rarely yield unforgotten memories and deeply held private knowledge that do not come to light without a storyteller When first hand accounts are shared publicly they can bring powerful insights into past historic events to the very presence Thus the pedagogical strength of this book contributes to knowledge creation in the classroom as oral histories move students from abstract textbook descriptions to concrete and compelling lived stories associated with historical happenings This pedagogy leads students to become more critical of historical events of the past and develops in them a deeper understanding of the past Consequently oral history narratives enable teachers and teacher educators to enrich the abstract text of textbooks with the authentic voice of the individual A third significance of this book lies embedded in the rich historical perspective displayed by storytellers of non native international global scholars and artists from around the world who portray their lived through first hand experiences such as child labor communism hate hunger fascism fear intolerance discrimination prejudice poverty war protest and death Finally a major purpose of this book is to expose young learners from around the world to empowering non native international role models in global education and the arts from nations in Africa Asia the Caribbean Eurasia Europe the Middle East and South America who build bridges not walls between peoples and nations
