The Imperative of Integration Elizabeth Anderson, 2010-09-07 A powerful new argument for reviving the ideal of racial integration More than forty years have passed since Congress in response to the Civil Rights Movement enacted sweeping antidiscrimination laws in the Civil Rights Act of 1964 the Voting Rights Act of 1965 and the Fair Housing Act of 1968 As a signal achievement of that legacy in 2008 Americans elected their first African American president Some would argue that we have finally arrived at a postracial America but The Imperative of Integration indicates otherwise Elizabeth Anderson demonstrates that despite progress toward racial equality African Americans remain disadvantaged on virtually all measures of well being Segregation remains a key cause of these problems and Anderson skillfully shows why racial integration is needed to address these issues Weaving together extensive social science findings in economics sociology and psychology with political theory this book provides a compelling argument for reviving the ideal of racial integration to overcome injustice and inequality and to build a better democracy Considering the effects of segregation and integration across multiple social arenas Anderson exposes the deficiencies of racial views on both the right and the left She reveals the limitations of conservative explanations for black disadvantage in terms of cultural pathology within the black community and explains why color blindness is morally misguided Multicultural celebrations of group differences are also not enough to solve our racial problems Anderson provides a distinctive rationale for affirmative action as a tool for promoting integration and explores how integration can be practiced beyond affirmative action Offering an expansive model for practicing political philosophy in close collaboration with the social sciences this book is a trenchant examination of how racial integration can lead to a more robust and responsive democracy

Death by Design Craig Haney, 2005-08-04 How can otherwise normal moral persons as citizens voters and jurors participate in a process that is designed to take the life of another In DEATH BY DESIGN research psychologist Craig Haney argues that capital punishment

and particularly the sequence of events that lead to death sentencing itself is maintained through a complex and elaborate social psychological system that distances and disengages us from the true nature of the task Relying heavily on his own research and that of other social scientists Haney suggests that these social psychological forces enable persons to engage in behavior from which many of them otherwise would refrain However by facilitating death sentencing in these ways this inter related set of social psychological forces also undermines the reliability and authenticity of the process and compromises the fairness of its outcomes Because these social psychological forces are systemic in nature built into the very system of death sentencing itself Haney concludes by suggesting a number of inter locking reforms derived directly from empirical research on capital punishment that are needed to increase the fairness and reliability of the process The historic and ongoing public debate over the death penalty takes place not only in courtrooms but also in classrooms offices and living rooms This timely book offers stimulating insights into capital punishment for professionals and students working in psychology law criminology sociology and cultural area studies As capital punishment receives continued attention in the media it is also a necessary and provocative guide that empowers all readers to come to their own conclusions about the death penalty

Canadian Justice, Indigenous Injustice Kent Roach, 2019-01-21 In August 2016 Colten Boushie a twenty two year old Cree man from Red Pheasant First Nation was fatally shot on a Saskatchewan farm by white farmer Gerald Stanley In a trial that bitterly divided Canadians Stanley was acquitted of both murder and manslaughter by a jury in Battleford with no visible Indigenous representation In *Canadian Justice Indigenous Injustice* Kent Roach critically reconstructs the Gerald Stanley Colten Boushie case to examine how it may be a miscarriage of justice Roach provides historical legal political and sociological background to the case including misunderstandings over crime when Treaty 6 was negotiated the 1885 hanging of eight Indigenous men at Fort Battleford the role of the RCMP prior litigation over Indigenous underrepresentation on juries and the racially charged debate about defence of property and rural crime Drawing on both trial transcripts and research on miscarriages of justice Roach looks at jury selection the controversial hang fire defence how the credibility and beliefs of Indigenous witnesses were challenged on the stand and Gerald Stanley s implicit appeals to self defence and defence of property as well as the decision not to appeal the acquittal Concluding his study Roach asks whether Prime Minister Justin Trudeau s controversial call to do better is possible given similar cases since Stanley s the difficulty of reforming the jury or the RCMP and the combination of Indigenous underrepresentation on juries and overrepresentation among those victimized and accused of crimes Informed and timely *Canadian Justice Indigenous Injustice* is a searing account of one case that provides valuable insight into criminal justice racism and the treatment of Indigenous peoples in Canada

The Trial on Trial: Volume 2 R A Duff, Lindsay Farmer, Sandra Marshall, Victor Tadros, 2006-04-05 What are the aims of a criminal trial What social functions should it perform And how is the trial as a political institution linked to other institutions in a democratic polity What follows if we understand a criminal trial as calling a defendant to answer to a charge

of criminal wrongdoing and if he is judged to be responsible for such wrongdoing to account for his conduct A normative theory of the trial an account of what trials ought to be and of what ends they should serve must take these central aspects of the trial seriously but they raise a number of difficult questions They suggest that the trial should be seen as a communicative process but what kinds of communication should it involve What kind of political theory does a communicative conception of the trial require Can trials ever actually amount to more than the imposition of state power on the defendant What political role might trials play in conflicts that must deal not simply with issues of individual responsibility but with broader collective wrongs including wrongs perpetrated by or in the name of the state These are the issues addressed by the essays in this volume The third volume in this series in which the four editors of this volume develop their own normative account will be published in 2007

Canadian Critical Race Theory Carol A. Aylward, 2025-07-17T00:00:00Z The growth of the Critical Race Theory genre began in Canada when scholars of colour in Canada began to articulate a dissatisfaction with the existing Canadian legal discourse which failed to include an analysis of the role that race and racism has played in the political and legal structures of Canadian society This book is about the role that race and racism play in the theory and practice of law It shows how Canadian Black lawyers and others are beginning to seriously consider the role of race in litigation and to develop critical race litigation strategies to address the issue The author documents how a growing body of work designed to move us beyond theory to practical application is being developed to help recognize the complex relationships among race racism and the law

“Colored Men” and “Hombres Aqui” Michael A. Olivas, 2020-04-30 This collection of ten essays originally published in 2006 to commemorate the 50th anniversary of an important but almost forgotten U S Supreme court case *Hernandez v Texas* 347 US 475 1954 is now available in trade paperback for the first time Involving Mexican Americans and jury selection this major case was published just before *Brown v Board of Education* in the 1954 Supreme Court reporter This landmark case the first to be tried by Mexican American lawyers before the US Supreme Court held that Mexican Americans were a discrete group for purposes of applying Equal Protection Although the case was about discriminatory state jury selection and trial practices it has been cited for many other civil rights precedents in the intervening 50 years Even so it has not been given the prominence it deserves in part because it lives in the shadow of the more compelling *Brown v Board* case There had been earlier efforts to diversify juries reaching back at least to the trial of Gregorio Cortez in 1901 and continuing with efforts by the legendary Oscar Zeta Acosta in Los Angeles in the 1960s Even as recently as 2005 there has been clear evidence that Latino participation in the Texas jury system is still substantially unrepresentative of the growing population But in a brief and shining moment in 1954 Mexican American lawyers prevailed in a system that accorded their community no legal status and no respect Through sheer tenacity brilliance and some luck they showed that it is possible to tilt against windmills and slay the dragon Edited and with an introduction by University of Houston law scholar Michael A Olivas *Colored Men and Hombres Aqui* is the first full length book on this case This volume contains the papers presented at the *Hernandez at 50* conference that took place in 2004 at the University of Houston Law Center and also contains source materials trial briefs and a chronology of the case

American Roulette Sarah Beth Kaufman, 2020-05-19 As the death penalty clings to life in many states and dies off in others this first of its kind ethnography takes readers inside capital trials across the United States Sarah Beth Kaufman draws on years of ethnographic and documentary research including hundreds of hours of courtroom observation in seven states interviews with participants and analyses of newspaper coverage to reveal how the American justice system decides who deserves the most extreme punishment The super due process accorded capital sentencing by the United States Supreme Court is the system s best attempt at individuated sentencing Resources not seen in most other parts of the criminal justice system such as jurors and psychological experts are required in capital trials yet even these cannot create the conditions of morality or justice Kaufman demonstrates that capital trials ultimately depend on performance and politics resulting in the enactment of deep biases and utter capriciousness *American Roulette* contends that the liberal democratic ideals of criminal punishment cannot be enacted in the current criminal justice system even under the most controlled circumstances
