Brazilian Telenovelas and the Myth of Racial Democracy Samantha Nogueira Joyce, 2012-04-01 Brazilian Telenovelas and the Myth of Racial Democracy by Samantha Nogueira Joyce examines what happens when a telenovela directly addresses matters of race and racism in contemporary Brazil This investigation provides a traditional textual analysis of *Duas Caras* 2007 2008 a watershed telenovela for two main reasons It was the first of its kind to present audiences with an Afro Brazilian as the main hero openly addressing race matters through plot and dialogue Additionally for the first time in the

history of Brazilian television the author of *Duas Caras* kept a web blog where he discussed the public's reactions to the storylines media discussions pertaining to the characters and plot and directly engaged with fans and critics of the program Joyce combines her investigation of *Duas Caras* with a study of related media in order to demonstrate how the program introduced novel ideas about race and also offered a forum where varying perspectives on race class and racial relations in Brazil could be discussed Brazilian Telenovelas is not a reception study in the traditional sense it is not a story of entertainment education in the strict sense and it is not solely a textual analysis Instead Joyce's text is a study of the social milieu that the telenovela and especially *Duas Caras* navigates one that is a component of a contemporary progressive social movement in Brazil and one that views the text as being located in social interactions As such this book reveals how telenovelas contribute to social change in a way that has not been fully explored in previous scholarship Race and Nation Paul R. Spickard, 2005 *Race and Nation* offers a comparison of the various racial ethnic systems that have developed around the world in locations that include China New Zealand Eritrea Jamaica The Unified Black Movement in Brazil, 1978-2002 David Covin, 2015-05-12 Brazil in the late 1970s was a country of racial tension and inequality During this time a number of independent Black organizations sprang up from older roots giving the black population a place to create develop and share narratives about life in Brazil Within these organizations they developed a sense of racial consciousness that gave rise to the Movimento Negro Unificado MNU in 1979 The MNU or Unified Black Movement created an outlet for racial grievances and gave a voice to those previously unheard This intensive historical study of Brazil's Movimento Negro Unificado centers on the political effects and ramifications of the group In order to present a complete picture of the MNU it looks at the organization within four separate contexts international national historical and human Through this approach the MNU is examined in relation to the African Diaspora the European colonization of the Americas the Atlantic Slave Trade and the development of Brazil as an independent state From a national perspective the MNU is viewed amid other social organizations and cultural expressions The result is a detailed study that admits the organization's shortcomings but assesses them contextually providing a more complete and nuanced understanding of the significance of the MNU's problems and achievements Appendices offer additional information such as the MNU Letter of Principles the Constitution of the MNU the preamble to the MNU Action Program and the MNU Hymn A glossary is also included **The Country of Football** Roger Kittleston, 2014-06-12 Soccer is the world's most popular sport and the Brazilian national team is beloved around the planet for its beautiful playing style the *jogo bonito* With the most successful national soccer team in the history of the World Cup Brazil is the only country to have played in every competition and the winner of more championships than any other nation Soccer is perceived like carnival and samba to be quintessentially Brazilian and Afro Brazilian Yet the practice and history of soccer are also synonymous with conflict and contradiction as Brazil continues its trajectory toward modernity and economic power The ongoing debate over how Team Brazil should play and positively represent a nation of demanding supporters

bears on many crucial facets of a country riven by racial and class tensions The Country of Football is filled with engaging stories of star players and other key figures as well as extraordinary research on local national and international soccer communities Soccer fans scholars and readers who are interested in the history of sport will emerge with a greater understanding of the complex relationship between Brazilian soccer and the nation s history *Urban Encounters* A. Cicalo,2012-10-15 Winner of the Latin American Studies Association Brazil Section Book Awards Utilizing an ethnographic study of a public university and its users Cicalo analyzes the practical and symbolic potential that affirmative action has to redress historically produced and territorialized inequalities in the urban space **Becoming Brazilian** Marshall C. Eakin,2017-07-25 This book examines how Gilberto Freyre s notion of mesti agem race mixing became the overwhelmingly dominant narrative of national identity in twentieth century Brazil It will be of interest to scholars and students interested in Brazil Latin America race nationalism national identity and popular culture **Pretty Modern** Alexander Edmonds,2010-12-13 This ethnographic account of Brazils emergence as a global leader in plastic surgery takes readers from Ipanema socialite circles to telenovela studios to the packed waiting rooms of public hospitals offering free cosmetic surgery

particularly Brazil and the United States Brazil and the United States are two countries in the Americas that have been major hosts for the African diaspora Both countries experienced prolonged enslavement of Africans and both now claim to be beacons of democracy for much of the developing world Both Afro Brazilians and African Americans have fielded major liberation movements against racism and oppression yet both groups continue to experience considerable residual racial discrimination and displacement Brazil and the U S remain racialized societies though both officially purport to be otherwise The chapters of this volume illuminate a common search for understanding how race operates in societies generally and how shapes life opportunities for African Americans and Afro Brazilians both oppressed by this most detrimental social construction The project that fueled this volume represented a rare opportunity for collaboration between Afro Brazilian scholars and their African American counterparts This volume offers a passionate conversation between colleagues who have endured common sociopolitical and cultural struggles but who have only belatedly been able to meet and connect as individuals Both groups share identities as scholars and activists for neither identity alone is sufficient to nourish the longings of their hearts nor of their consciences This volume also represents an all too rare opportunity to give voice and expression to the work of Afro Brazilian scholars Volume 9 of the National Political Science Review also carries a special tribute to Mack Henry Jones a senior black political scientist retiring from Atlanta University and honors Jones s legacy and continues his quest for understanding the nature and intricacies of oppression and possible paths to liberatio

Welburn,Joshua Guetzkow,Nissim Mizrahi,Hanna Herzog,Elisa Reis,2018-11-27 A comparative look at how discrimination is experienced by stigmatized groups in the United States Brazil and Israel Racism is a common occurrence for members of marginalized groups around the world Getting Respect illuminates their experiences by comparing three countries with enduring group boundaries the United States Brazil and Israel The authors delve into what kinds of

stigmatizing or discriminatory incidents individuals encounter in each country how they respond to these occurrences and what they view as the best strategy whether individually collectively through confrontation or through self improvement for dealing with such events This deeply collaborative and integrated study draws on more than four hundred in depth interviews with middle and working class men and women residing in and around multiethnic cities New York City Rio de Janeiro and Tel Aviv to compare the discriminatory experiences of African Americans black Brazilians and Arab Palestinian citizens of Israel as well as Israeli Ethiopian Jews and Mizrahi Sephardic Jews Detailed analysis reveals significant differences in group behavior Arab Palestinians frequently remain silent due to resignation and cynicism while black Brazilians see more stigmatization by class than by race and African Americans confront situations with less hesitation than do Ethiopian Jews and Mizrahim who tend to downplay their exclusion The authors account for these patterns by considering the extent to which each group is actually a group the sociohistorical context of intergroup conflict and the national ideologies and other cultural repertoires that group members rely on Getting Respect is a rich and daring book that opens many new perspectives into and sets a new global agenda for the comparative analysis of race and ethnicity

Music, National Identity and the Politics of Location Vanessa Knights, 2016-04-29 How are national identities constructed and articulated through music Popular music has long been associated with political dissent and the nation state has consistently demonstrated a determination to seek out and procure for itself a stake in the management of its popular musics Similarly popular musics have been used from the ground up as sites for both populist and popular critiques of nationalist sentiment from the position of both a globalizing and a local vernacular culture The contributions in this book arrive at a critical moment in the development of the study of national cultures and musicology The book ranges from considerations of the ideological focus of cultural nationalism through to analyses of musical hybridity and musical articulations of other kinds of identities at odds with national identity The processes of global homogenization are thereby shown to have brought about a transitional crisis for national cultural identities the evolution of these identities particularly with reference to the concept of authenticity in music is situated within broader debates on power political economy and constructions of the self Theorizations of practice are employed after the manner of Bourdieu Gramsci Goffman Gadamer Habermas Bhabha Lacan and Žižek Each contribution acts as a case study to characterize the strategies through which differing modes of musical discourse engage critique or obscure discourses on national identity The studies include discussions of musical representations of Irishness the relationship between Afropop and World Music Norwegian club music the revival of traditional music in Serbia resistance to cultural homogeneity in Brazil contemporary Uyghur song in Northwest China rap and race in French society technobanda from the barrios of Los Angeles and Spanish Moroccan rai In this way the book seeks to characterize the ideological configurations that help to activate and sustain hegemonic amb
