Racial Thinking In The United States Uncompleted Independence:

Racial Thinking in the United States G. Reginald Daniel, 2004 **Racial Thinking in the United States** Paul R. Spickard, G. Reginald Daniel, 2004 Racial Thinking in the United States is a comprehensive reassessment of the ideas that Americans have had about race This useful book draws on the skills and perspectives of nine scholars from the fields of history sociology theology American studies and ethnic studies In thirteen carefully crafted essays they tell the history of the American system of racial domination and of twentieth century challenges to that racial hierarchy from monoracial movements to the multiracial movement This collection begins with an introduction to how Americans have thought about race ethnicity and colonialism The first section of the book describes the founding of racial thinking in the United States along the racial binary of Black and White and compares that system to the quite different system that developed in Jamaica Section two describes anomalies in the racial binary such as the experiences of people of mixed race and of states such as Texas California and Hawaii where large groups of non Black and White racial groups co exist Part three analyzes five monoracial challenges to racial hierarchy the Civil Rights and Black Power movements the Chicana o movement the Asian Ame

American Mestizos, The Philippines, and the Malleability of Race Nicholas Trajano Molnar, 2017-06-01 The American mestizos a group that emerged in the Philippines after it was colonized by the United States became a serious social concern for expatriate Americans and Filipino nationalists far disproportionate to their actual size confounding observers who debated where they fit into the racial schema of the island nation Across the Pacific these same mestizos were racialized in a way that characterized them as a asset to the United States opening up the possibility of their assimilation to American society during a period characterized by immigration restriction and fears of miscegenation Drawing upon Philippine and American archives Nicholas Trajano Molnar documents the imposed and self ascribed racializations of the American mestizos demonstrating that the boundaries of their racial identity shifted across time and space with no single identity coalescing

The Allure of Blackness among Mixed-Race Americans, 1862-1916 Ingrid Dineen-Wimberly, 2019-10-01 In The Allure of Blackness among Mixed Race Americans 1862 1916 Ingrid Dineen Wimberly examines generations of mixed race African Americans after the Civil War and into the Progressive Era skillfully tracking the rise of a leadership class in Black America made up largely of individuals who had complex racial ancestries many of whom therefore enjoyed racial options to identity as either Black or White Although these people might have chosen to pass as White to avoid the racial violence and exclusion associated with the dominant racial ideology of the time they instead chose to identify as Black Americans a decision that provided upward mobility in social political and economic terms Dineen Wimberly highlights African American economic and political leaders and educators such as P B S Pinchback Theophile T Allain Booker T Washington and Frederick Douglass as well as women such as Josephine B Willson Bruce and E Azalia Hackley who were prominent clubwomen lecturers educators and settlement house founders In their quest for leadership

within the African American community these leaders drew on the concept of Blackness as a source of opportunities and power to transform their communities in the long struggle for Black equality The Allure of Blackness among Mixed Race Americans 1862 1916 confounds much of the conventional wisdom about racially complicated people and details the manner in which they chose their racial identity and ultimately overturns the passing trope that has dominated so much Americanist scholarship and social thought about the relationship between race and social and political transformation in the nineteenth and twentieth centuries **Handbook of Brand Relationships** Deborah J. MacInnis, C. Whan Park, Joseph W.

into internment camps solely on the basis of ethnicity **Almost All Aliens** Paul Spickard,2009-05-07 Almost All Aliens offers a unique reinterpretation of immigration in the history of the United States Leaving behind the traditional melting pot model of immigrant assimilation Paul Spickard puts forward a fresh and provocative reconceptualization that embraces the multicultural reality of immigration that has always existed in the United States His astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion Examining not only the lives of those who crossed the Atlantic but also those who crossed the Pacific the Caribbean and the North American Borderlands Almost All Aliens provides a distinct inclusive analysis of immigration and identity in the United States from 1600 until the present For additional information and classroom resources please visit the Almost All Aliens companion website at www.routledge.com/textbooks/almostallaliens
