## **Racial Separation In South Africa:**

**Race and Reconciliation in South Africa** William E. Van Vugt, G. Daan Cloete, 2000-01-01 In the mid 1990s the Truth and Reconciliation Commission disclosed its findings on the awful reality of the apartheid era in South Africa. The Commission inspired scholars from Europe, North America and South Africa to convene a group of their own to investigate in multicultural scholarly dialogue the history, theology, philosophy and politics of race and reconciliation in South Africa. This volume is the product of that important dialogue. And while the focus is the particular environment of South Africa, the contributors work within a comparative perspective using examples from other nations and cultures to explore that which makes South Africa unique. Ultimately, the book aims to offer not only a better understanding of the depth of injustice in South Africa's past but also a deeper appreciation for the achievement of the present and the promise of the future in South Africa and in every other multiethnic region in the world. **Racial Separation in South Africa** Eugene P. Dvorin, 1952

Segregation and Apartheid in Twentieth Century South Africa William Beinart, Saul Dubow, 2013-04-15 As South Africa moves towards majority rule and blacks begin to exercise direct political power, apartheid becomes a thing of the past, but its legacy in South African history will be indelible. This book is designed to introduce students to a range of interpretations of one of South Africa's central social characteristics: racial segregation. It brings together eleven articles which span the whole history of segregation from its origins to its final collapse, reviews the new historiography of segregation and the wide variety of intellectual traditions on which it is based. Includes a glossary, explanatory notes and further reading. The Pitfalls of Liberal Democracy and Late Nationalism in South Africa M. Muiu, 2008-12-08 This book compares African and Afrikaner nationalisms to demonstrate that the transition from apartheid to liberal democracy in South Africa was a neo-colonial settlement that left the economy and the military and security sectors under the control of the white minority while increasing wide socioeconomic disparities between rich and poor. *State, Civil Society and Apartheid in South Africa* T. Kuperus, 1999-04-07 An examination of the role played by civil society in the legitimisation of South Africa's apartheid regime and its racial policy. This book focuses on the interaction of dominant groups within the Dutch Reformed Church and the South African state over the development of race policy within the broader context of state-civil society relations. This allows a theoretical examination and typology of the variety of state-civil society relations. Additionally, the particular case study demonstrates that civil society's existence in authoritarian situations can deter the establishment of democracy when components of civil society identify themselves with exclusive ethnic interests.
