Nietzschean or a Kierkegaardian sense of life Or is it Sisyphean in Camus's sense Can truth be overrated The political side that is out of power is the side that hallucinates the most If there's a serious chance we're living in a Matrix type simulation how should we change our behavior Are most public policy issues just too complex and technical for most people to have an opinion about In politics says Adams it's as if different people watch the same movie at the same time some thinking it's a romantic comedy and others thinking it's a horror picture How is that possible Does logic play any part in persuasion
