Racism The Australian Experience A Study Of Race Prejudice In Australia Volume 3 Colonialism:

English and the Discourses of Colonialism Alastair Pennycook, 2002-09-11 English and the Discourses of Colonialism opens with the British departure from Hong Kong marking the end of British colonialism Yet Alastair Pennycook argues that this dramatic exit masks the crucial issue that the traces left by colonialism run deep This challenging and provocative book looks particularly at English English language teaching and colonialism It reveals how the practice of colonialism permeated the cultures and discourses of both the colonial and colonized nations the effects of which are still evident today Pennycook explores the extent to which English is as commonly assumed a language of neutrality and global communication and to what extent it is by contrast a language laden with meanings and still weighed down with colonial discourses that have come to adhere to it Travel writing newspaper articles and popular books on English are all referred to as well as personal experiences and interviews with learners of English in India Malaysia China and Australia Pennycook concludes by appealing to postcolonial writing to create a politics of opposition and dislodge the discourses of colonialism from English Racism - the Australian Experience ,1972 *The Devil's Milk* John Andrew Tully, 2011 Capital as Marx once wrote comes into the world dripping from head to foot from every pore with blood and dirt He might well have been describing the long grim history of rubber From the early stages of primitive accumulation to the heights of the industrial revolution and beyond rubber is one of a handful of commodities that has played a crucial role in shaping the modern world and yet as John Tully shows in this remarkable book laboring people around the globe have every reason to regard it as the devil s milk All the advancements made possible by rubber industrial machinery telegraph technology medical equipment countless consumer goods have occurred against a backdrop of seemingly endless exploitation conquest slavery and war But Tully is quick to remind us that the vast terrain of rubber production has always been a site of struggle and that the oppressed who toil closest to the devil s milk in all its forms have never accepted their immiseration without a fight This book the product of exhaustive scholarship carried out in many countries and several continents is destined to become a classic Tully tells the story of humanity s long encounter with rubber in a kaleidoscopic narrative that regards little as outside its rangewithout losing sight of the commodity in question With the skill of a master historian and the elegance of a novelist he presents what amounts to a history of the modern world told through the multiple lives of rubber The Australian People James Jupp, 2001-10 Australia is one of the most ethnically diverse societies in the world today From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century the island continent is home to people from all over the globe Each new wave of settlers has had a profound impact on Australian society and culture The Australian People documents the dramatic history of Australian settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people It is one of the largest reference works of its kind with approximately 250 expert contributors and almost one million words Illustrated in colour and black and white

the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation

Islamic Revivalism Jan A. Ali, 2012-06 Contemporary Islamic revivalism is a multi dimensional and multi faceted phenomenon This book explores this phenomenon through an ethnographic study of the world s largest Islamic revivalist movement the Tabligh Jama at Convey message of Islam Group The basic contention of the book is that contemporary Islamic revivalism is a defensive reaction to the crisis of modernity yet it is neither anti modernity nor does it seek modernity s destruction Rather it highlights that Muslims are in a crisis They face the threat of losing their faith and identity in modernity because according to the revivalist Muslims the true Islamic practice no longer constitutes the foundation of everyday Muslim living To preclude this from reaching a point of no return Islamic revivalist movements like the Tabligh Jama at are engaged in encouraging Muslims to return to the true teachings of Islam and restoring the Islamic glory that once was the envy of the world This volume highlights the veritable sectarian intensity with which Tablighis undertake this restorative work

Black People in the British Empire Peter Fryer, 2021-06-20 Fantastic the most important book on Black British history Akala Black People in the British Empire is a challenge to the official version of British history It tells the story of Britain s exploitation and oppression of its subject peoples in its colonies and in particular the people of Africa Asia and Australasia Peter Fryer reveals how the ideology of racism was used as justification for acquiring and expanding the Empire how the British Industrial Revolution developed out of profits from the slave trade and how the colonies were deliberately de industrialised to create a market for British manufacturers In describing the frequency and the scale of revolts by subject peoples against slavery and foreign domination and the brutality used in crushing them Peter Fryer exposes the true history of colonialism and restores to Black people their central role in Britain s past

Facts in Public Law Adjudication Joe Tomlinson, Anne Carter, 2023-10-19 This book explores critical issues about how courts engage with questions of fact in public law adjudication Although the topic of judicial review the mechanism through which individuals can challenge governmental action continues to generate sustained interest amongst constitutional and administrative lawyers there has been little attention given to questions of fact This is so despite such determinations of fact often being hugely important to the outcomes and impacts of public law adjudication The book brings together scholars from across the common law world to identify and explore contested issues common challenges and gaps in understanding The various chapters consider where

facts arise in constitutional and administrative law proceedings the role of the courts and the types of evidence that might assist courts in determining legal issues that are underpinned by complex and contested social or policy questions The book also considers whether the existing laws and practices surrounding evidence are sufficient and how other disciplines might assist the courts The book reconnects the key practical issues surrounding evidence and facts with the lively academic debate on judicial review in the common law world it therefore contributes to an emerging area of scholarly debate and also has practical implications for the conduct of litigation and government policy making

Severing the Ties that Bind Katherine Pettipas, 1994-10-28 Religious ceremonies were an inseparable part of Aboriginal traditional life reinforcing social economic and political values However missionaries and government officials with ethnocentric attitudes of cultural superiority decreed that Native dances and ceremonies were immoral or un Christian and an impediment to the integration of the Native population into Canadian society Beginning in 1885 the Department of Indian Affairs implemented a series of amendments to the Canadian Indian Act designed to eliminate traditional forms of religious expression and customs

such as the Sun Dance the Midewiwin the Sweat Lodge and giveaway ceremonies However the amendments were only partially effective Aboriginal resistance to the laws took many forms community leaders challenged the legitimacy of the terms and the manner in which the regulations were implemented and they altered their ceremonies the times and locations the practices in an attempt both to avoid detection and to placate the agents who enforced the law Katherine Pettipas views the amendments as part of official support for the destruction of indigenous cultural systems She presents a critical analysis of the administrative policies and considers the effects of government suppression of traditional religious activities on the whole spectrum of Aboriginal life focussing on the experiences of the Plains Cree from the mid 1880s to 1951 when the regulations pertaining to religious practices were removed from the Act She shows how the destructive effects of the legislation are still felt in Aboriginal communities today and offers insight into current issues of Aboriginal spirituality including access to and use of religious objects held in museum repositories protection of sacred lands and sites and the right to indigenous religious practices in prison
