singular goal was to get to space When he realized NASA was winding down manned space flight Diamandis set out on one of the great entrepreneurial adventure stories of our time If the government wouldn't send him to space he would create a private space flight industry himself In the 1990s this idea was the stuff of science fiction Undaunted Diamandis found inspiration in an unlikely place the golden age of aviation He discovered that Charles Lindbergh made his transatlantic flight to win a 25 000 prize The flight made Lindbergh the most famous man on earth and galvanized the airline industry Why Diamandis thought couldn't the same be done for space flight The story of the bullet shaped SpaceShipOne and the other teams in the hunt is an extraordinary tale of making the impossible possible It is driven by outsized characters Burt Rutan Richard Branson John Carmack Paul Allen and obsessive pursuits In the end as Diamandis dreamed the result wasn't just a victory for one team it was the foundation for a new industry and a new age      *Webster's Collegiate Dictionary* Noah Webster,1925      **Webster's Collegiate Dictionary** ,1917      *Official Gazette of the United States Patent Office* USA Patent Office,1895      **Official Gazette of the United States Patent Office** United States. by urban renewal and highway construction This historical divergence had profound consequences in how urban change has been experienced understood and remembered Drawing extensive interviews a massive and varied archive of imagery and original photography by David Lewis into a complex chorus Steven High brings these communities to life tracing their history from their earliest years to their decline and their current reality He extends the analysis of deindustrialization often focused on single industry towns to cities that have seemingly made the post industrial transition The urban neighbourhood has never been a settled concept and its apparent innocence masks considerable contestation divergence and change over time Deindustrializing Montreal thinks critically about locality revealing how heritage becomes an agent of gentrification investigating how places like Little Burgundy and the Point acquire race and class identities and questioning what is preserved and for whom
