Radar Men From The Moon Serial:

Serials and Series Buck Rainey, 2015-06-08 While many fans remember The Lone Ranger Ace Drummond and others fewer focus on the facts that serials had their roots in silent film and that many foreign studios also produced serials though few made it to the United States The 471 serials and 100 series continuing productions without the cliffhanger endings from the United States and 136 serials and 37 series from other countries are included in this comprehensive reference work Each entry includes title country of origin year studio number of episodes running time or number of reels episode titles cast production credits and a plot synopsis Encyclopedia of American Film Serials Geoff Mayer, 2017-02-07 From their heyday in the 1910s to their lingering demise in the 1950s American film serials delivered excitement in weekly installments for millions of moviegoers despite minuscule budgets nearly impossible shooting schedules and the disdain of critics Early heroines like Pearl White Helen Holmes and Ruth Roland broke gender barriers and ruled the screen Through both world wars such serials as Spy Smasher and Batman were vehicles for propaganda Smash hits like Flash Gordon and The Lone Ranger demonstrated the enduring mass appeal of the genre Providing insight into early 20th century American culture this book analyzes four decades of productions from Pathe Universal Mascot and Columbia and all 66 Republic serials

Science Fiction Serials Roy Kinnard, 2015-08-13 Destination Moon George Pal's 1950 Technicolor epic is generally cited as the first noteworthy science fiction film Usually ignored or casually dismissed in genre histories are the serials the low budget chapterplays exhibited as Saturday matinee fare and targeted almost exclusively at children Lacking stars and top notch writers or directors the serials went largely unnoticed and unacknowledged by either critics or by the film industry Yet serials were financially important to the Hollywood studios and were often free to exploit risky or outlandish subjects that producers of distinguished movies would not touch Influential serials such as The Phantom Empire 1935 and Flash Gordon 1936 finally brought science fiction themes to the big screen Those serials and 29 others are exhaustively covered in this work which provides complete cast and credit information along with plot descriptions and historical commentary for each serial Video distributors if available are also listed **Great Movie Serials Cb** Jim Harmon, Donald F. Glut, 2013-10-28 First published in 1973 Movie Serials Their Sound and Fury invites you to take a nostalgic trip back to Saturday afternoon and remember your local cinema anytime from 1030 to the 1950s Thrill once again to the spine tingling adventures of Dick Tracy Terry and the Pirates Tarzan Flash Gordon The Green Hornet The Shadow The Perils of Pauline and all the other super heroes and arch villains of by gone days *Planetary Delusion ...The Falling Away* Steve Barrett, 2020-06-17 Planetary Delusion The Falling Away By Steve Barrett Using the Authorized Bible Steve Barrett explores the topic of the true age and shape of the earth Barrett argues that the heliocentric lie has been the foundation for many deceiving theologies This planetary delusion has been a vehement force of indoctrination that could be the most deceptive way to introduce an intergalactic savior with malicious intent Planetary Delusion The Falling Away describes the prevalence of end times

deception and illustrates the importance of the biblical description of earth and how it may be related to the falling away. While primarily an eschatological study it was written with both the Christian and non believer in mind. Readers willing to have an open mind will be provoked to study the Bible and dig deeper to discover the truth for themselves.

The Spacesuit Film Gary Westfahl, 2014-01-10 Filmmakers employ various images to suggest the strangeness of outer space but protective spacesuits most powerfully communicate its dangers and the frailty of humans beyond the cradle of Earth. Many films set in space however forgo spacesuits altogether reluctant to hide famous faces behind bulky helmets and ill fitting jumpsuits. This critical history comprehensively examines science fiction films that portray space travel realistically and sometimes not quite so by having characters wear spacesuits. Beginning with the pioneering *Himmelskibet* 1918 and *Woman on the Moon* 1929 it discusses other classics in this tradition including *Destination Moon* 1950 *Riders to the Stars* 1954 and *2001 A Space Odyssey* 1968. C films that gesture toward realism but betray that goal with melodramatic villains low comedy or improbable monsters. D the distinctive spacesuit films of Western Europe Russia and Japan and E America's spectacular real life spacesuit film the televised Apollo 11 moon landing 1969.

Movie Monsters in Scale Mark C. Glassy, 2012-12-01 This book showcases stunningly realistic and wonderfully posed models and dioramas depicting various characters and scenes from science fiction and horror cinema. The models and dioramas are presented in chronological order starting with the silent films from 1910 to 1927 then the classic films from the 1930s and 1940s including Universal Studios *Dracula* *Frankenstein* and *Wolf Man* franchises. Next are the many radiation induced mutants and invaders from outer space of the 1950s followed by offerings from the 1960s 1970s 1980s and 1990s. Hammer Films are included as well as the *Mummy* movies and Universal's *Gillman* series. A detailed explanation of the nitty gritty of model and diorama building is presented and particular details unique to each piece are shown in close ups and discussed. The figures are of unprecedented artistry.

Movies, Modernism, and the Science Fiction Pulp J. P. Telotte, 2019-07-11 What impact did the new art of film have on the development of another new art the emerging science fiction genre during the pre and early post World War II era? Focusing on such popular pulp magazines as *Amazing Stories* *Astounding Stories* and *Wonder Stories* this book traces this early relationship between film and literature through four common features: stories that involve film or the film industry; film related advertising; editorial matters and readers' letters commenting on film; and the magazines' heralded cover and story illustrations. By surveying these haunting traces of another medium in early science fiction discourse we can begin to see the key role that a cinematic mindedness played in this formative era and to expand the early history of science fiction as a cultural idea beyond the usual boundaries that have been staked out by its literary manifestations and the genre's historians.

is only when we lose sight of the moon that lunar truths begin to come forth This is because fantastic elements of the moon by their mere absurdity can indicate non fantastic elements However what is of interest here is not realistic or fantastic lunar truths but rather that the moon is an object which invites or even demands more than one truth at once Double Feature Creature Attack Tom Weaver,2003-02-19 This whopping big McFarland Classic brings together 43 interviews with horror and science fiction movie writers producers directors and the men and women who saved the planet from aliens behemoths robots zombies and other sinister stumbling threats in the movies at least The interviewees reminisce about some of their great and not so great films and tell their stories This classic volume represents the union of two previous volumes 1994 s Attack of the Monster Movie Makers anecdotes are frank and revealing Video Watchdog and 1995 s They Fought in the Creature Features a fun book for all SF film enthusiasts Interzone Together at last this combined collection of interviews offers a candid and delightful perspective on the movies that still make audiences howl and squeal though fear has long been replaced with sweet nostalgia **Serials-ly Speaking** William C. REFLECTIONS OF A "B"- MOVIE JUNKIE Jim Driscoll,2008-12-30 *Reflections Of A B Movie Junkie* is a tribute to the old B Movies of the Saturday Matinees of yesteryear Actually it is more of a homage to them or at least 6 genres of those film types that were so prevalent back in primarily the 40 s and 50 s Their research and discussion however in some instances dates all the way back to the beginning of the talkies of motion picture content and can extend in the other direction into the early 70s These 6 genres include the popular B Western The Comedy Teams The Jungle Adventures Sci Fi Fantasy Horror and the Serial or Chapter Plays so popular with the week end Matinee crowds back then These film types filled up our Saturday afternoons and evenings with exciting adventure curious wonder spine tingling horror and non stop action Often filmed on a shoe string budget and in a limited time frame many of these classics came to be looked upon by many fans as being so truly bad that they were good in a bad sort of way They are thus categorized reviewed and discussed for the most part in a lovingly personal style especially when compared to the film types we are subjected to in today s market They had their place in film history and that time is long since gone But for some of us they have never been equaled which for others may indeed be a good thing

The Comic Galaxy of Mystery Science Theater 3000 Chris Morgan,2015-01-09 One of the most original shows in the history of television *Mystery Science Theater 3000* is a beloved cult hit built on the back of another cult phenomenon the bad movie The show s premise involved a man and some robots watching cheesy movies and cracking jokes Over its 197 episodes MST3K developed a passionate fan base that took it from a local UHF show in Hopkins Minnesota to a major motion picture This is the story of MST3K from the beginning to the end Twelve of the episodes are covered giving an in depth look at the show its ethos and its comedic style The films screened in these episodes are discussed critically as are the episodes themselves
