The Mirror of Language (Revised Edition) Marcia L. Colish, 1983-01-01 Early Christianity faced the problem of the human word versus Christ the Word Could language accurately describe spiritual reality The Mirror of Language brilliantly traces the development of one prominent theory of signs from Augustine through Anselm of Canterbury Thomas Aquinas and Dante Their shared epistemology validated human language as an authentic but limited index of preexistent reality both material and spiritual This sign theory could thereby account for the ways men receive know and transmit religious knowledge always mediated through faith Marcia L Colish demonstrates how the three theologians used different branches of the medieval trivium to express a common sign theory Augustine stressed rhetoric Anselm shifted to grammar including grammatical proofs of God s existence and Thomas Aquinas stressed dialectic Dante the one poet included in this study used the Augustinian sign theory to develop a Christian poetics that culminates in the Divine Comedy The author points out not only the commonality but also the sharp contrasts between these writers and shows the relation between their sign theories and the intellectual ferment of the times When first published in 1968 The Mirror of Language was recognized as a pathfinding

study This completely revised edition incorporates the scholarship of the intervening years and reflects the refinements of the author's thought Greater prominence is given to the role of Stoicism and sharper attention is paid to some of the thinkers and movements surrounding the major thinkers treated Concerns of semiotics philosophy and literary criticism are elucidated further The original thesis still controversial is now even wider ranging and more salient to current intellectual debate

Kant on Mind, Action, and Ethics Julian Wuerth, 2014-08-28 In this book Julian Wuerth offers a radically new interpretation of Kant's theories of mind action and ethics As the author of a Copernican revolution in philosophy Kant grounded his philosophy in his positive theory of the mind which remains an enigma two centuries later Wuerth's original interpretation of Kant's theory of mind consults a far wider range of Kant's recorded thought than previous interpretations revealing a fascinating evolution in Kant's thought in the decades before and after his 1781 Critique Starting in the 1760s Kant recognized the unique status of our epistemic contact to ourselves This is the sole instance of our immediate epistemic contact with a substance of being a substance and it is the sole instance of epistemic contact with something other than the particular states of inner sense Contrary to empiricists Kant thus rejects the reduction of the self to a bundle of mental states of inner sense But Kant also rejects the rational psychologists assumption that the soul's substantiality and simplicity implies its permanence incorruptibility and immortality As Kant developed his transcendental idealism he eventually pinpointed the source of their errors a source neither unique to a particular historical school nor random It is instead a deep natural and timeless transcendental confusion Kant's new account of substance allows him to draw new distinctions in kind between sensibility and understanding and between phenomenal and noumenal substance setting the stage for a transcendental argument that only at the phenomenal level do substantiality and simplicity imply permanence and incorruptibility Wuerth next undertakes a groundbreaking study of Kant's theory of action and ethics He first maps Kant's notoriously vast and complex system of the mind's powers drawing on all of Kant's recorded thought This system structures Kant's philosophy as a whole and so provides crucial insights into this whole and its parts including Kant's theory of action a persisting stumbling block for interpreters of Kant's ethics Wuerth demonstrates that Kant rejects intellectualist theories of action that reduce practical agents to pure reason We are instead irreducibly both intellectual and sensible exercising a power of choice or Willkür subject to two irreducible conative currencies moral motives and sensible incentives as Kant makes clear long before his 1785 Groundwork Immoral choices at odds with the former can thus nonetheless be coherent choices in harmony with the latter Wuerth applies these new findings about Kant's theory of mind and action to an analysis of the foundations of Kant's ethics He rejects the dominant constructivist interpretation in favor of a moral realist one At the heart of Kant's Enlightenment ethics is his insistence that the authority of the moral law ultimately rests in our recognition of its authority Kant guides us to this recognition of the authority of the moral law across his works in ethics and his various formulations of the moral law using a single elimination of sensibility procedure Here Kant systematically rejects the pretenses of sensibility

to isolate reason and its insights into moral right and wrong Precisely because immoral choice remains a coherent alternative however moral virtue demands our ongoing cultivation of our capacities for cognition feeling desire and character

Sharing in Christ's Virtues Livio Melina, 2001 The encyclical *Veritatis splendor* The Splendor of Truth represents the first document of the magisterium devoted to the foundations of the Catholic moral life Though it was intended to confront a genuine crisis of moral disintegration and to offer positive directions for carrying out the work of renewing moral theology it was fiercely criticized by theologians who regarded it as a simplistic and repressive document Now several years after the publication of the encyclical Livio Melina offers an original contribution not only to the study of *Veritatis splendor* and the controversy surrounding it but also to the field of moral theology as a whole In *Sharing in Christ's*

Virtues Melina proposes a blueprint for organizing moral theology one that is in harmony with the directions given in Veritatis splendor and one that likewise respects the requirements of both the theological and the scientific character of the discipline He describes it as a Christocentrism of the virtues which understands the moral life of Christians as a participation in the virtues of Christ by means of the grace of one's ecclesial incorporation in Christ Melina argues that the renewal of moral theology should result in first a search for a more integral and dynamic understanding of human action and second a theological re-dimensioning of morality to better comprehend the synergy between human action and God's action The contents of the book are Part One Toward a Christocentrism of the Virtues Lines of Renewal 1 Between Crisis and Renewal The Cultural and Theological Context of Morality Today 2 An Ethics of the Good Life and of Virtue 3 An Ethics Founded on the Truth About the Good of the Person 4 A Morality of Faith The Salvific Relevance of Moral Action 5 A Christocentric Ethics of the Virtues Part Two Ecclesial Sense and Moral Life Perspectives and Developments 6 Ecclesial Dimensions of Moral Theology 7 The Call to Holiness in the Catechism of the Catholic Church The Morality and Spirituality of Life in Christ 8 Moral Conscience and Communio Toward a Response to the Challenge of Ethical Pluralism Livio Melina is professor of moral theology at the John Paul II Institute for Studies on Marriage and Family at the Lateran University in Rome In addition to numerous articles he has written and coauthored several books including La conoscenza morale Linee di riflessione sul Commento di san Tommaso all Etica Nicomachea Morale tra crisi e rinnovamento Corso di bioetica Il Vangelo della vita Amor conjugal y vocacion a la santidad Domanda sul bene e domanda su Dio and Quale dimora per l'agire Dimensioni ecclesiologiche della morale Melina's thought provoking and powerful presentation of key themes in moral theology will be welcomed by English readers One comes away with an understanding and appreciation of the basis of Christian morality for the twenty first century The excellent bibliography lists authors from Aristotle to John Paul II many not well known in the English literature on moral theology Melina's work is timely Catholic Library World

Dimensions of Practical Necessity Katharina Bauer, Somogy Varga, Corinna Mieth, 2017-04-20 This collection of essays provides the first systematic investigation of practical necessity and offers novel perspectives on this intriguing phenomenon While debates on necessity often take place in the realm of metaphysics there is a form of necessity that is pertinent to practical philosophy Here I stand I can do no other a phrase habitually attributed to Martin Luther is often interpreted as revealing underlying normative reasons that exhibit a special kind of necessitating force experienced as an inescapable constraint by the agent However one of the features that make this phenomenon so fascinating is that this constraint is often deciphered as stemming from a form of necessitation that articulates the agent's autonomy or practical identity Luther's saying serves as a leitmotif for an exploration of different claims and challenges related to practical necessity As the complex philosophical investigations are based on familiar everyday experiences the book is accessible to any academic readership
