Chronic Inflammation Masayuki Miyasaka, Kiyoshi Takatsu, 2016-11-01 This book provides readers with the most up to date information on cutting edge research concerning chronic inflammation We now know that when inflammation becomes chronic it acts as a strong disease promoting factor in a variety of disorders including arteriosclerosis obesity cancer and Alzheimer disease Chronic inflammation is hence called as the silent killer it upsets the body's homeostatic mechanism insidiously In spite of these developments we know very little about the mechanism underlying chronic inflammation Particularly we do not know precisely what induces chronic inflammation or what promotes its prolongation in a spatiotemporal framework Neither do we have clear knowledge about how chronic inflammation destroys various tissues or how it predisposes individuals to many different diseases To make the situation worse we have no effective treatment against chronic inflammation Since 2010 two major research programs CREST and PRESTO aimed at clarifying the mechanisms underlying chronic inflammation were launched in Japan and investigators of different research areas with a brilliant track record were selected by their research proposals Subsequently they have made their best efforts to answer the conundrum concerning chronic inflammation This book is a compendium of such research efforts In each chapter the CREST or PRESTO funded researchers summarize their original work concerning mechanisms of induction progression or resolution underlying chronic inflammation The most emphasized characteristic is the molecular aspect of chronic inflammation The book thus presents the most recent progress made in the molecular understanding of chronic inflammation

Helen Duncan Queen, 1909 *Erotic Faith* Robert M. Polhemus, 1995-03 In this profoundly original and far reaching study Robert M Polhemus shows how novels have helped to make erotic love a matter of faith in modern life *Erotic faith* Polhemus argues is an emotional conviction ultimately religious in nature that meaning value hope and even the possibility of transcendence can be found in love Drawing on a wide range of disciplines Polhemus shows the reciprocity of love as subject the novel as form and faith as motive in important works by Jane Austen Walter Scott the Brontës Dickens George Eliot Trollope Thomas Hardy Joyce D H Lawrence Virginia Woolf and Samuel Beckett Throughout Polhemus relates the novelists representation of love to that of such artists as Botticelli Vermeer Claude Lorrain Redon and Klimt Juxtaposing their paintings with nineteenth and twentieth century texts both reveals the ways in which novels develop and individualize common erotic and religious themes and illustrates how the novel has influenced our perception of all art
