Re Presenting Class Essays In Postmodern Marxism:

Re/presenting Class J. K. Gibson-Graham, Stephen Resnick, Richard Wolff, 2001-06-15 Twelve theoretical and historical essays emanate from a novel shared poststructuralist conception of political economy Routledge Handbook of Marxian Economics David M. Brennan, David Kristjanson-Gural, Catherine P. Mulder, Erik K. Olsen, 2017-03-16 Most developed economies are characterized by high levels of inequality and an inability to provide stability or opportunity for many of their citizens Mainstream economics has proven to be of little assistance in addressing these systemic failures and this has led both scholars and students to seek alternatives One such alternative is provided by Marxian economics In recent decades the field has seen tremendous theoretical development and Marxian perspectives have begun to appear in public discourse in unprecedented ways This handbook contains thirty seven original essays from a wide range of leading international scholars recognized for their expertise in different areas of Marxian economics Its scope is broad ranging from contributions on familiar Marxist concepts such as value theory the labor process accumulation crisis and socialism to others not always associated with the Marxian canon like feminism ecology international migration and epistemology This breadth of coverage reflects the development of Marxian economic and social theory and encompasses both the history and the frontiers of current scholarship This handbook provides an extensive statement of the current shape and future direction of Marxian economics The Routledge Handbook of Marxian Economics is an invaluable resource for students researchers and policy makers seeking guidance in this field It is designed to serve both as a reference work and as a supplementary text for classroom use with applications for courses in economics sociology political science management anthropology development studies philosophy and history Postmodern Moments in Modern Economics David F. Ruccio, Jack Amariglio, 2016-06-28 Of all the areas of contemporary thought economics seems the most resistant to the destabilizing effects of postmodernism Yet David Ruccio and Jack Amariglio argue that one can detect within the diverse schools of thought that comprise the discipline of economics moments that defy the modernist ideas to which many economists and methodologists remain wedded This is the first book to document the existence and to explore the implications of the postmodern moments in modern economics Ruccio and Amariglio begin with a powerful argument for the general relevance of postmodernism to contemporary economic thought They then conduct a series of case studies in six key areas of economics From the idea of the multiple self and notions of uncertainty and information through market anomalies and competing concepts of value to analytical distinctions based on gender and academic standing economics is revealed as defying the modernist frame of a singular science The authors conclude by showing how economic theory would change if the postmodern elements were allowed to flourish A work of daring analysis sure to be vigorously debated Postmodern Moments in Modern Economics is both accessible and relevant to all readers concerned about the modernist straightjacket that has been imposed on the way economics is thought about and practiced in the world today **Encountering Althusser** Katja Diefenbach, Sara R. Farris, Gal Kirn, Peter

Thomas, 2013-01-10 French philosopher Louis Pierre Althusser 1918 1990 helped define the politico theoretical conjuncture of pre and post 1968 Today there is a recrudescence of interest in his thought especially in light of his later work published in English as *Philosophy of the Encounter* Verso 2006 This has led to renewed debates on the reformulation of conflicting notions of materialism on the event as both philosophical concept and political construction and on the nature of politics and the political These original essays by leading scholars aim to provide a new assessment of Althusser's thought especially in relation to contemporary debates Organized in four sections that represent the main currents in Althusser's scholarship the book discusses materialism and the different formulations of the relationship between politics and philosophy Althusser's interpretations of political thinkers including Machiavelli Deleuze and Gramsci the resources he provides to critique political economy and politics in post Marxist thought and the theorization of ideology and politics *Encountering Althusser* is a groundbreaking resource that highlights Althusser's continuing relevance to contemporary radical thought **Everyday Economic Practices** Savinna Chowdhury, 2007-01-22 This book brings to the forefront the significance of local everyday economic practices to development policymaking Chowdhury's objective in unearthing these diverse activities is two fold She demonstrates why it is a misrepresentation to characterize all that is economic as capitalism Additionally she contends that in those i Class in America Robert E.  field of political economy in indigenous development public policy sociology and development studies It further establishes
 the relationship between Hinduisation of indigenous communities and rise of Hindu fundamentalism with a mining led
 industrial capital while evaluating the impact on the new economic reforms on tribals and their social cultural and religious
 identities in Orissa *Opting for the Margins* Jeorg Rieger, 2003-09-11 Ideas like the preferential option for the poor arguing
 that people marginalized by the economy have a claim to special consideration have been among the most significant insights
 in twentieth century Christian theology Arising out of various theologies of liberation options for the poor and for people at
 the margins of society have provided major new impulses for biblical studies systematic theology church history ecclesial
 practice and the academic study of religion Opting for the margins continues to be an important issue at a time when the gap
 between rich and poor is growing at an alarming rate both in the United States and in many other parts of the world and
 when other gaps based for example on differences in gender or race continue to linger Recently however options for the
 margins have been challenged by postmodern shifts in intellectual social political and economic realities that often replace
 preferential options with other emphases such as general concerns for pluralism otherness and difference Options for the
 margins are therefore at best reduced to the special interests of certain minority groups or at worst rejected as antiquated
 and irrelevant for the twenty first century The essays in this volume show how some forms of postmodern thought and
 theology can mask patterns of oppression and provide an excuse for deafness to voices from the margins The authors writing
 from a wide variety of national ethnic and theological perspectives seek to revive the preferential option for the poor for the
 postmodern world showing how options for the margins can engage postmodernity in new ways and break new ground in
 religious theological and ethical as well as social political and economic thinking The essays connect philosophical and
 theological arguments to the concrete realities of the postmodern world and to uncover new sources of energy in the life and
 death struggles of people across the globe Women Without Class Julie Bettie, 2014-09-18 In this examination of white and
 Mexican American girls coming of age in California s Central Valley the author turns class theory on its head and offers new
 tools for understanding the ways in which class identity is constructed and at times fails to be constructed in relationship to
 color ethnicity gender and sexuality Documenting the categories of subculture and style that high school students use to
 explain class and racial ethnic differences among themselves she depicts the complex identity performances of contemporary

girls **World of the Third and Hegemonic Capital** Anjan Chakrabarti, Anup Dhar, 2023-05-04 This book brings together Marxian philosophy and Lacanian psychoanalysis to argue that the hegemonic form of global capital is founded on the foreclosure of class and world of the third. The authors counterpose the world of the third to the mainstream notion of the third world seen as a lacking other in desperate need of aid and development. Thus for them the hegemonic form of global capital is engendered through the foregrounding of the poor victim third world and the foreclosure of the non capitalist world of the third. Building on what they characterize as an ab original reading of Marxian historical materialism and the Lacanian real the authors seek to conceptualize a counter hegemonic revolutionary subject as a basis for postcapitalist alternatives to the hegemonic form of global capital.
