contributions to the environment and humankind With skillful prose and a keen eye for a priceless tale Morgan reanimates the story of life on the Santa Fe Trail s well worn routes and its sometimes violent intersection with human life She provides a stirring view of the land and of the animals visible as far as the eye could reach as more than one memoirist described She also champions the many contributions animals made to the Trail s success and to the opening of the American West El Camino Real De Tierra Adentro National Historic Trail Comprehensive Management Plan ,2004
