Re Imagining Justice

Re Imagining Justice:

Reimagining Justice, Human Rights and Leadership in Africa Everisto Benyera, 2019-08-08 Failed attempts in Africa to develop democratised and instil virtues of a just state and society which promote benevolent leadership and advance political and economic rights and freedoms call for a new imagination. By exploring a wide range of issues concerning justice, human rights and leadership, this book makes two major contributions to the extant literature in each of these areas. Firstly, as a project in decoloniality, it constitutes an epistemic break from mainstream logics and approaches to understanding state, society and development in Africa, presenting an approach that is filtered through a Euro American lens that reifies the hegemony of a particular spatio-temporality. In other words, it emphasises the importance of situatedness by thinking from rather than about or with Africa. And secondly, it addresses a fundamental shortcoming in decolonial thought which is often criticised for rejecting western paradigms of thought without providing viable alternatives. The issues covered include state failure in Africa, the geopolitics of US and NATO military interventions on the continent, individual states' responses to international law, indigenous moral political leadership, authentic inclusion of marginalised voices in development practice, an endogenous approach to environmental ethics and a spiritualist reflection on the need for Africa to chart her own course to political, social and economic redemption. By searching for alternative paths to justice, human rights and leadership, this book represents an effort to actualise the core vision of the African Renaissance to find African solutions for African problems.

Reimagining Social Justice Scholarship Tamara Shefer, Carmine Rustin, Floretta Boonzaier, 2025-09-25 Showcasing creative decolonial feminist and critical social justice scholarship located in a South African context, this book works across modalities and disciplines and within art and activism to challenge hegemonic and oppressive forms of gender and sexuality. In the wake of decolonial activism in higher education and civil society since 2015 and the larger struggle for equality and justice, Shefer, Rustin, Boonzaier and their contributors draw primarily from the work of local research and pedagogical projects directed at alternative imaginaries of gender and sexual justice with global import. Increasingly, scholars are engaging in collaborative, dialogical and creative work that foregrounds performance, art, music, crafts, literature as well as embodied affective and relational engagements in the making of knowledge. This book shares some of these diverse counter-hegemonic pedagogies and research approaches that bring an intersectional and decolonial feminist lens to contemporary efforts to decolonise higher education and larger civil society. Producing lines of thought and sharing praxis that destabilises, disrupts and opens up new possibilities for justice scholarship, the book provides a space for going beyond critical reflexivity in research and practice related to gender and sexual inequalities. It seeks to make a scholarly intervention founded on rethinking its own grounds through collaborations with knowledges often deployed by those outside the authoritative expert domains of academia, aligning it with feminist and decolonial aims. This book is a valuable resource for students and scholars of gender, sexuality and intersectionality, particularly those with a focus on the global South. *Land Justice: Re-imagining*

Land, Food, and the Commons Justine M. Williams, Eric Holt-Giménez, 2017-06-22 In recent decades the various strands of the food movement have made enormous strides in calling attention to the many shortcomings and injustices of our food and agricultural system. Farmers, activists, scholars, and everyday citizens have also worked creatively to rebuild local food economies, advocate for food justice, and promote more sustainable agroecological farming practices. However, the movement for fairer, healthier, and more autonomous food is continually blocked by one obstacle: land access. As long as land remains unaffordable and inaccessible to most people, we cannot truly transform the food system. The term "land grabbing" is most commonly used to refer to the large-scale acquisition of agricultural land in Asian, African, or Latin American countries by foreign investors. However, land has and continues to be grabbed in North America as well, through discrimination, real estate speculation, gentrification, financialization, extractive energy production, and tourism. This edited volume, with chapters from a wide range of activists and scholars, explores the history of land theft, dispossession, and consolidation in the United States. It also looks at alternative ways forward toward democratized land justice based on redistributive policies and cooperative ownership models. With prefaces from leaders in the food justice and family farming movements, the book opens with a look at the legacies of white settler colonialism in the southwestern United States. From there, it moves into a collectively authored section on Black Agrarianism, which details the long history of land dispossession among Black farmers in the southeastern US, as well as the creative acts of resistance they have used to acquire land and collectively farm it. The next section on gender explores structural and cultural discrimination against women landowners in the Midwest and also the role of womanism in land-based struggles. Next, a section on the cross-border implications of land enclosures and consolidations includes a consideration of what land justice could mean for farm workers in the US, followed by an essay on the challenges facing young and aspiring farmers. Finally, the book explores the urban dimensions of land justice and their implications for locally autonomous food systems and lessons from previous struggles for democratized land access. Ultimately, the book makes the case that to move forward to a more equitable, just, sustainable, and sovereign agriculture system, the various strands of the food movement must come together for land justice.

Reimagining Diversity, Equity, and Justice in Early Childhood Haeny Yoon, A. Lin Goodwin, Celia Genishi, 2023-08-03 Situated against a backdrop of multiple global pandemics, COVID-19, racial injustice, and violence, inequitable resource distribution, political insurrections, and unrest, this timely and critical volume argues for a divestment in white privilege and an investment in anti-racist pedagogies and practice across early childhood contexts of research, policy, and teaching and learning. Featuring established scholar-practitioners alongside emerging voices, chapters explore key issues around equitable and inclusive practices for young children, covering topics such as multilingualism and multicultural practices of immigrant communities, language varieties and dialects across the Black diaspora, queer pedagogies, and play at the intersection of race, gender, disability, and language. Thoughtfully and compellingly written, each chapter offers an overview of the issue, the theoretical framework, and critical context surrounding it, and

implications for practice **Re-imagining Political Community** Daniele Archibugi, David Held, Martin Köhler, 1998
Understanding world politics today means acknowledging that the state is no longer the only actor in international relations. The interstate system is increasingly challenged by new transnational forces and institutions: multinational companies, cross-border coalitions of social interest groups, globally oriented media, and a growing number of international agencies. These forces increasingly influence interstate decisions and set the agenda of world politics. Though these phenomena have been discussed in the recent literature of international relations, little attention has been given to their impact on political life within and between communities. This book aims to explore the changing meaning of political community in a world of regional and global social and economic relations. The authors of the essays in this volume, who reflect a variety of academic disciplines, reconsider some of the key terms of political association such as legitimacy, sovereignty, identity, and citizenship. Their common approach is to generate an innovative account of what democracy means today and how it can be reconceptualized to include subnational as well as transnational levels of political organization. Inspired by Immanuel Kant's cosmopolitan principles, the authors conclude that favorable conditions exist for a further development of democracy locally, nationally, regionally, and globally.

Re-imagining Curriculum Lynn Quinn, 2019-11-15 The book argues that academics, academic developers, and academic leaders need to undertake curriculum work in their institutions that has the potential to disrupt common sense notions about curriculum and create spaces for engagement with scholarly concepts and theories to re-imagine curricula for the changing times. Now more than ever in the history of higher education, curriculum practices and processes need to be shared; the findings of research undertaken on curriculum need to be disseminated to inform curriculum work. We hope the book will enable readers to look beyond their contextual difficulties and constraints to find spaces where they can dream and begin to implement innovative and creative solutions to what may seem like intractable challenges or difficulties.

Reimagining Medical Education: The Future of Health Equity and Social Justice - E-Book Eduardo Bonilla-Silva, Emily A. Haozous, Gerald Kayingo, William McDade, Lisa Meeks, Ana Núñez, Toyese Oyeyemi, Janet Southerland, Javeed Sukhera, 2024-09-18 Inequities in health care and medical education have a long and complex history involving racism, sexism, ableism, exclusivity, and other forms of social injustice. *Reimagining Medical Education: The Future of Health Equity and Social Justice*, externally commissioned by the American Medical Association and part of the AMA MedEd Innovation Series, explores and addresses these ongoing issues. Using both theoretical and practical approaches, medical educators share a vision of medical education through a social justice lens. The resulting volume focuses on equity throughout medical education, improving the diversity of the student faculty and health workforce, and ameliorating inequitable outcomes among minoritized and marginalized patient populations. This unique, change-oriented text, from the theoretical to the practical, features a diverse team of authors outlining what an equitable future for medical education and health care can be. A thought-provoking account of the negative impact of centuries of asymmetry of power. As part of the AMA MedEd Innovations series.

The Re-imagined Text Jean I. Marsden, 1995 Shakespeare's plays were not always the inviolable texts they are almost universally considered to be today The Restoration and eighteenth century committed what many critics view as one of the most subversive acts in literary history the rewriting and restructuring of Shakespeare's plays Many of us are familiar with Nahum Tate's audacious adaptation of King Lear with its resoundingly happy ending but Tate was only one of a score of playwrights who adapted Shakespeare's plays Between 1660 and 1777 more than fifty adaptations appeared in print and on the stage works in which playwrights augmented substantially cut or completely rewrote the original plays The plays were staged with new characters new scenes new endings and underlying all this novelty new words Why did this happen And why in the later eighteenth century did it stop These questions have serious implications regarding both the aesthetics of the literary text and its treatment for the adaptations manifest the period's perceptions of Shakespeare As such they demonstrate an important evolution in the definition of poetic language and in the idea of what constitutes a literary work In *The Re-Imagined Text* Jean I Marsden examines both the adaptations and the network of literary theory that surrounds them thereby exploring the problems of textual sanctity and of the author's relationship to the text As she demonstrates Shakespeare's works and English literature in general came to be defined by their words rather than by the plots and morality on which the older aesthetic theory focused a clear step toward our modern concern for the word and its varying levels of signification

Re-Imagining Citizenship Education Pablo C. Ramirez, 2023-06-01 In this special edition we call attention to the role of Critical Multicultural Citizenship Education CMCE in schools societies and global contexts The fundamental goal of CMCE is to increase not only the students awareness of and participation in the political aspects of democracy but also students abilities to create and live in an ethnically diverse and just community Global migration and increasing diversity within nations are challenging conceptions of citizenship all over the world The percentage of ethnic minorities in nation states throughout the world has increased significantly within the past 30 years The United States Census for example projects that 50% of the population will consist of culturally linguistically racially ethnic and religiously diverse groups by 2050 With an increase growth of diversity within national borders issues concerning educational equity equality and civic engagement have not always been well attended to in educational and societal contexts Growing ethnic diversity in schools society has not automatically led to a dismantling of persistent educational barriers or structural inequalities In the past decade culturally ethnically and linguistically diverse populations have faced barriers impacting their rights as citizens in the United States and international contexts Citizenship and the rights that are associated with being a citizen are re framed when culturally

ethnically and linguistically students seek equality In 2020 many urban cities in the United States witnessed Latino Black youth demonstrate peacefully guided by social justice and their civic responsibilities Similarly in international contexts students have demonstrated civil disobedience by expressing concerns about their rights as citizens and the disempowerment of communities We emphatically believe that students in K 12 settings must begin to understand their rights as citizens and also advocate for the rights of others in order for communities in the U S and international contexts to achieve democracy
