How Organizations Develop Activists

Hahrie Han,2014 Why are some civic associations better than others at getting and keeping people involved in activism From MoveOn org to the

National Rifle Association Health Care for America Now to the Sierra Club membership based civic associations constantly seek to engage people in civic and political action What makes some more effective than others Using in person observations surveys and field experiments this book compares organizations with strong records of engaging people in health and environmental politics to those with weaker records To build power civic associations need quality and quantity or depth and breadth of activism They need lots of people to take action and also a cadre of leaders to develop and execute that activity Yet models for how to develop activists and leaders are not necessarily transparent This book provides these models to help associations build the power they want and support a healthy democracy In particular the book examines organizing mobilizing and lone wolf models of engagement and shows how highly active associations blend mobilizing and organizing to transform their members motivations and capacities for involvement This is not a simple story about the power of offline versus online organizing Instead it is a story about how associations can blend both online and offline strategies to build their activist base In this compelling book Hahrie Han explains how civic associations can invest in their members and build the capacity they need to inspire action
