Onish, Unauthored, 1997-08 *Mystery Train, 50th Anniversary Edition* Greil Marcus, 2025-09-16 A 50th anniversary edition of the music classic with fully updated discographies and new introductions from Greil Marcus and Dwight Garner In this special 50th anniversary edition of the beloved Plume backlist staple first released in 1975 *Mystery Train* s complex analysis of the relationship between rock n roll music and America is given new life with updated discographies and new introductions by Greil Marcus and Dwight Garner Rather than providing a general overview of influential bands and artists Marcus s definitive book focuses on just six virtually unknown early rock n roller Harmonica Frank the country blues singer Robert Johnson and some of the better known musicians who followed The Band Sly Stone Randy Newman and Elvis Presley This is the original book to take these rock legends and place them in the American culture of their time And now in 2025 *Mystery Train* continues its groundbreaking work for a new generation of readers and music lovers **Mystery Train** Greil Marcus, 2015-04-28 The perfect gift for music fans and anyone who loves artists like Elvis Presley Randy Newman Sly Stone Robert Johnson and Harmonica Frank In 1975 Greil Marcus s *Mystery Train* changed the way readers thought about rock n roll and continues to be sought out today by music fans and anyone interested in pop culture Looking at recordings by six key artists Robert Johnson Harmonica Frank Randy Newman the Band Sly Stone and Elvis Presley Marcus offers a complex and unprecedented analysis of the relationship between rock n roll and American culture In this latest edition Marcus provides an extensively updated and rewritten Note and Discographies section exploring the recordings evolution and continuing impact **The Publishers Weekly** ,2003 *Reading Rock and Roll* Kevin J. H. Dettmar, William Richey, 1999 Considering the work of such artists as Madonna George Clinton U2 Elvis Costello and Nirvana the contributors deftly combine the rigors of scholarship with the energy of rock journalism to provide an analysis at once critical contextualized and enthusiastic While a number of scholars have recently turned their attention to rock and pop music most of their work has focused on providing sweeping cultural contexts for its popularity rather than exploring the music itself Now in *Reading Rock and Roll* Kevin Dettmar and William Richey have gathered a wealth of erudite original and clever writings that perform close readings of rock music often with surprising results The authors in this volume view rock and roll as having had affinities with postmodernism from its inception With its mongrel pedigree drawing on blues folk R and B and bluegrass and its relation to mass media and high tech modes of production rock music has been self conscious and full of irony from the beginning These essays regularly call attention to the allusiveness and intertextuality of rock and roll whether it is Kurt Cobain undermining the Beatles M C Hammer stealing from Rick James s *Super Freak* or U2 s use of Johnny Cash s legendary voice From a careful examination of the roles of addictions and female sexuality in the remakings of Courtney Love and Madonna to the politics of George Clinton s uses and abuses of language to the referencing of Elvis Costello in two recent novels and the use of 1970s rock in several recent film soundtracks these essays are as varied

as the artists they consider Informal and theoretically informed Reading Rock and Roll is an important investigation of the music that more than any other has defined our century **Rock Music** Mark Spicer,2017-07-05 This volume gathers together twenty articles from among the best scholarly writing on rock music published in academic journals over the past two decades These diverse essays reflect the wide range of approaches that scholars in various disciplines have applied to the study of rock from those that address mainly the historical sociological cultural and technological factors that gave rise to this music to those that focus primarily on analysis of the music itself This collection of articles some of which are now out of print or otherwise difficult to access provides an overview of the current state of research in the field of rock music and includes an introduction which contributes to the ongoing debate over the distinction or lack thereof between rock and pop
