A Reader's Guide to Fifty British Plays, 1660-1900 John Cargill Thompson, 1980 **A Reader's Guide to Fifty British Plays** John Cargill Thompson, 1980 **Reader's Guide to Literature in English** Mark Hawkins-Dady, 2012-12-06

Reader's Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study **A Reader's Guide to Fifty Modern British Poets** Michael Schmidt, 1979 **A Reader's Guide to Fifty American Poets** Peter Jones, 1980

Publisher description It's a common belief that the stories we encounter through mass media whether in video games action movies or political comedy skits on Saturday Night Live are just entertaining fantasies that have no tangible impact on our everyday lives attitudes and choices Not so says Karen Dill in this lively and provocative book As much as we may want to deny it the images sounds and narratives that bombard us daily have ample power to alter our realities Dill the author of the single most cited study on the effects of video game violence draws on extensive research in social psychology to show not only the myriad ways for good and ill that media influence us but also why we resist believing they do Vibrantly written and packed with eye opening examples from everyday life her wide ranging analysis encompasses everything from gender and racial stereotyping to social identity domestic violence and presidential politics She discusses the ways that super thin models and actresses have altered women's self images dissects the manipulative strategies of advertising aimed at children and medical consumers and explains how the fake news of The Daily Show and The Colbert Report may offer more authentic and incisive coverage than the cable channels and network newscasts She also assesses the growing importance of new media like text messaging blogs and Facebook in how we communicate and process information In a media saturated society Dill argues understanding precisely how these powerful forces affect us and learning how to deal with them are vital to the very way we function as citizens

How Fantasy Becomes Reality shows what we can do to move from the passenger's seat to the driver's seat as media consumers **A Reader's Guide to Fifty American Novels** Ian Ousby, 1979

Introduces novels by Charles Brockden Brown James Fenimore Cooper Edgar Allan Poe Nathaniel Hawthorne Herman Melville Mark Twain Henry James William Dean Howells Edith Wharton Stephen Crane Frank Norris Theodore Dreiser Jack London Sinclair Lewis F Scott Fitzgerald Ernest Hemingway Thomas Wolfe John Dos Passos William Faulkner John Steinbeck Norman Mailer J D Salinger Ralph Ellison and Saul Bellow **A Reader's Guide to Fifty European Novels** Martin Seymour-Smith, 1980 **A Reader's Guide to Fifty Modern European Poets** John Pilling, 1982

From the Blurb The last century and a quarter has been one of the most fertile periods for poetry in Europe and there has been a corresponding increase in interest among English speaking readers Although the debate about whether poetry is translatable continues John Pilling believes that this growing readership is evidence of a substratum present in every poetic utterance which

enables it to survive and withstand translation Indeed it would be a remarkable linguist who could tackle all the writers included here in their original language and it would be an enormous loss to refuse to do otherwise Apart from the five main European tongues French German Italian Spanish Russian the study includes poets writing in Portuguese Serbo Croat Polish and Greek The book opens with a consideration of the great French poets Baudelaire Mallarme Verlaine Rimbaud who must be the starting point of any survey of modern European poetry The author goes on to consider the brilliant generation of Russians writing before and during the Revolution Akhmatova Mandelstam Tsvetaeva Mayakovsky He does not however neglect the more diverse strands in the rest of Europe including for the purposes of this study the important work being done in Spanish America by Paz Neruda and Borges For each poet the author gives a brief outline of his or her life and major publications then a more detailed consideration of their poetic oeuvre placing it in its context There is also a very detailed and extensive bibliography The book is aimed at the non specific reader who wants a straightforward guide to a diverse and very rich area of contemporary writing Above all it is intended to encourage the reader to return to or discover for the first time the poetry itself **A Reader's Guide to Shakespeare and His Contemporaries** Marguerite Alexander,1979
