Reading Allowed B Reading Connect:

The Connections Between Language and Reading Disabilities Hugh W. Catts, Alan G. Kamhi, 2005-01-15 This is an edited book based on papers presented at a 2003 invitee only conference under the sponsorship of the Merrill Advanced Studies Center of the University of Kansas. The participants were prominent scholars in the areas of language and reading and have research programs funded by NIH and other sources. The purpose of the gathering was to discuss theoretical issues and research findings concerning the relationship between developmental language and reading disabilities specifically looking at neurological, behavioral, and genetic factors. In addition, it discussed other factors contributing to reading difficulties in the middle elementary school years through adolescence and literacy outcomes for children with early language impairments and how these problems relate to children with dyslexia. The Foreword is written by Reid Lyon, Branch Chief, Child Development and Behavior Branch, NICHD, National Institutes of Health. This book appeals to scholars in the areas of language disorders and reading disabilities as well as to practicing speech language pathologists, special educators, and reading specialists. It may also be used in graduate courses designed as seminars in either language disorders or reading disabilities in schools of communication disorders as well as schools of education, especially special education departments.

Reading Teachers Teresa Cremin, Helen Hendry, Lucy Rodriguez Leon, Natalia Kucirkova, 2022-08-31 This engaging text offers primary school educators a principled way forward on their mission to nurture the life-changing habit of reading in childhood. Informed and inspiring, *Reading Teachers* accessibly demonstrates how teachers who are motivated, engaged, and reflective readers themselves can develop new understandings of reading for pleasure and make a difference to young learners. Drawing on a range of research evidence, including studies on reading teachers, disengaged boy readers, student teachers as readers, and work with over 150 schools developing communities of readers, this book provides an accessible overview of international research alongside a highly practical classroom focus. Combining the insights of academics with 24 reading teachers in co-authored chapters, the book includes case studies of how practitioners have used research to inform and improve their practice. In conversation dialogues between educators about classroom practice that fosters positive reader identities, reflections on the editors' own reading habits, practices, and histories, recommended reading, and suggestions of engaging children's books, *Reading Teachers: Nurturing Reading for Pleasure* enables practitioners to develop principled practice helping all children find pleasure and purpose in reading. This book is therefore essential reading for all primary teachers, head teachers, literacy coordinators, and trainee teachers.
