Reading Boileau:

Reading Boileau Robert T. Corum, 1998 In French literary history Nicolas Boileau 1636 1711 has enjoyed legendary status as the great codifier of French classicism the discerning critic who could demolish or elevate several generations of French poets This view of Boileau's role has led to an emphasis on his poetics not his poems which in turn has generated general disdain for his poetic art Robert Corum dispels these misconceptions about Boileau by focusing rigorous critical attention on Boileau's first nine Satires and the accompanying Discours au roy composed between 1657 and 1668 His reading takes into account a number of factors including sources genesis relation to one another coherence and continuity of argument This examination reveals Boileau to be a gifted poet not just a talented versifier or a strait laced mouthpiece for French classical doctrine **Boileau and the French Classical Critics in England**, Boileau and the Nature of Neoclassicism Gordon Pocock, 1980-06-19 Boileau has traditionally been regarded as the spokesman of French neo-classicism but some elements of scholarship have discounted the importance of neo-classical doctrine in general and of Boileau's particular contribution to it Many critical approaches have stressed instead the liveliness and wit of Boileau's poems his love of language and his passionate temperament Mr Pocock uses these critical approaches to demonstrate in detail how Boileau's verve love of contrasts and essentially dramatic imagination animate the major poems But he also argues that such approaches do not in themselves suffice to explain Boileau's special qualities Neo-classicism was an important element in the intellectual life of Europe in the most critical period of the decline of Christianity and the rise of rationalism and science Mr Pocock proposes a reformulation of those views which take account not only of modern criticism but also of Boileau's commitment to neo-classicism and his embodiment of it in his work *Wordsworth's Reading 1770-1799* Duncan Wu, 1993-01-29 A directory of authors and books read by Wordsworth before the age of thirty *Boileau and the French Classical Critics in England (1660-1830)* Alexander Frederick Bruce Clark, 1925 *The Poetry of Translation* Matthew Reynolds, 2011-09-29 A very wide ranging book which launches a new theory of poetry translation and pursues it through readings of poem translations from across the history of English literature It engages with the key debates in translation studies and offers new interpretations of major works such as Pope's Iliad Pound's Cathay and Dryden's Aeneis

Salonnières, Furies, and Fairies, revised edition Anne E. Duggan, 2021-08-27 The original edition of *Salonnières, Furies, and Fairies* published in 2005 was a pathbreaking work of early modern literary history exploring women's role in the rise of the fairy tale and their use of this new genre to carve out roles as major contributors to the literature of their time This new edition with a new introduction and a forward by acclaimed scholar Allison Stedman emphasizes the scholarly legacy of Anne Duggan's original work and its continuing field-changing implications The book studies the works of two of the most prolific seventeenth-century women writers Madeleine de Scudéry and Marie Catherine d'Aulnoy Analyzing their use of the novel the chronicle and the fairy tale Duggan examines how Scudéry and d'Aulnoy responded to and participated in the changes of their society but from different generational and ideological positions This study also takes into account the history of the salon an unofficial institution that served as a locus for elite women's participation in the cultural and literary production of their society In order to highlight the debates that emerged with the increased participation of aristocratic women within the public sphere the book also explores the responses of two academicians Nicolas Boileau and Charles Perrault

The Female Reader in the English Novel Joe Bray, 2008-09-25 In the second half of the eighteenth century the female reader was a frequent topic of cultural debate and moral concern This book examines the variety of ways in which women read the social world in the late eighteenth and early nineteenth-century novel
