Sarah Hutton Juan Navarro Loidi William R Newman Luc Peterschmitt Anna Marie Roos Marius Stan and Gerhard Wiesenfeldt **Charles Olson Reading at Berkeley** Charles John Olson, 1966 Berkeley's A Treatise on the Principles of Human Knowledge P. J. E. Kail, 2014-05-15 A lucid and comprehensive introduction to one of Berkeley's major works which mirrors the structure of that work **Berkeley's Three Dialogues** Stefan Storrie, 2018-01-19 This is the first volume of essays devoted to Berkeley's Three Dialogues between Hylas and Philonous a classic of early modern philosophy Leading experts examine all the central issues in Berkeley's work The Three Dialogues is a dramatization of Berkeley's philosophy in which the two protagonists Hylas and Philonous debate the full range of Berkeleyan themes the rejection of material substance the nature of perception and reality the limits of human knowledge and his approach to the perceived threats of skepticism atheism and immorality When Berkeley presented his first statement of his immaterialist philosophy in the Principles of Human Knowledge three years earlier he was met with incredulity how could a sane person deny the existence of matter Berkeley felt that a new approach was needed in order to bring people over to his novel point of view This new effort was the Three Dialogues In the preface to the Three Dialogues Berkeley stated that its aim was to treat more clearly and fully of certain principles laid down in the Principles Esteem for Berkeley's work has increased significantly in recent decades and this volume will be the starting point for future research **The Ethnography of Reading at Thirty** Matthew Rosen, 2023-11-23 This edited volume examines what the classic text The Ethnography of Reading Boyarin ed 1993 and the diverse ethnographies of reading it helped inspire can offer contemporary scholars interested in understanding the place of reading in social life The Ethnography of Reading at Thirty brings together new research and critical reflections from an international and interdisciplinary group of scholars who have kept their ears tuned to the voices in and around the texts they encountered and constructed in the process of bringing the ethnography of reading into the twenty first century Rather than operating from universalist assumptions about how people interact with and make meaning from written texts each of the present contributors draw in one way or another on the theoretical methodological and creative legacies of The Ethnography of Reading Under the broad umbrella of ethnographic reader studies they collectively explore new relations between texts social imagination and social action *The Early Reception of Berkeley's Immaterialism 1710-1733* Harry M. Bracken, 2012-12-06 By the time of Immanuel Kant Berkeley had been called among other things a sceptic an atheist a solipsist and an idealist In our own day however the suggestion has been advanced that Berkeley is better understood if interpreted as a realist and man of common sense Regardless of whether in the end one decides to treat him as a subjective idealist or as a realist I think it has become appropriate to inquire how Berkeley's own contemporaries viewed his philosophy Heretofore the generally accepted account has been that they ignored him roughly from the time he published the Principles of Human Knowledge until 1733 when Andrew Baxter's criticism appeared The aim of the present study is to correct that account as well as to give some indication not only of the extent but more importantly the role and character of several of the

earliest discussions. Secondly, I have tried to give some clues as to the influence this early material may have had in forming the image of the good Bishop that emerged in the second half of the eighteenth century. For it is my hope that such clues may prove helpful in freeing us from the more severe strictures of the traditional interpretive dogmas.
