Arguing that outlaw narratives become particularly popular and poignant at moments of national ecological and political crisis Sarah Harlan Haughey examines the figure of the outlaw in Anglo-Saxon poetry and Old English exile lyrics such as *Beowulf* works dealing with the life and actions of Hereward the Anglo-Norman romance of Fulk Fitz Waryn the Robin Hood ballads and the *Tale of Gamelyn* Although the outlaw's wilderness shelter changed dramatically from the menacing fens and forests of Anglo-Saxon England to the bright known and mapped greenwood of the late outlaw romances and ballads Harlan

Haughey observes that the outlaw remained strongly animalistic other and liminal His brutality points to a deep literary ambivalence towards wilderness and the animal at the same time that figures such as the Anglo Saxon resistance fighter Hereward the brutal yet courtly Gamelyn and Robin Hood often represent a lost England imagined as pristine and forested In analyzing outlaw literature as a form of nature writing Harlan Haughey suggests that it often reveals more about medieval anxieties respecting humanity s place in nature than it does about the political realities of the period Retelling Stories, Framing Culture John Stephens, Robyn McCallum, 2013-01-11 What happens to traditional stories when they are retold in another time and cultural context and for a different audience This first of its kind study discusses Bible stories classical myths heroic legends Arthurian romances Robin Hood lore folk tales oriental tales and other stories derived from European cultures One chapter is devoted to various retellings of classics from Shakespeare to *Wind in the Willows* The authors offer a general theory of what motivates the retelling of stories and how stories express the aspirations of a society An important function of stories is to introduce children to a cultural heritage and to transmit a body of shared allusions and experiences that expresses a society s central values and assumptions However the cultural heritage may be modified through a pervasive tendency of retellings to produce socially conservative outcomes because of ethnocentric androcentric and class based assumptions in the source stories that persist into retellings Therefore some stories such as classical myths are particularly resistant to feminist reinterpretations for example while other types such as folktales are more malleable In examining such possibilities the book evaluates the processes of interpretation apparent in retellings Index included
