Brave New Digital Classroom Robert J. Blake, 2013-02-15 Brave New Digital Classroom examines the most effective ways to utilize technology in language learning The author deftly interweaves the latest results of pedagogical research with descriptions of the most successful computer assisted language learning CALL projects to show how to implement technology in the foreign language curriculum to assist the second language acquisition process This fully updated second edition includes new chapters on the latest electronic resources including gaming and social media and discusses the realities and potential of distance learning for second language acquisition The author examines the web CALL applications and computer mediated communication CMC and suggests how the new technologically assisted curriculum will work for the foreign language curriculum Rather than advocating new technologies as a replacement for activities that can be done equally well with traditional processes the author envisions a radical change as teachers rethink their strategies and develop their competence in the effective use of technology in language teaching and learning Directed at all language teachers from the elementary school to postsecondary levels the book is ideal for graduate level courses on second language pedagogy It also serves as an invaluable reference for experienced researchers CALL developers department chairs and administrators

Contemporary Computer-Assisted Language Learning Michael Thomas, Hayo Reinders, Mark Warschauer, 2012-11-22 Contemporary Computer Assisted Language Learning CALL is a comprehensive one volume work written by leading international figures in the field focusing on a wide range of theoretical and methodological issues It explains key terms and concepts synthesizes the research literature and explores the implications of new and emerging technologies The book includes chapters on key aspects for CALL such as design teacher education evaluation teaching online and testing as well as new trends such as social media The volume takes a broad look at CALL and explores how a variety of theoretical approaches have emerged as influences including socio cultural theory constructivism and new literacy studies A glossary of terms to support those new to CALL as well as to allow those already engaged in the field to deepen their existing knowledge is also provided Contemporary Computer Assisted Language Learning is essential reading for postgraduate students of language teaching as well as researchers in related fields involved in the study of computer assisted learning
