Since the Revolution of 1978 79 which eventually brought to power Ayatollah Khomeini and his circle of conservative though politically active clerics the relationship between Iran and the USA has represented one of the world s most complex and hostile international entanglements In this book Penelope Kinch analyses the extent to which political identity has contributed to challenges in the relationship and the role of myths in foreign policy Kinch first examines the construction of political identity in each country and thereby traces the imagined norms which have their impact on international behaviour Looking at the misperceptions that have precluded closer communication between the two states Kinch examines both historical issues such as the 1979 US embassy hostage crisis as well as more contemporary crises most notably over Iran s

nuclear power programme Poverty and Social Deprivation in the Mediterranean Maria Petmesidou, Christos Papatheodorou, 2013-07-04 In the growth of regional identities worldwide the Mediterranean Basin is emerging as an entity in its own right This book a unique collaboration among social scientists around the entire Mediterranean littoral covers Southern Europe Turkey the Balkans North Africa and the Near East Leading economists sociologists and social policy experts document with new and up to date empirical material the changing profiles of poverty and social deprivation The result is a thought provoking comparison of the extent severity and structural causes of poverty and social inequality and the huge diversity of public responses to the challenges they pose **Oil in the Gulf** Daniel Heradstveit, 2017-07-05 The US led war against Iraq in 2003 represented the most dramatic shake up of regional politics in the Gulf for more than a decade This book contains an up to date analysis of central questions affecting the construction of a post Ba th regime in Iraq and charts possible ways forward in other key states of the region such as Saudi Arabia and Iran At the heart of the analysis lies the tension between the US sponsored vision of a democratic free market Gulf region and local resistance to this model This resistance appearing in the shape of alternative visions of democracy and the state could potentially present a challenge to US policy through the spread of repressive policies or terrorism especially if Washington chooses to sideline the social forces behind it Conversely if this resistance were taken seriously by the US it could form a point of departure for more fruitful interaction between traditions of government from the West and local politics Future developments on this important issue will be of immense significance for the management of some of the world s largest oil and gas reserves with immediate implications for both regional political stability as well as for the world economy Iran Revisited Ali Pirzadeh, 2016-04-20 This book examines Modern Iran through an interdisciplinary analysis of its cultural norms history and institutional environment The goal is to underline strengths and weaknesses of Iranian society as a whole and to illustrate less prescriptive explanations for the way Iran is seen through a lens of persistent collective conduct rather than erratic historical occurrences Throughout its history Iran has been subject to many studies all of which have diagnosed the country s problem and prescribed solutions based on certain theoretical grounds This book intends to look inward seeking cultural explanations for Iran s perpetual inability to improve its society The theme in this book is based on the eloquent words of Nasir Khusrau a great Iranian poet *az mast ki bar mast* The words are from a poem describing a self adoring eagle that sees its life abruptly ended by an arrow winged with its own feathers the bird is doomed by its own vanity The closest interpretation of this idiom in Western Christian culture is you reap what you sow which conveys a similar message that underlines one s responsibility in the sense that sooner or later we must face the choices we make This would enable us to confront and live up to what Iran s history and culture have taught us **Ethnic Identity and the State in Iran** A.
