**Sacred Space in Early Modern Europe** Will Coster, Andrew Spicer, 2005-07-28 In this 2005 book leading historians examine sanctity and sacred space in Europe during and after the religious upheavals of the early modern period

*Defining the Holy* Sarah Hamilton, 2016-12-05 Holy sites both public churches monasteries shrines and more private domestic chapels oratories populated the landscape of medieval and early modern Europe providing contemporaries with access to the divine These sacred spaces thus defined religious experience and were fundamental to both the geography and social history of Europe over the course of 1 000 years But how were these sacred spaces both public and private defined How were they created used recognised and transformed And to what extent did these definitions change over the course of time and in particular as a result of the changes wrought in the sixteenth and seventeenth centuries Taking a strongly interdisciplinary approach this volume tackles these questions from the point of view of archaeology architectural and art history liturgy and history to consider the fundamental interaction between the sacred and the profane Exploring the establishment of sacred space within both the public and domestic spheres as well as the role of the secular within the sacred sphere each chapter provides fascinating insights into how these concepts helped shape and were shaped by wider society By highlighting these issues on a European basis from the medieval period through the age of the reformations these essays demonstrate the significance of continuity as much as change in definitions of sacred space and thus identify long term trends which have hitherto been absent in more limited studies As such this volume provides essential reading for anyone with an interest in the ecclesiastical development of western Europe from the thirteenth to the eighteenth centuries

Lutheran Churches in Early Modern Europe Andrew Spicer, 2012 Until recently the impact of the Lutheran Reformation has been largely regarded in political and socio economic terms yet for most people it was not the abstract theological debates that had the greatest impact upon their lives but the physical alterations made to their local parish church This collection of essays provides a coherent and interdisciplinary investigation of the impact that the Lutheran Reformation had on the appearance architecture and arrangement of early modern churches By focusing on ecclesiastical material culture the collection helps to place the art and architecture of Lutheran places of worship into the historical political and theological context of early modern Europe

Spaces of Enslavement Andrea C. Mosterman, 2021-10-15 In *Spaces of Enslavement* Andrea C Mosterman addresses the persistent myth that the colonial Dutch system of slavery was more humane Investigating practices of enslavement in New Netherland and then in New York Mosterman shows that these ways of racialized spatial control held much in common with the southern plantation societies In the 1620s Dutch colonial settlers brought slavery to the banks of the Hudson River and founded communities from New Amsterdam in the south to Beverwijck near the terminus of the navigable river When Dutch power in North America collapsed and the colony came under English control in 1664 Dutch descendants continued to rely on enslaved labor Until 1827 when slavery was abolished in New York State slavery

expanded in the region with all free New Yorkers benefitting from that servitude Mosterman describes how the movements of enslaved persons were controlled in homes and in public spaces such as workshops courts and churches She addresses how enslaved people responded to regimes of control by escaping from or modifying these spaces so as to expand their activities within them Through a close analysis of homes churches and public spaces Mosterman shows that over the course of the seventeenth and eighteenth centuries the region s Dutch communities were engaged in a daily struggle with Black New Yorkers who found ways to claim freedom and resist oppression Spaces of Enslavement writes a critical and overdue chapter on the place of slavery and resistance in the colony and young state of New York

**The Sacralization of Space and Behavior in the Early Modern World** Dr Jennifer M DeSilva,2015-05-28 In the Early Modern period as both reformed and Catholic churches strove to articulate orthodox belief and conduct through texts sermons rituals and images communities grappled frequently with the connection between sacred space and behavior The Sacralization of Space and Behavior in the Early Modern World explores individual and community involvement in the approbation reconfiguration and regulation of sacred spaces and the behavior both animal and human within them The individual s understanding of sacred space and consequently the behavior appropriate within it depended on local need group dynamics and the dissemination of normative expectations While these expectations were defined in a growing body of confessionalizing literature locally and internationally traditional clerical authorities found their decisions contested circumvented or elaborated in order to make room for other stakeholders activities and needs To clearly reveal the efforts of early modern groups to negotiate authority and the transformation of behavior with sacred space this collection presents examples that allow the deconstruction of these tensions and the exploration of the resulting campaigns within sacred space Based on new archival research the eleven chapters in this collection examine diverse aspects of the campaigns to transform Christian behavior within a variety of types of sacred space and through a spectrum of media These essays give voice to the arguments exhortations and accusations that surrounded the activities taking place in early modern sacred space and reveal much about how people made sense of these transformations

**The Sacralization of Space and Behavior in the Early Modern World** Dr Jennifer DeSilva,2015-04-28 This book explores individual and community involvement in the approbation reconfiguration and regulation of early modern sacred spaces and the behavior both animal and human within them Based on new archival research chapters examine diverse aspects of the campaigns to transform Christian behavior within a variety of types of sacred space and through a spectrum of media Essays give voice to the arguments and accusations that surrounded the activities taking place in sacred space and reveal much about how people made sense of these transformations

*Faith in War* Nikolas M. Funke,2024-08-01 While the social and cultural history of the early modern military has greatly advanced in the last few decades the religious dimension of the military life in the Holy Roman Empire between 1500 and 1650 has hardly been explored The Reformation brought profound political social and cultural upheavals but the religiosity of the men and

women who followed the Christian life in the chaos of war still represents a large gap in the historiography Faith in War shows that confessional antagonisms lost much of their meaning during war and coexistence became a fact of army life Connecting military and civilian social and cultural history in these ways Nikolas Funke's case study on this period brings new life to important current historiographical discussions in a military context including stereotyping confessionalization social discipline deviance toleration religious violence and the culture of death

**The Oxford History of Anglicanism, Volume I** Anthony Milton, 2017-01-26 The Oxford History of Anglicanism is a major new and unprecedented international study of the identity and historical influence of one of the world's largest versions of Christianity This global study of Anglicanism from the sixteenth century looks at how was Anglican identity constructed and contested at various periods since the sixteenth century and what was its historical influence during the past six centuries It explores not just the ecclesiastical and theological aspects of global Anglicanism but also the political social economic and cultural influences of this form of Christianity that has been historically significant in western culture and a burgeoning force in non western societies today The chapters are written by international experts in their various historical fields which includes the most recent research in their areas as well as original research The series forms an invaluable reference for both scholars and interested non specialists Volume one of The Oxford History of Anglicanism examines a period when the

nature of Anglicanism was still heavily contested Rather than merely tracing the emergence of trends that we associate with later Anglicanism the contributors instead discuss the fluid and contested nature of the Church of England s religious identity in these years and the different claims to what should count as Anglican orthodoxy After the introduction and narrative chapters explain the historical background individual chapters then analyse different understandings of the early church and church history variant readings of the meaning of the royal supremacy the role of bishops and canon law and cathedrals the very diverse experiences of religion in parishes styles of worship and piety church decoration and Bible usage and the competing claims to Anglican orthodoxy of puritanism avant garde conformity and Laudianism Also analysed are arguments over the Church of England s confessional identity and its links with the foreign Reformed Churches and the alternative models provided by English Protestant activities in Ireland Scotland and North America The reforms of the 1640s and 1650s are included in their own right and the volume concludes that the shape of the Restoration that emerged was far from inevitable or expressive of a settled Anglican identity

*Spirituality and Reform* Calvin Lane, 2018-08-15 In colorful detail Calvin Lane explores the dynamic intersection between reform movements and everyday Christian practice from ca 1000 to ca 1800 Lowering the artificial boundaries between the Middle Ages the Reformation and the Enlightenment Lane brings to life a series of reform programs each of which developed new sensibilities about what it meant to live the Christian life Along this tour Lane discusses music art pilgrimage relics architecture heresy martyrdom patterns of personal prayer changes in marriage and family life connections between church bodies and governing authorities and certainly worship The thread that he finds running from the Benedictine revival in the eleventh century to the pietistic movements of the eighteenth is a passionate desire to return to a primitive era of Christianity a time of imagined apostolic authenticity even purity In accessible language he introduces readers to Cistercians and Calvinists Franciscans and Jesuits Lutherans and Jansenists Moravians and Methodists to name but a few of the many reform movements studied in this book Although Lane highlights their diversity he argues that each movement rooted its characteristic practice their spirituality in an imaginative recovery of the apostolic life

*A Short History of the Reformation* Helen L. Parish, 2018-08-30 When in October 1517 Martin Luther pinned his Ninety Five Theses to the door of All Saints Church in Wittenberg he shattered the foundations of western Christendom The Reformation of doctrine and practice that followed Luther s seismic action and protest against the sale of indulgences fragmented the Church and overturned previously accepted certainties and priorities But it did more challenging the relationship between spiritual and secular authority perceptions of the supernatural the interpretation of the past the role of women in society and church and clerical attitudes towards marriage and sex Drawing on the most recent historiography Helen L Parish locates the Protestant Reformation in its many cultural social and political contexts She assesses the Reformers impact on art and architecture on notions of authority scripture and tradition and reflecting on the extent to which the printing press helped spread Reformation ideas on oral print and written culture

**Emancipating Calvin**, 2018-04-17 The eleven essays in *Emancipating Calvin Culture and Confessional Identity in Francophone Reformed Communities* demonstrate the vitality and variety of early modern Francophone Reformed communities by examining the ways that local contexts shaped the reception and implementation of reforming ideas emanating especially from John Calvin and the Reformed church of Geneva The articles address three main themes important for understanding the development of Reformed communities the roles of consistories in Reformed churches and communities the development of various Reformed cultures and the ways in which ritual and worship embodied the theology and cultural foundations of Francophone Reformed churches This *Festschrift* honors the pioneering work of Raymond Mentzer and reflects his influence in modern Francophone Reformed studies

**Crossing the Boundaries of Belief** Duane J. Corpis, 2014-06-03 In early modern Germany religious conversion was a profoundly social and political phenomenon rather than purely an act of private conscience Because social norms and legal requirements demanded that every subject declare membership in one of the state sanctioned Christian churches the act of religious conversion regularly tested the geographical and political boundaries separating Catholics and Protestants In a period when church and state cooperated to impose religious conformity regulate confessional difference and promote moral and social order the choice to convert was seen as a disruptive act of disobedience Investigating the tensions inherent in the creation of religious communities and the fashioning of religious identities in Germany after the Thirty Years War Duane Corpis examines the complex social interactions political implications and cultural meanings of conversion in this moment of German history In *Crossing the Boundaries of Belief* Corpis assesses how conversion destabilized the rigid political social and cultural boundaries that separated one Christian faith from another and that normally tied individuals to their local communities of belief Those who changed their faiths directly challenged the efforts of ecclesiastical and secular authorities to use religious orthodoxy as a tool of social discipline and control In its examination of religious conversion this study thus offers a unique opportunity to explore how women and men questioned and redefined their relationships to local institutions of power and authority including the parish clergy the city government and the family

**The Cambridge History of Sixteenth-Century Music** Iain Fenlon, Richard Wistreich, 2019-01-24 Part of the seminal Cambridge History of Music series this volume departs from standard histories of early modern Western music in two important ways First it considers music as something primarily experienced by people in their daily lives whether as musicians or listeners and as something that happened in particular locations and different intellectual and ideological contexts rather than as a story of genres individual counties and composers and their works Second by constraining discussion within the limits of a 100 year timespan the music culture of

the sixteenth century is freed from its conventional and tenuous absorption within the abstraction of the Renaissance and is understood in terms of recent developments in the broader narrative of this turbulent period of European history Both an original take on a well known period in early music and a key work of reference for scholars this volume makes an important contribution to the history of music      *A Companion to the Reformation in Scotland, c.1525–1638* Ian Hazlett,2021-12-13 This book presents customized chapters by 28 authors on the evolution of the Scottish Reformation from the late 1520s to 1638 The book has broad thematic frameworks into which the specific chapters fit There are 10 such major themes namely external and internal pressures for change breakthrough and revolution theological and philosophical formulations varieties of dissemination and implementation humanism and higher education legal systems and moral order appropriations in literary and popular cultures outsiders evolution of new national identity historiographical traditions and prospective developments While there are introductory elements the chapters both recall previous studies and offer new research Concerns of the book are to recall Reformation core religious dimensions and to highlight Scottish contribution to the rich tapestry of the Reformation in Europe Contributors include Alexander Broadie Flynn Cratty Jane E A Dawson Timothy Duguid Elizabeth Ewan Paul R Goatman Michael F Graham Thomas Green Crawford Gribben W Ian P Hazlett Ernest R Holloway III David Manning Alan R MacDonald Alasdair A MacDonald John McCallum Jamie McDougall David G Mullan Gordon D Raeburn Andrew Spicer Bryan D Spinks Scott R Spurlock Laura A M Stewart Mark S Sweetnam Kristen Post Walton David G Whitla Jack C Whytock and Arthur H Williamson      Gender Differences and the Making of Liturgical History Teresa Berger,2020-03-26 Mapping uncharted territory in the study of liturgy's past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy's past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including intersexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy's past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life      The Ashgate Research Companion to the Counter-Reformation Alexandra Bamji,Geert H. Janssen,Mary Laven,2016-03-23 In the last two decades the history of the Counter Reformation has been stretched and reshaped in numerous directions Reflecting the variety and innovation that characterize studies of early modern Catholicism today this volume incorporates topics as diverse as life cycle and community science and the senses the performing and visual arts material objects and print culture war and the state sacred landscapes and urban structures Moreover it challenges the conventional chronological parameters of the Counter Reformation and introduces the reader to the latest

research on global Catholicism The Ashgate Research Companion to the Counter Reformation presents a comprehensive examination of recent scholarship on early modern Catholicism in its many guises It examines how the Tridentine reforms inspired conflict and conversion and evaluates lives and identities spirituality culture and religious change This wide ranging and original research guide is a unique resource for scholars and students of European and transnational history
