The diagram illustrates a Wireless LAN (WLAN) architecture. A central tower, labeled 'WLAN', acts as the access point. It is connected via a 'LAN' to two server racks, one labeled 'SERVER' and the other 'STORAGE'. The tower also communicates wirelessly with a 'CLIENT' (represented by a laptop) and a 'MOBILE' device (represented by a PDA). Both the client and mobile device are labeled with 'IEEE 802.11', indicating they are compliant with the standard for wireless local area networks.

Superhighway Robbery Graeme R. Newman, Ronald Clarke, 2013-01-11 This book analyzes the expanding crime opportunities created by the Internet and e commerce and it explains how concepts of crime prevention developed in other contexts can be effectively applied in this new environment The authors note that the Internet and associated e commerce constitute a lawless wild frontier where users of the Internet can anonymously exploit and victimize other users without a high risk of being detected arrested prosecuted and punished For acquisitive criminals who seek to gain money by stealing it from others e commerce through the Internet enables them to hack their way into bank records and transfer funds for their own enrichment Computer programs that are readily available for download on the Web can be used to scan the Web for individual computers that are vulnerable to attack By using the Internet addresses of other users or using another person s or organization s computers or computing environment criminals can hide their trails and escape detection After identifying the multiple opportunities for crime in the world of e commerce the book describes specific steps

that can be taken to prevent e commerce crime at particular points of vulnerability The authors explain how two aspects of situational crime prevention can prevent Internet crime This involves both a targeting of individual vulnerabilities and a broad approach that requires partnerships in producing changes and modifications that can reduce or eliminate criminal opportunities The authors apply the 16 techniques of situational crime prevention to the points of vulnerability of the e commerce system The points of vulnerability are identified and preventive measures are proposed In discussing the broad approach of institutionalized and systemic efforts to police e commerce the book focuses on ways to increase the risks of detection and sanctions for crime without undue intrusions on the freedom and privacy of legitimate Internet and e commerce users
