Rosse, 2007-10-12 Love is one of the most exhilarating emotions we experience unfortunately it is also one of the most painful and sometimes traumatic The unresolved emotional scars from a broken heart can manifest as a love trauma syndrome Until now a love trauma was thought to precipitate other common psychiatric conditions such as depression or adjustment disorders but these generic psychiatric ailments are not adequate for articulating the full and unique character of the condition following love trauma The Love Trauma Syndrome Free Yourself from the Pain of a Broken Heart fills the need of patients feeling isolated ashamed or alone in their anguish Dr Richard Rosse a psychiatrist with expertise in the area of emotional breakdown provides a concrete path to help people understand this condition At times the syndrome can seriously diminish the sufferer's quality of life and dramatically impair social academic and occupational activities Dr Rosse warns that there can also be bouts of severe manifestations things go horribly wrong Patients may end up committing suicide A few become so obsessed by their lost loves that they are driven to stalk attack or murder these persons and then ultimately commit suicide However most patients suffer alone and in silence without ever resorting to an act of physical violence Dr Rosse clearly explains that Love Trauma Syndrome is a clinical disorder of too much memory in which the past intrudes upon the present to influence thoughts feelings and behaviors to a much greater extent than is expected It can also be associated with a variety of other behavioral problems the avoidance of future loving relationships nervousness feeling unreal or out of place anger and sleep disturbances The book will educate mental health clinicians on how to recognize and treat people with the syndrome and Dr Rosse discusses a variety of psychotherapeutic and pharmacological treatment options and their rationale The Love Trauma Syndrome is the first book to describe the condition and to present a full array of self help strategies and specific techniques tailored to help those suffering from a love trauma Designed for both lay and professional audiences it is the ideal resource for anyone male or female young or old gay or straight hurt by love to understand what to do to escape the bleak prison of misery **Being, analytically described in its chief respects; and principal truths, in the order of this analysis, fully stated: with a detail of man's spiritual nature and chief relations** John Richard Pickmere, 1854 *Pastoral Counseling: Where One Encounters the Enormity of God's Love* Gerald V. Miller, 2022-08-05 The pastoral counselor brings God's presence to the counseling session The counselor radiates God's enormous unconditional love and forgiveness to the client Clients come in because they are spiritually broken and prey to the allies of darkness a fear of abandonment from God and those they love resentment frustration anxiety and callousness He is the prodigal son Through empathy compassion and counseling skills the pastoral counselor connects them to the God who runs to meet him with joy throws his arms around him kisses him forgives him and makes him psychologically and spiritually whole

again by giving him the signet ring The pastoral counselor's role is to facilitate this occurrence **The European Magazine, and London Review**, 1822 **The European Magazine and London Review, by the Philological Society of London**, 1822 **Love and the World** Robert Sardello, 2001 In this guide to conscious soul practice a psychotherapist reveals the importance of making one's life open and receptive to the spiritual realms *Love, Sex, and Desire in Modern Egypt* L. L. Wynn, 2018-11-23 Cairo is a city obsessed with honor and respectability and love affairs Sara a working class woman has an affair with a married man and becomes pregnant only to be abandoned by him Ayah and Zeid a respectably engaged couple argue over whether Ayah's friend is a prostitute or a virgin Malak a European belly dancer who sometimes gets paid for sex wants to be loved by a man who won't treat her like a whore just because she's a dancer and Alia a Christian banker who left her abusive husband is the mistress of a wealthy Muslim man Haroun who encourages business by hosting risqu parties for other men and their mistresses Set in transnational Cairo over two decades *Love Sex and Desire in Modern Egypt* is an ethnography that explores female respectability male honor and Western theories and fantasies about Arab society L L Wynn uses stories of love affairs to interrogate three areas of classic anthropological theory mimesis kinship and gift She develops a broad picture of how individuals love and desire within a cultural and political system that structures the possibilities of and penalties for going against sexual and gender norms Wynn demonstrates that love is at once a moral horizon an attribute that naturally inheres in particular social relations a social phenomenon strengthened through cultural concepts of gift and kinship and an emotion deeply felt and desired by individuals **Thinking About Love** Diane Enns, Antonio Calcagno, 2015-11-10 Does love command an ineffability that remains inaccessible to the philosopher *Thinking About Love* considers the nature and experience of love through the writing of well known Continental philosophers such as Hannah Arendt Simone de Beauvoir Jacques Derrida and Maurice Merleau Ponty Evolving forms of social organization rapid developments in the field of psychology and novel variations on relationships demand new approaches to and ways of talking about love Rather than offering prescriptive claims this volume explores how one might think about the concept philosophically without attempting to resolve or alleviate its ambiguities paradoxes and limitations The essays focus on the contradictions and limits of love manifested in such phenomena as trust abuse grief death violence politics and desire An erudite examination of the many facets of love this book fills a lacuna in the philosophy of this richly complicated topic Along with the editors the contributors are Sophie Bourgault John Caruana Christina M Gschwandtner Marguerite La Caze Alphonso Lingis Christian Lotz Todd May Dawne McCance Dorothea Olkowski Felix Murchadha Fiona Utley and M lanie Walton *Dark Feelings, Grim Thoughts* Robert C. Solomon, 2006-07-27 In the same spirit as his most recent book *Living With Nietzsche* and his earlier study *In the Spirit of Hegel* Robert Solomon turns to the existential thinkers Albert Camus and Jean Paul Sartre in an attempt to get past the academic and political debates and focus on what is truly interesting and valuable about their philosophies Solomon makes the case that despite their very different responses to the political

questions of their day Camus and Sartre were both fundamentally moralists and their philosophies cannot be understood apart from their deep ethical commitments He focuses on Sartre s early pre 1950 work and on Camus s best known novels The Stranger The Plague and The Fall Throughout Solomon makes the important point that their shared interest in phenomenology was much more important than their supposed affiliation with existentialism Solomon s reappraisal will be of interest to anyone who is still or ever has been fascinated by these eccentric but monumental figures **Handbook of**

Multidisciplinary and cross cultural coverage True to Our Feelings Robert C. Solomon,2008-10-02 We live our lives through our emotions writes Robert Solomon and it is our emotions that give our lives meaning What interests or fascinates us who we love what angers us what moves us what bores us all of this defines us gives us character constitutes who we are In True to Our Feelings Solomon illuminates the rich life of the emotions why we don t really understand them what they really are and how they make us human and give meaning to life Emotions have recently become a highly fashionable area of research in the sciences with brain imaging uncovering valuable clues as to how we experience our feelings But while Solomon provides a guide to this cutting edge research as well as to what others philosophers and psychologists have said on the subject he also emphasizes the personal and ethical character of our emotions He shows that emotions are not something that happen to us nor are they irrational in the literal sense rather they are judgements we make about the world and they are strategies for living in it Fear anger love guilt jealousy compassion they are all essential to our values to living happily healthily and well Solomon highlights some of the dramatic ways that emotions fit into our ethics and our sense of the good life how we can make our emotional lives more coherent with our values and be more true to our feelings and cultivate emotional integrity The story of our lives is the story of our passions We fall in love we are gripped by scientific curiosity and religious fervor we fear death and grieve for others we humble ourselves in envy jealousy and resentment In this remarkable

book Robert Solomon shares his fascination with the emotions and illuminates our passions in an exciting new way

Phenomenological Inquiry in Psychology Ron Valle, 1998-01-31 This fine new book the third in a series brings psychologists up to date on the advances of phenomenological research methods in illuminating the nature of human awareness and experiences In the more congenial and welcoming intellectual climate of the 1990s phenomenological methods have moved to the forefront of discourse on research methods that support and advocate an expanding view of science In Valle and King 1978 phenomenological methods were presented as alternatives to behavioral methods In Valle and Halling 1989 phenomenological methods were advanced to perspectives in psychology This new volume is even less cautious indeed bolder in relation to conventional methods and epistemologies By now people knowledgeable about psychology and most psychologists have digested the criticisms directed against methods that operationalize quantify and often minimize human behavior In bringing us up to date on the growing power of phenomenological methods this volume brings welcome coherence and integrity to an increasingly harried science attempting to re-enchant itself with meaning and depth an endeavor artfully exemplified by phenomenological inquiries of the last several decades

Feeling Clayton Tylor, 2017-05-19 This book is an Esoteric interpretation of Emanuel Swedenborg's spiritual writings It is written from a sinner's perspective as a personal memoir meant to impart spiritual guidance by example It is a hands on self help book on how to birth the Divine Feminine Essence of Love from within The author traces the Divine back to its original source as Essential Love and Essential Innocence which begins in the body as a sensual feeling of love and through the process of regeneration it becomes the Word of God Then by sharing the spiritual feeling of the Word as love it becomes a blissful union with the Divine within as the feeling of the New Church The New Church is the perception of an influx of spiritual love flowing from within as happiness For when the feeling of love from a sensual life has been transformed into the spiritual feeling of love and when done on a mass scale it ultimately manifests as the Brotherhood of Mankind as the feeling of Heaven on Earth **Philosophy's Moods: The Affective Grounds of Thinking** Hagi Kenaan, Ilit Ferber, 2011-08-13

Philosophy's Moods is a collection of original essays interrogating the inseparable bond between mood and philosophical thinking What is the relationship between mood and thinking in philosophy In what sense are we always already philosophizing from within a mood What kinds of mood are central for shaping the space of philosophy What is the philosophical imprint of Aristotle's wonder Kant's melancholy Kierkegaard's anxiety or Nietzsche's shamelessness *Philosophy's Moods* invites its readers to explore the above questions through diverse methodological perspectives The collection includes twenty one contributions by internationally renowned scholars as well as younger and emerging voices In pondering the place of the subjective and personal roots that thinking is typically called to overcome the book challenges and articulates an alternative to a predominant tendency in philosophy to view the theoretical content and the affective side of thought as opposed to one another **Mixed Feelings** Marion Ledwig, 2013-05-02

This book opens up a new area of research by not only considering the rationality of such diverse phenomena as ordinary emotions generalized anxiety disorder social phobia psychotic depression major depressive disorder and bipolar disorder but also by evaluating the question whether the vagueness of these diverse disorders and emotions poses an obstacle to the rationality of these phenomena As these emotional phenomena turn out to be vague on many different levels an explanation is found for the millennia long dispute of

which kind of phenomena fall under the emotions and whether such diverse phenomena as hope and alexithymia fall under the emotions Since vagueness can be most easily identified in mixed feelings the rationality of mixed feelings will also be dealt with The Older Woman in Recent Fiction Zoe Brennan,2014-12-09 This critical study explores late twentieth century novels by women writers including Doris Lessing May Sarton and Barbara Pym that feature female protagonists over the age of sixty These novels discourses on aging contrast with those largely pejorative ones that dominate Western society They break the silence that normally surrounds the lives of the aged and this book investigates how older female protagonists are represented in relation to areas such as sexuality dependence and everyday life Beginning with an investigation of popular opinions about aging and a survey of hypotheses from disciplines including gerontology psychology and feminism the text reviews literary critical attitudes toward fictions of aging analyzes representations of physically dependent characters whose anger over their failing bodies is often eased by relationships with their female friends discusses how paradigms of female sexuality exclude the possibility of older women being sexually desirable examines characters that live a contented life finding a more polemical side to them than is noted in more conventional literary critiques and analyzes the aged sleuth in classical detective fiction
