*Decision Making in the Workplace* Lee Roy Beach,2014-03-05 Many if not most of one s important decisions are made in the context of one s work However because workplace decisions cover such a broad range of issues it often is difficult to detect underlying commonalities in how they are made and in how things go wrong when they do go wrong As a result there

are nearly as many different descriptions of workplace decisions as there are decisions themselves In this volume the best features of these diverse descriptions are unified in a new intuitively compelling view of decision making called Image Theory The result is a clear picture of real life day to day workplace decision making that allows us to think constructively about how such decisions are made and about how to improve them when improvement is necessary *Business* □□□□□□□□,2003
