□□□□□□ □□□, 2022-08-01 **The Spiritual Senses** Paul L. Gavrilyuk, Sarah Coakley, 2011-11-10 Is it possible to see hear touch smell and taste God How do we understand the biblical promise that the pure in heart will see God Christian thinkers as diverse as Origen of Alexandria Bonaventure Jonathan Edwards and Hans Urs von Balthasar have all approached these questions in distinctive ways by appealing to the concept of the spiritual senses In focusing on the Christian tradition of the spiritual senses this book discusses how these senses relate to the physical senses and the body and analyzes their relationship to mind heart emotions will desire and judgement The contributors illuminate the different ways in which classic Christian authors have treated this topic and indicate the epistemological and spiritual import of these understandings The concept of the spiritual senses is thereby importantly recovered for contemporary theological anthropology and philosophy of religion

In Between Communication Theories Through One Hundred Questions Tomas Kačerauskas, Algis Mickūnas, 2020-03-02 This book takes the form of a dialogue It presents two authors specialized in the phenomenology posing questions to each other and offering complex answers for critical discussion The book includes both presentation of different

communication schools and philosophizing on the issues of communication The authors debate numerous topics by providing the definition and etymology of communication examining the limits of communication and using a political base of communication The issue which pervades all domains is that of mediation how things such as identities styles and bodies are mediated by culture history and tradition and what the limits are of such mediation This question leads to more complex issues of mediated mediations such that an explication of one medium is framed by another medium leading to a question of meta language as a fundamental unmediated medium This involves some fine points of mediation perspectivity discursivity ethics of communication ideology private and public Throughout the mutual interrogative dialogue the authors touch upon but avoid the daunting commitment to a theory of metacommunication as well as the transcendental problematic of accessing the numerous theoretical thematic and historical aspects of communication

Soft Force Ellen Anne

McLarney,2015-06-09 The unheralded contribution of women to Egypt's Islamist movement and how they talk about women's rights in Islamic terms In the decades leading up to the Arab Spring in 2011 when Hosni Mubarak's authoritarian regime was swept from power in Egypt Muslim women took a leading role in developing a robust Islamist presence in the country's public sphere *Soft Force* examines the writings and activism of these women including scholars preachers journalists critics actors and public intellectuals who envisioned an Islamic awakening in which women's rights and the family equality and emancipation were at the center Challenging Western conceptions of Muslim women as being oppressed by Islam Ellen McLarney shows how women used soft force a women's jihad characterized by nonviolent protest to oppose secular dictatorship and articulate a public sphere that was both Islamic and democratic McLarney draws on memoirs political essays sermons newspaper articles and other writings to explore how these women imagined the home and the family as sites of the free practice of religion in a climate where Islamists were under siege by the secular state While they seem to reinforce women's traditional roles in a male dominated society these Islamist writers also reoriented Islamist politics in domains coded as feminine putting women at the very forefront in imagining an Islamic polity Bold and insightful *Soft Force* transforms our understanding of women's rights women's liberation and women's equality in Egypt's Islamic revival

Metaphysics Adrian Pabst,2012-05-04 This book does nothing less than to set new standards in combining philosophical with political theology Pabst's argument about rationality has the potential to change debates in philosophy politics and religion from the foreword This comprehensive and detailed study of individuation reveals the theological nature of metaphysics Adrian Pabst argues that ancient and modern conceptions of being or individual substance fail to account for the ontological relations that bind beings to each other and to God their source On the basis of a genealogical account of rival theories of creation and individuation from Plato to postmodernism Pabst proposes that the Christian Neo Platonic fusion of biblical revelation with Greco Roman philosophy fulfills and surpasses all other ontologies and conceptions of individuality

Little Vast Rooms of Undoing Dara Blumenthal,2014-08-28 Public toilets are places where individual identity is put to the test through experiences of fear anxiety shame and embarrassment yet also places where we shore up confirm and check the status of our gendered identities In these highly gendered and sex segregated places people of various and varied identities come together and separately conduct their business through socially contingent toileting habits and behaviors Based on empirical research with men women gender non conforming and trans individuals who have a range of sexual identities *Little Vast Rooms of Undoing* attempts to understand a nearly universal aspect of daily life in the contemporary West Through a meditation on socially dictated practices and their associated emotions it argues that

experiences within public toilets expose the fissures of individual identity construction and understanding and opening the possibilities for a more relational and cohesive experience of the embodied self
