Making Sense of Fatherhood Tina Miller,2010-11-18 As family and work demands become more complex who is left holding the baby Tina Miller explores men s experiences of fatherhood and provides unique insights into paternal caring changing masculinities and men s relations to paid work She focuses on the narratives of a group of men as they first anticipate and then experience fatherhood for the first time Her

original longitudinal research contributes to contemporary theories of gender against a backdrop of societal and policy change The men s journeys into fatherhood are both similar and varied and they illuminate just how deeply gender permeates individual lives everyday practices and societal assumptions around caring for young children This book acts as a companion to *Making Sense of Motherhood* Cambridge University Press 2005 and together these innovative studies reveal how gendered practices around caring become enacted *Dictionnaire général français-anglais* Spiers,1854 *Making Sense of Construction Improvement* Stuart Green,2023-12-15 *Making Sense of Construction Improvement* provides a critical evaluation of the construction improvement debate from the end of the Second World War through to the modern era The book offers unique insights into the way the UK construction sector is continuously shaped and re shaped in accordance with changes in the prevailing political economy This second edition brings the book up to date by including coverage of key trends from 2010 2023 The book has been substantially revised and reworked to include new material relating to the age of austerity and the subsequent period of political uncertainty initiated by the Brexit referendum Changes in the political economy are positioned alongside the rise of the sustainability agenda and the advent of zero carbon Particular attention is paid to the ongoing skills crisis and the over hyped advocacy of modern methods of construction MMC as the latest supposed panacea of industry improvement Coverage includes the Farmer 2016 report *Modernise or Die* and the *Construction Playbook* HM Government 2020 However perhaps the most important addition is a focus on the Grenfell Disaster 2017 and the subsequent revelations from the public enquiry Further intermediate milestones include *Building a Safer Future* Hackitt 2018 and the *Construction Sector Deal* HM Government 2018 The emerging consensus points towards a systemic failure involving not only the construction sector but also the entire system of regulation and compliance Tracing the failings back over time and scrutinising the role played by previous generations of policymakers Stuart Green ultimately argues that Grenfell was a disaster entirely foretold The insightful and critical analysis of the industry contained within these pages is essential and timely reading for anyone who wants to understand how the construction sector arrived at where it is today and with that knowledge give further thought to where it might go next **The Sense and Non-Sense of Revolt** Julia Kristeva,2025-01-21 Freud and psychoanalysis taught us that rebellion is what guarantees our independence and our creative abilities But in the contemporary entertainment culture is rebellion still a viable option Is it still possible to build and embrace a counterculture For whom and against what Julia Kristeva illustrates the advances and impasses of rebel culture through the experiences of three twentieth century writers the existentialist Jean Paul Sartre the surrealist Louis Aragon and the theorist Roland Barthes These figures according to Kristeva took part in a revolution against accepted notions of identity of one s relation to others She places their accomplishments in the context of other revolutionary movements in art literature and politics also offering an illuminating discussion of Freud s groundbreaking work on rebellion *Good Commercial Sense* Karina Barrymore,2016-05-12 Commercial property is increasingly coming under the spotlight of traditional residential
