## **Sensing Others:**

Sensing Others Alice Rudge, 2023-10 *Sensing Others* explores the lives of Indigenous Batek people in Peninsular Malaysia amid the strange and the new in the borderland between protected national park and oil palm plantation. As their ancestral forests disappear around them, Batek people nevertheless attempt to live well among the strange Others they now encounter: out of place animals and plants, traders, tourists, poachers, and forest guards. How Batek people voice their experiences of the good and the strange in relation to these Others challenges essentialized notions of cultural and species difference and the separateness of ethical worlds. Drawing on meticulous long-term ethnographic research with Batek people, Alice Rudge argues that as people seek to make habitable a constantly changing landscape, what counts as Otherness is always under negotiation. Anthropology's traditional dictum to make the strange familiar and the familiar strange creates a binary between the familiar and the Other, often encapsulating Indigenous lives as the archetypal Other to the modern worldview. Yet living well amid precarity involves constantly negotiating Otherness's ambivalences, as people, plants, animals, and places can all become familiar, strange, or both. *Sensing Others* reveals that when looking from the boundary, what counts as Otherness is impossible to pin down.

Sensing Others Susan C. Daffron, 2020-09-18 BOOK 4 The worst thing about vacations: They end. Meg Jennings, Riley O'Shea, and their fluffy dog Zelda are enjoying a much-deserved vacation on an idyllic private island until their tropical respite is disrupted by a suspicious fire nearby. An even more suspicious case of food poisoning compels them to flee to the mainland. The retreat where Meg and Riley went undercover is now a refuge for people having difficulty adapting to their abnormal sensory abilities. When manager Shannon Solomon disappears, Meg and Riley succumb to parental pressure and return to the retreat to help find her. There they meet two secretive agents aiding in the search for Shannon. The agents have no sense of humor and even less fashion sense. They also are inexplicably fixated on the necklace Meg is wearing and have a disturbing habit of turning up everywhere. From rain-soaked forests to the sun-drenched deserts of the southwest, following the clues to finding Shannon and clearing her name takes Meg and Riley from roller rinks to rodeos. Ferreting out the truth will require trusting their instincts and special skills along with more than a little luck. *Sensing Others* is a full-length novel, 280 pages, 70,000 words, that is Book 4 of the Jennings O'Shea series. The correct reading order is 1 *Sensing Trouble*, 2 *Sensing Secrets*, 3 *Sensing Truth*, 4 *Sensing Others*.

**Metacognitive Approaches to Developing Oracy** Roy Evans, Deborah Jones, 2013-09-13 The acquisition of speech and language represent significant achievements for all children

These aspects of child development have received substantial attention in the research literature and a considerable body of theoretical knowledge exists to chart progress from infancy to maturity. Cross cultural studies have identified the common purposes served by the acquisition of oral language by children and the essential similarity in the sequence through which speech develops irrespective of geography and culture. What is less clear is precisely how children learn to say what they mean and how teachers and parents can support and enhance the development of meaningful speech in their children. Until now children's speech has been underused as a means of promoting learning in the formal school setting. New requirements within the National Curriculum are trying to address this gap but there remains a lack of clarity as to what this means for practice and how it relates to the broad base of curricular objectives. This book brings together a body of work from different countries; it offers an improved understanding of how strategies for developing speaking and listening may impact metacognitive awareness and raise standards of literacy and dialogic thinking for all children. This book was previously published as a special issue of *Early Child Development and Care*.      *Introduction to Type® Dynamics and Development*, 2007      *Being Essential* Dain Dunston, 2022-03-08. If Malcolm Gladwell and Carl Jung had a baby it would be Dain Dunston. This book took me on a profound journey of self discovery and personal insight. Vince Poscente, New York Times bestselling author of *The Earthquake*. Leaders often know what they need to do but don't have a clue who they need to be. *Being Essential* presents the seven questions that will help any leader discover an authentic path to the true self and master a virtuous cycle of self awareness that fosters purpose, value and joy at work and in life. Without a true essence of self, their leadership can feel void of purpose and confidence, affecting both teams and stakeholders. But when leaders discover their essential selves, who they are at their cores and why they show up, it enables them to reach a state of radical self awareness, a game changing skill that unlocks a more effective, commanding, agile approach to leadership. For more than thirty years, Dain Dunston has been coaching top executives to find the essence of their personal and professional journeys. Now readers can learn the holistic method he uses to calibrate leaders' minds for radical self awareness and help them achieve more satisfying professional experiences.
