Sensitivity And Awareness:

Sensitivity and Awareness ... Developing Human Potential Craig W. Johnson, 1971 Measuring Multiple Intelligences and Moral Sensitivities in Education Kirsi Tirri, Petri Nokelainen, 2012-01-01 In this book we introduce several sensitivity measures in educational contexts that can be used in research education and self evaluations In Chapter 1 we discuss the framework of Howard Gardner's Multiple Intelligences theory and introduce our Multiple Intelligences Profiling Questionnaire We present the psychometrical qualities of the instrument with empirical data sets of children youth and adults In Chapter 2 the Spiritual Sensitivity Scale is introduced with the theoretical framework it is connected to The existence of spiritual intelligence has been a widely debated issue and not everybody is ready to call advanced thinking in religious or spiritual domains as intelligence This has guided us to use the term sensitivity which is easier to justify than intelligence in these areas of human behavior In Chapter 3 we introduce the Environmental Sensitivity Scale which is quite close to the possible intelligence of naturalist suggested by Gardner In Chapter 4 Ethical Sensitivity Scale is introduced followed by Emotional Leadership Questionnaire in Chapter 5 All these scales have a solid theoretical framework and earlier empirical work to support the instrument building Chapter 6 introduces Intercultural and Interreligious Sensitivity Scales with their theoretical frameworks and earlier empirical work Following each chapter we have included a ready to use version of the questionnaire and SPSS syntax to compute factors A commentary by Dr Seana Moran compliments the book and challenges the readers to further reflect the meaning of education in supporting holistic development of learners in their life long journey We have authored this book to contribute to this goal and hope it will be used in the hands of researchers teachers and students in their mutual effort to grow and to learn new things in life **Integrating Psychotherapy and Psychophysiology** Patrick Steffen, Donald Moss, 2024-05-08 In recent years there has been growing interest in exploring how psychophysiology can be used to enhance psychotherapeutic interventions and it is becoming more common for psychotherapists to use psychophysiological approaches such as biofeedback as a part of their therapy Integrating Psychotherapy and Psychophysiology explores how these fields can be integrated to improve therapy outcomes and to provide a guide to professionals in the field Structured in three parts the first part focuses on theories underlying psychotherapy psychophysiology integration with chapters on the neuroscience of mind evolution and compassion heart rate variability and mind body integration and affect and understanding the world The second part focuses on assessment aspects of psychotherapy psychophysiology integration with chapters on the NIH Research Domain Criteria RDoC approach to assessment of psychopathology from a psychophysiological perspective personality as a central factor in stress and cardiovascular reactivity and using the RDoC framework to understand and conceptualize personality Finally the third part focuses on approaches to integrating psychophysiology into psychotherapy emphasizing heart rate variability biofeedback The book will be valuable for all psychotherapists who are looking to improve their practice by integrating effective mind

body principles into their therapeutic approach **Singularity and Other Possibilities** Amihud Gilead, 2021-11-08 This book elaborates the author's original metaphysics panenmentalism focusing on novel aspects of the singularity of any person. Among these aspects integrated in a systematic view are love and singularity, private intersubjective and public accessibility, multiple personality, freedom of will, akrasia, a way out of the empiricist/rationalist conundrum, the possibility of God, and some major moral questions.

Less Incomplete Sandie Gustus, 2011-05-27 Based on an advanced new scientific approach to studying the consciousness/soul/spirit as proposed by renowned Brazilian consciousness researcher Dr. Waldo Vieira, this book provides a comprehensive understanding of the reality of the human condition beyond the physical body, offering readers a profound opportunity to increase their self-awareness, self-confidence, balance, and maturity, and to take control of their experience of life. In this book, consciology and projectology, the two new sciences proposed by Vieira, are explained in layman's terms. Consciology is the science that studies the consciousness, investigating all of its attributes, properties, characteristics, bodies, lives, and phenomena. The book examines three attributes of the consciousness that it is multidimensional, multiexistential, i.e., it reincarnates and that it evolves. Projectology is the study of the projection of the consciousness or out-of-body experience, commonly known as OBE.

Meaning Hugo Raines, AI, 2025-05-06 Text Meaning explores the intricate process of how we understand literary works asserting that meaning isn't simply embedded within the text Instead it emerges from the dynamic interplay between a text's context language and its interpretation The book emphasizes that a text written during social upheaval carries different connotations than one from a calm period illustrating how historical context shapes potential meanings Further it examines how individual experiences and beliefs inevitably influence understanding The book progresses by first introducing foundational principles like contextual analysis and linguistic theory Subsequent chapters then delve into literary examples demonstrating these principles in action like how critical approaches can yield drastically different interpretations Ultimately Text Meaning argues that understanding this fluid negotiated construct is essential for fostering critical thinking and a nuanced appreciation of literature making it valuable for students and educators alike The Art and Science of Effective

and Impactful COMMUNICATION Karminder Ghuman, PhD, 2024-08-10 Communication makes a big difference A deeper understanding of this domain can enable individuals and professionals to achieve their intended objectives Imparting education and corporate training in the field of communication for more than 25 years has been a transformational experience Grappling with the realities of communication and parallel to that conducting informal research regarding various communication principles has been an exhilarating experience I believe that for what all I have gained while having a very interactive interface with the world of communication now is the right time to repay by assimilating all my experiences in the form of a very comprehensive book in which the concepts and principles of communication are narrated in a lucid and non-textual manner The objective of writing this book is to fulfill the need of individuals who need focused literature to develop their communication not only from an operational angle like writing or making an oral presentation but also as communication happens typically every second in formal and informal settings of the personal and working life of an individual An attempt has been made to have an application bias instead of a theoretical one Global Perspectives on Spirituality and Education Jacqueline Watson, Marian de Souza, Ann Trousedale, 2013-12-04 In recent decades and around the world much attention has been given to the role of spirituality in the education of children and young people While educationalists share many common goals and values in nurturing the spiritual lives of children and young people national

and regional cultures religions and politics have impacted on the approaches scholars and practitioners have adopted in their investigations and practices The different contexts across nations and regions mean that educators face quite distinct conditions in which to frame their approaches to spiritual education and research and the nature and impact of these differences is not yet understood This book brings together thinkers from around the globe and sets them the task of explaining how their research on children s spirituality and education has been shaped by the historical cultural religious and political contexts of the geographic region in which they work The book presents contributions in three sections Europe and Israel Australasia and The Americas and concludes with a chapter highlighting what is common and what is contextually unique about global approaches to spirituality and education *Think from the heart* Gian Kumar,22-12-14

The Second Book Of His 3 Volumes Series is based upon his learnings about life and existence derieved from ancient Indian philosophy Spiritualism is defined in the East as the science of higher consciousness and explains Oneness and the harmonious coexistence of Man with the Universe These pages are about understanding the divine within us how to live spiritually moment to moment and enjoy every aspect of life without assistance from any external source The niceties of life which we all crave also create many struggles and conflicts We reach for books on spiritual development or join spiritual classes or religious centres hoping for clarity and salvation only to realize we are more confused than before In fact our confusion has been compounded by complexity This is where this simple book speaks to us in a straightforward down to earth manner revealing there are no diktats we need to follow only the voice withing We notice the change as through constant vigil the sub conscious takes over and we evolve by ourselves alone experientially
