## Sent Away Japanese:

*Phoenix from the Ashes* Daniel P. Marston D. Phil.,2003-10-30 In June 1942 the Indian Army suffered a major defeat at the hands of the Japanese Army and subsequently endured its longest retreat ever The Japanese forces had proved more mobile in tactics and more motivated and seasoned in warfare As a result the Indian Army assessed its mistakes to determine what changes were needed to rebuild itself into a more capable fighting force Marston looks at the Indian Army as a reform minded organization one that was able to take lessons from this major defeat implement the necessary reforms and ultimately defeat the Japanese soundly in 1945 Army leaders instigated analysis of the defeat at all levels of command Innovations in operational procedure organization and tactics were compared discussed then implemented An ongoing reassessment continued both during and after subsequent engagements By analyzing the changes made in tactical doctrine reinforcement procedure Indianization of the officer corps and the quality of nonmartial race units Marston demonstrates that the Indian Army of 1945 was vastly different from that of 1939 The Indian Army s transformation into a highly professional force contradicts the commonly held belief that it was too conservative a force to reform itself thoroughly in the face of new challenges

**The Internment of Japanese Americans** Charlotte Taylor,Deborah Kent,2015-07-15 Before World War II Japanese Americans worked hard to adapt to American life while creating tight knit communities But after Japan bombed Pearl Harbor everything changed The U S government sent 120 000 Americans of Japanese descent into internment camps Learn the sad history of the camps the reasons behind their creation how the internees made the best of their deplorable situation and how they finally received an official apology from the US government **Pearl Harbor Attack** United States. Congress. Joint Committee on the Investigation of the Pearl Harbor Attack,1946 Transactions of the Asiatic Society of Japan Asiatic Society of Japan,1879 **American Missionaries, Christian Oyatoi, and Japan, 1859-73** Hamish Ion,2010-07-01 Japan closed its doors to foreigners for over two hundred years because of religious and political instability caused by Christianity By 1859 foreign residents were once again living in treaty ports in Japan but edicts banning Christianity remained enforced until 1873 Drawing on an impressive array of English and Japanese sources Ion investigates a crucial era in the history of Japanese American relations the formation of Protestant missions He reveals that the transmission of values and beliefs was not a simple matter of acceptance or rejection missionaries and Christian laymen persisted in the face of open hostility and served as important liaisons between East and West **Japan Weekly Mail** ,1901

The War Against Japan: India's most dangerous hour Stanley Woodburn Kirby,1957 *Japan and the Pacific, 1540-1920* Matsuda Koichiro,2017-05-15 This volume seeks to capture the rich array of images that define Japan s encounters with the Pacific Ocean Contemporary Japanese most readily associate Pacific with the devastating war that their country fought over a half century ago The ensuing occupation realized a situation that this people had striven to avoid ever since the Portuguese first arrived in 1543 their subjugation by a foreign power But the Pacific Ocean also extended Japan s overseas contacts

From antiquity Japanese and their neighbours crossed it to trade ideas and products From the mid 16th century it carried people from more distant lands Europe and America and thus expanded and diversified Japan s cultural and economic exchange networks From the late 19th century it provided the highway to transport Japanese imperial expansion in Northeast Asia and later to encourage overseas migration into the Pacific and the Americas The studies selected for inclusion in this volume along with the introduction explain how the Pacific Ocean thus nurtured images of both threat and opportunity to the island nation that it surrounds

**Japan and World War II** Charles River Editors, 2025-05-01 All Americans are familiar with the day that will live in infamy At 9 30 a m on Sunday December 7 1941 Pearl Harbor the advanced base of the United States Navy s Pacific Fleet was ablaze It had been smashed by aircraft launched by the carriers of the Imperial Japanese Navy All eight battleships had been sunk or badly damaged 350 aircraft had been knocked out and over 2 000 Americans lay dead Indelible images of the USS Arizona exploding and the USS Oklahoma capsizing and floating upside down have been ingrained in the American conscience ever since In less than an hour and a half the Japanese had almost wiped out America s entire naval presence in the Pacific Despite fighting in North Africa and the Atlantic the United States still had the resources and manpower to fight the Japanese in the Pacific Though the Japanese had crippled the American fleet at Pearl Harbor its distance from Japan made an invasion of Pearl Harbor impossible and Japan had not severely damaged important infrastructure Thus the United States was able to quickly rebuild a fleet still stationed at Pearl Harbor right in the heart of the Pacific This forward location allowed the United States to immediately push deeply into the Pacific theater In fact the turning point in the Pacific theater took place in 1942 near Midway Island The Japanese had moved a sizable fleet intending to occupy Midway Island and draw the American navy near Instead American aircraft flying from three aircraft carriers that had been away from Pearl Harbor in December 1941 got a bearing on the Japanese fleet and sunk four Japanese aircraft carriers permanently crippling Japan s navy The Battle of Midway was one of the first naval battles in history where the enemy fleets never saw or came into contact with each other Entering 1943 the Allies looked to press their advantage in the Pacific and Western Europe The United States was firmly pushing the Japanese back across the Pacific while the Americans and British plotted a major invasion somewhere in Western Europe to relieve the pressure on the Soviets By the time the Allies conducted that invasion the Soviets had lifted the siege of Stalingrad The Allies were now firmly winning the war Throughout 1944 the Americans kept pushing the Japanese back but some of the war s most famous campaigns would come near the end The Battle of Iwo Jima code name Operation Detachment is more of a misnomer than anything It was fought as part of a large American invasion directed by steps toward the Japanese mainland and it was more like a siege that lasted 36 days from February March 1945 with non stop fighting every minute In fact the iconic flag raising photo was taken just four days into the battle and as that picture suggests the battle was not a pristine tactical event but an unceasing horror with no haven for protection As veteran and author James F Christ put it in the foreword of his exhaustive

study of the action it is carnage that is what Iwo was the Gettysburg of the Pacific Iwo Jima defined the classical amphibious assault of the World War II era as much as the Normandy invasion did but it came later in the war In Europe the Battle of the Bulge had already been won and German forces would surrender in early May However the Japanese Empire was still at a considerable level of strength and state of resolve and an essential offensive grinding from island to island with naval unit to naval unit and air to air was met with maniacal resistance by the enemy     *The Diary of a Russian Lady* Varvara Dukhovskai[a],1917     **Narrative of the Expedition to the China Seas and Japan, 1852-1854** Commodore M. C. Perry,2000-01-01 Enhanced with over 200 rare illustrations this thrilling firsthand account relates the tension and triumph attendant upon Perry's mission to establish Japanese American diplomatic relations Drawn from the journals of the commodore and his officers the narrative also features entries from diaries and official correspondence and reports all brimming with revealing anecdotes     *City Life in Japan* Ronald Dore,1958 Describes compares and analyzes social and economic changes during the past three quarters of a century     *City Life in Japan* Ron P. Dore,2003-09-02 Incorporating a new expanded introduction The continuing relevance of Ron Dore's classic study of Japanese urban life and social structures is widely accepted by urban sociologists and other social scientists concerned with the study of modern Japan     **The Survey**,1926     **The Japan expedition. Japan and around the world** J.W. Spalding,2023-07-21 Reproduction of the original     *Maritime Operations in the RussoJapanese War, 1904-1905* Julian S. Corbett,2015-03-15 Sir Julian Corbett was regarded as one of the greatest naval historians of the early twentieth century *Maritime Operations in the Russo Japanese War 1904 1905* was never available to the public during his lifetime As noted in the introduction to Volume I Corbett dealt not with minute details and themes but a continuous narrative that demonstrated the interrelationship of land and sea events as they impinged on each other in conception execution and results Thus political objectives geographic factors and the machinery of government all could be seen working together as part of a whole Corbett's work delineated the differences between maritime and land warfare while also exploring their interaction Published in hardcover by the Naval Institute Press in 1994 both volumes are now available in paperback for the first time     **History of Christianity in Japan** Otis Cary, D.D.,2008-09-15 Despite the relatively small number of formal Christian believers in Japan less than one percent of the total population Christianity has become and is likely to continue to be an important strand in modern Japanese culture The Christian social message of the early decades of the twentieth century has become a lasting part of social welfare attitudes The strong emphasis on education of the Christian missionary movement has left a visible legacy throughout Japanese education primarily in the teaching of women Author Otis Cary's impressive work first published in two volumes appears here in a convenient one volume edition The first part deals with Roman Catholic and Greek Orthodox missions the second with Protestant missions The story begins with the arrival of Francis Xavier in Japan in 1549 unfolds through the early successes of the Roman Catholic missions and the subsequent age of hideous persecutions and the virtual extirpation of

Christianity in the seventeenth century and moves forward to its revival in the late nineteenth and early twentieth centuries. It is in many ways an absorbingly dramatic tale and Cary tells it exceedingly well.

**The Voyage of Captain John Saris to Japan, 1613** Sir Ernest Mason Satow, 2017-05-15 Saris's journal with two of his reports to the East India Company, a letter and extracts from Purchas Contents Introduction The journal from Bantam to Japan and back to England App A Two letters written by Saris on his return I From the Cape June 1 1614 II From Plymouth October 17 1614 App B Observations of Saris on the Eastern trade compiled during his residence at Bantam as factor This is a new print on demand hardback edition of the volume first published in 1900

**A Career of Japan** Luke Gartlan, 2019-08-26 A Career of Japan is the first study of one of the major photographers and personalities of nineteenth century Japan. Baron Raimund von Stillfried was the most important foreign born photographer of the Meiji era and one of the first globally active photographers of his generation. He played a key role in the international image of Japan and the adoption of photography within Japanese society itself. Yet the lack of a thorough study of his activities, travels and work has been a fundamental gap in both Japanese and Western language scholarship. Based on extensive new primary sources and unpublished documents from archives around the world, this book examines von Stillfried's significance as a cultural mediator between Japan and Central Europe. It highlights the tensions and fierce competition that underpinned the globalising photographic industry at a site of cultural contact and exchange, treaty port Yokohama. In the process, it raises key questions for Japanese visual culture, Habsburg studies and cross-cultural histories of photography and globalisation. A Career of Japan is the winner of the 2nd Professor Josef Kreiner Hosei University Award for International Studies. Kreiner Award. Luke Gartlan's book is a compelling and enjoyable read and contributes major new perspectives to the growing field of Meiji photography. It will certainly be the authoritative work on Raimund von Stillfried, but it is also impressive for its contributions to other important areas of Meiji cultural studies, including representations of the emperor, photography of Hokkaido and world's fairs.

Japan and The Illustrated London News, 2021-10-01 The Illustrated London News launched in 1842 was the world's first illustrated newspaper and an immediate success. Its first report on Japan, however, was not until eleven years later, when, as a result of Commodore Perry's much-discussed plan to open Japan, it published a substantial piece entitled 'The United States Expedition to Japan' in the issue of 7 May 1853, opening with the portentous words: 'The presence of a large and powerful American fleet in the Eastern Seas possesses an unexpected interest at the present moment.' Various reports by unnamed correspondents continued for the next eight years, until August 1861, when Charles Wirgman's first report, with illustrations, appeared. Described as 'Our Special Artist and Correspondent', Wirgman was to be the ILN's principal source for reporting on Japan for many years and famously reported the attack on the British Legation in July 1861 and the British bombardment of Shimonoseki in 1864. After the mid-1870s, Wirgman's input declined and the work of other artists and reporters appeared instead. The ILN's own obituary on Wirgman was published on 28 March 1891. By the late 1880s, new

photogravure printing technology was in place and the appearance of the paper changed significantly Furthermore the reporting from Japan diminished noticeably indeed there were a number of years in the period featured in this volume when not a single item on Japan appeared But in the mid 1890s the ILN carried in depth reporting on the Sino Japanese War 1894-5 to the virtual exclusion of any other stories and then reported nothing for the following two years This volume concludes in 1899 the year of ratification of the ending of the Unequal Treaties between Japan and the Great Powers which had major implications for Japan and its nascent empire yet the ILN failed to make any reference to it Instead its one report for the final year of the nineteenth century was on the launch of the British built battleship Asahi which was to play a major role in the Imperial Japanese Navy during the forthcoming Russo Japanese War 1904-5 a war which once again was to preoccupy the ILN pages Thus Japan and The Illustrated London News provides readers and researchers for the first time with a one stop access point to the complete record of reported events relating to Japan in the critical half century following its opening to the West
