of religion and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This volume concerns the ways in which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium's power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive That is why the past and present of mediumship may be asked to elucidate each other

[on Amateur Film Histories and Cultures](#) Masha Salazkina, Enrique Fibla-Gutiérrez, 2021-01-05 For too long the field of amateur cinema has focused on North America and Europe In *Global Perspectives on Amateur Film Histories and Cultures* however editors Masha Salazkina and Enrique Fibla Gutiérrez fill the literature gap by extending that focus and increasing inclusivity Through carefully curated essays Salazkina and Fibla Gutiérrez bring wider meaning and significance to the discipline through their study of alternative cinema in new territories fueled by different historical and political circumstances innovative technologies and ambitious practitioners The essays in this volume work to realize the radical societal democratization that shows up in amateur cinema around the world In particular diverse contributors highlight the significance of amateur filmmaking the exhibition of amateur films the uses and availability of film technologies and the

inventive and creative approaches of filmmakers and advocates of amateur film Together these essays shed new light on alternative cinema in a wide range of cities and countries where amateur films thrive in the shadow of commercial and conventional film industries **The Reading Life** Peter Bollen,2022-12-11 Collected columns Reviews Interesting exclusive interviews with noted authors Seven Myths of Native American History Paul Jentz,2018-03-02 Seven Myths of Native American History will provide undergraduates and general readers with a very useful introduction to Native America past and present Jentz identifies the origins and remarkable staying power of these myths at the same time he exposes and dismantles them Colin G Calloway Dartmouth College **Aesthetics of Change** Bradford P. Keeney,2017-02-13 The fundamental concern of psychotherapy is change While practitioners are constantly greeted with new strategies techniques programs and interventions this book argues that the full benefits of the therapeutic process cannot be realized without fundamental revision of the concept of change itself Applying cybernetic thought to family therapy Bradford P Keeney demonstrates that conventional epistemology in which cause and effect have a linear relationship does not sufficiently accommodate the reciprocal nature of causation in experience Written in an unconventional style that includes stories case examples and imagined dialogues between an epistemologist and a skeptical therapist the volume presents a philosophically grounded ecological framework for contemporary clinical practice
