Pretreatment Across Multiple Fields of Practice Jay S. Levy, Louise Levy, 2024-11-15 Pretreatment Across Multiple Fields of Practice Trauma Informed Approach to Homelessness and Beyond Jay and Louise Levy and their co authors have distilled years of diverse experience serving people with complex psychological and physical needs into a much needed roadmap for providers This book clearly outlines working principles that will guide practitioners in the art of building authentic and effective working partnerships with people experiencing homelessness and other traumas while minimizing re traumatization and creating psychological safety Carefully chosen case studies beautifully illustrate how these principles can be put into practice in a variety of settings from street outreach to shelters to special education classrooms and are attentive to the impact of racism and other forms of oppression Kiko Malin MPH MSW Public Health Director Amherst Massachusetts As a representative of the Street Medicine Institute and more importantly the global street medicine movement Jay s work is a beacon not just to light the path we are on but to guide us towards a better place Jim Withers MD Medical Director and Founder of Mercy s Operation Safety Net and the Street Medicine Institute Pittsburgh This new collection demonstrates that Pretreatment thinking offers people working with all kinds of human services a powerful practical framework for engagement for change and ultimately for healing Alex Bax Chief Executive London Pathway Homeless Inclusion Health www.pathway.org.uk As Levy Connolly and others argue in this important book the concept of Pre treatment Therapy is of major applicability way beyond the field of homelessness Its ideas and concepts should be core reading for psychologists and psychiatrists and indeed anybody hoping to work with people affected by chronic experiences of trauma in a psychologically informed way Dr Peter Cockersell DPsych Psychoanalytic Psychotherapist Psychologically Informed Environments Consultant Chief Executive of Community Housing and Therapy Learn more at www.JaySLevy.com *How Children Grieve* Corinne Masur, 2024-07-09 Understand how children process grief at every age and stage of development in this accessible guide for parents and caretakers An award winning childhood grief expert shares clinically informed advice for supporting kids and teens through difficult times from family deaths and lost pets to unexpected moves and beyond A necessary and impactful guide to understanding children s grief from the inside and to guiding children through loss from the death of a parent and other family members to the loss of friends pets and even the family home Dr Masur an award winning clinical psychologist specializing in grief and mourning describes how to understand help and guide children at each age and stage of development and uses her own childhood experience with loss through empathetic yet clinically informed advice When Dr Masur was fourteen years old her father died Like most children and teens facing loss Masur didn t know how to handle her grief and she was never encouraged to acknowledge or share what she was feeling with her family teachers or friends Her experience of shock and emotional paralysis around her loss is what led her to become an expert in childhood grief in order to help grieving children and to help others to support the children in their lives who have experienced loss As a psychologist

and child psychoanalyst Dr Masur has helped many children recognize and express their feelings after loss In How Children Grieve Masur shares her expertise with caregivers of all kinds giving them the tools they need to help a child or teenager mourn move forward and make meaning of terrible loss

Introduction to Criminology Pamela J. Schram, Joseph A. Schwartz, Stephen G. Tibbetts, 2023-10-24 If you are considering a career in any aspect of criminal justice and you want to know more about the motivations and socio psychological makeup of serious offenders then this book is for you Introduction to Criminology Why Do They Do It applies the dominant theories in the existing criminological literature as to why people commit crimes In addition we examine many recent as well as many hypothetical examples of serious crimes and we demonstrate applications of theory as to why the offenders did what they did While other textbooks do a decent job in discussing the basic theories as well as exploring the various types of crime our book integrates various street crimes within each chapter and applies theories that are appropriate in explaining such criminal activity This is extremely important because most instructors never get to the latter typology chapters in a given semester or term So our approach is to incorporate them into the theoretical chapters in which they apply directly to the theories presented Our specific examples and true stories such as notable serial killings and other recent crimes in each chapter as well as our use of established theoretical models to explain the offenses is another primary distinction of this book Obviously this book is meant to be central to an introductory course in criminology but due to the emphasis on applied theoretical explanations it is also appropriate for higher level undergraduate and graduate courses in criminological theory or as a reference for anyone in the field of criminal justice In it we have integrated true crimes and some hypothetical examples both on a general level such as in the Applying Crime to Theory sections and more specifically in the Why Do They Do It sections which often involve serial killings mass murderers or other notorious examples of offenders offending The subtitle of our book Why Do They Do It relates to our theme Our goal in writing this book was to apply established theories of crime which are often seen as abstract and hypothetical to real crimes that have occurred as well as to hypothetical ones that are quite likely to occur To this end we explore the various reasons for offending or the why they do it in various cases from the first documented serial killers in the United States the Harpe Brothers in the late 18th century to California cop killer spree killer Christopher Dorner in 2013 and then Payton S Gendron who massacred 10 Black shoppers at a grocery store in Buffalo New York in 2022 Importantly throughout these discussions of actual crimes we will apply theories As you will see some of the theories that applied to the earliest crimes seem to apply to the most modern crimes as well Unlike other authors in this field we chose not to include separate chapters on violent or property crimes because we have worked those into and applied them to the theories explored in each chapter We strongly believe that by integrating discussions of such serious crimes all crimes previously identified by the FBI as Index or Part I offenses including murder rape robbery aggravated assault burglary motor vehicle theft larceny and arson as well as other crimes such as simple assault and driving under the influence into the theoretical

chapters provides the best exploration of why people commit such offenses And the flip side is good as well by discussing offenses together with theories we show you how to apply theories toward explaining other instances of criminal behavior Again this goes back to our theme of why do they do it It demonstrates our goal Apply the appropriate theories for the specific crime *Communication and Interviewing Skills for Practice in Social Work, Counselling and the Health Professions* Patricia Higham,2019-07-30 This book supports and develops the communication and interviewing skills of professional practitioners and student practitioners in social work counselling and the health professions Combining work on personal and social constructs the search for meaning and ecological theory this book both provides an integrated discussion of practice and presents a balanced approach when discussing psychological biological and social influences on individual well being Furthermore it emphasises the influence of social contexts on behaviour and well being as well as valuing and encouraging the application of practitioners prior experience and learning APEL to new knowledge and understanding Containing a range of practice examples to stimulate learning this book promotes a collaboration between the professions and welcomes the contributions of people who use services patients and clients *Communication and Interviewing Skills for Practice in Social Work Counselling and the Health Professions* will be of interest to all undergraduate and postgraduate social work students as well as new and experienced professional health care practitioners *Handbook of Attachment* Jude Cassidy,Phillip R. R. Kets de Vries,2011-09-19 Views from the interface of psychoanalysis and organizational life In the books in this series Manfred Kets de Vries failed engineer entrepreneur manqué reluctant economist international management guru psychoanalyst wit and outdoorsman offers an overview of his work

spanning four decades a period in which he has established himself as the leading figure in the clinical study of organizational leadership At a key point in his career working as he puts it in the twilight zone of economics management and psychoanalysis he decided to strike out on a little trodden path and bring the person back into the organization Now Kets de Vries occupies a unique position in the academic business world putting leaders and companies of the couch and working at the often intimate interface where the inner theater of the individual meets the outer world of the organization The second book in this series Reflections on Leadership and Career Development takes different perspectives on the intimate connection between the personality or inner theater of individuals and the organizational context in which they work how different personality types in positions of leadership or as members of management teams affect the functioning and success of organizations Kets de Vries looks at the way basic psychological processes operate on individual and corporate performance and analyzes them in the context of case studies of leaders and organizations He examines narcissism dysfunctional collusion between leaders and followers some new leadership archetypes and the roles that organizational therapists coaches or consultants can play in their interventions The book includes a lengthy study of Vladimir Putin as CEO of Russia Inc an assessment of the former Russian president s performance as an organizational leader The final part of the book examines the career life cycle and how executives cope or fail to cope with rites de passage like succession and retirement For the first time this book provides a glimpse of Manfred Kets de Vries own inner theater as the wellspring of his success as psychoanalyst mentor and inspiration to a generation of leaders Reflections on Leadership and Career Development offers a rare opportunity to observe Manfred on his own legendary couch a personal perspective not to be missed Paul McMorran HR Director TNK BP

Hope Under Oppression Katie Stockdale, 2021-06-17 Hope is ubiquitous and valuable in human life But what is hope and how can people sustain hope in the face of injustice This book explores the nature and value of hope under oppression It addresses what hope is the value and risks of hope and hope s relation to other elements of human psychology including trust fear anger bitterness faith and despair It illustrates the value of hope for both individuals and collectives in the pursuit of justice and in an increasingly uncertain world

Handbook of Motivation and Cognition Across Cultures Richard Sorrentino, Susumu Yamaguchi, 2011-04-28 In recent years there has been a wealth of new research in cognition particularly in relation to supporting theoretical constructs about how cognitions are formed processed reinforced and how they then affect behavior Many of these theories have arisen and been tested in geographic isolation It remains to be seen whether theories that purport to describe cognition in one culture will equally prove true in other cultures The Handbook of Motivation and Cognition Across Cultures is the first book to look at these theories specifically with culture in mind The book investigates universal truths about motivation and cognition across culture relative to theories and findings indicating cultural differences Coverage includes the most widely cited researchers in cognition and their theories as seen through the looking glass of culture The chapters include self regulation by Tory Higgins unconscious

thought by John Bargh attribution theory by Bernie Weiner and self verification by Bill Swann among others The book additionally includes some of the best new researchers in cross cultural psychology with contributors from Germany New Zealand Japan Hong Kong and Australia In the future culture may be the litmus test of a theory before it is accepted and this book brings this question to the forefront of cognition research Includes contributions from researchers from Germany New Zealand Japan Hong Kong and Australia for a cross cultural panel Provides a unique perspective on the effect of culture on scientific theories and data Loss, Trauma, and Resilience: Therapeutic Work With Ambiguous Loss Pauline

Boss,2018-08-28 All losses are touched with ambiguity Yet those who suffer losses without finality bear a particular burden Pauline Boss the principal theorist of the concept of ambiguous loss guides clinicians in the task of building resilience in clients who face the trauma of loss without resolution Boss describes a concrete therapeutic approach that is at once directive and open to the complex contexts in which people find meaning and discover hope in the face of ambiguous losses In Part I readers are introduced to the concept of ambiguous loss and shown how such losses relate to concepts of the family definitions of trauma and capacities for resilience In Part II Boss leads readers through the various aspects of and target points for working with those suffering ambiguous loss From meaning to mastery identity to ambivalence attachment to hope these chapters cover key states of mind for those undergoing ambiguous loss The Epilogue addresses the therapist directly and his or her own ambiguous losses Closing the circle of the therapeutic process Boss shows therapists how fundamental their own experiences of loss are to their own clinical work In Loss Trauma and Resilience Boss provides the therapeutic insight and wisdom that aids mental health professionals in not going for closure but rather building strength and acceptance of ambiguity What readers will find is a concrete therapeutic approach that is at once directive and open to the complex contexts in which people find meaning and discover hope in the face of ambiguous losses **Home Will Never Be the**

Same Again Carol R. Hughes,Bruce R. Fredenburg,2020-06-22 Adult children are often overlooked and forgotten when their parents divorce later in life but in these pages they will find comfort and understanding for the many feelings frustrations and challenges they face For more than two decades a silent revolution has been occurring and creating a seismic shift in the American family and families in other countries It has been unfolding without much comment and its effects are being felt across three to four generations more couples are divorcing later in life Called the gray divorce revolution the cultural phenomenon describes couples who divorce after the age of 50 Overlooked in the issues that affect couples divorcing later in life are the adult children of divorcing parents Their voices open this book and they are the voices of men and women 18 to 50 years old Some of them are single some are married Some have children of their own All of them are in different stages of shock fear and sudden dramatic change In Home Will Never Be the Same A Guide for Adult Children of Gray Divorce Carol Hughes and Bruce Fredenburg share their deep understanding gained during the innumerable hours they have spent with these women and men in their clinical practices The result is a valuable resource for these too often forgotten adult children

many of whom find that whenever they express their feelings and experiences the most important people in their lives frequently ignore and dismiss them As the divorce rate for older adults soars so too does the number of adult children who are experiencing parental divorce Yet these adult children frequently say that they are the only ones who are aware of what they are going through no one understands what they are experiencing and they feel painfully alone
