Reference Guide to Russian Literature Neil Cornwell, 2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public *One Less Hope* Constantin V. Ponomareff, 2006-01-01 This collection of essays which should appeal both to Slavists and students of comparative literature deals with twelve major twentieth century Russian poets who for varied reasons became estranged from the Soviet state Some stayed in Russia to become inner migrants others chose to go into exile in the West One less hope one more song Akhmatova's words stands both for their suffering and often their deaths but also for their humanity and poetic achievement The poets in question are Anna Akhmatova Osip Mandelstam Vladimir Mayakovsky Alexander Blok Sergey Esenin Nikolay Gumilev Vyacheslav Ivanov Marina Tsvetaeva Vladislav Khodasevich Boris Poplavsky Boris Pasternak and Joseph Brodsky

The whole collection is followed by a cultural perspective of the Russian 19th and 20th centuries *Sergei Esenin* Sergei Aleksandrovich Esenin, 1972 One Last Summer Before the Revolution Anna Peicheva, 2024-01-20 Nature was the first to rebel The summer of 1916 roared with thunderstorms wind in the face and icy rain from the sky But people barely noticed the weather War was on everyone's lips interfering with creativity study love life dividing society into two camps Revolution already loomed in the electrified air yet the Tsar who had unleashed the war did not notice He trusted his own newspapers followed battles in the movies and worried most about his family Here is a documentary cross section of the epoch through the letters emotions and thoughts of the participants but we also rise above the fray the finest threads connecting all our heroes are especially visible from above from the emperor to the poet from the military doctor to the poor peasant woman These threads intertwined into the fuse of the future revolution ignited by the summer lightning of 1916 The book is inspired by the work of German writer Florian Illies 1913 *The Summer of the Century* **Esenin** Gordon McVay, 1988 **Problems of Communism**, 1954 Diagnosing Literary Genius Irina Sirotkina, 2003-04-30 Winner of the Aldo and Jeanne Scaglione Prize for Studies in Slavic Languages and Literatures from the Modern Language Association The vital place of literature and the figure of the writer in Russian society and history have been extensively studied but their role in the evolution of psychiatry is less well known In *Diagnosing Literary Genius A Cultural History of Psychiatry in Russia 1880-1930* Irina Sirotkina explores the transformations of Russian psychiatric practice through its relationship to literature During this period psychiatrists began to view literature as both an indicator of the nation's mental health and an integral part of its well being By aligning themselves with writers psychiatrists argued that the aim of their science was not dissimilar to the literary project of exploring the human soul and reflecting on the psychological ailments of the age Through the writing of pathographies medical biographies psychiatrists strengthened their social standing debated political issues under the guise of literary criticism and asserted moral as well as professional claims By examining the psychiatric engagement with the works of Fyodor Dostoevsky Nikolai Gogol Leo Tolstoy and the decadents and revolutionaries Sirotkina provides a rich account of Russia's medical and literary history during this turbulent revolutionary period **State of Madness** Rebecca Reich, 2018-03-13 What madness meant was a fiercely contested question in Soviet society *State of Madness* examines the politically fraught collision between psychiatric and literary discourses in the years after Joseph Stalin's death State psychiatrists deployed set narratives of mental illness to pathologize dissenting politics and art Dissidents such as Aleksandr Volpin Vladimir Bukovskii and Semen Gluzman responded by highlighting a pernicious overlap between those narratives and their life stories The state they suggested in their own psychiatrically themed texts had crafted an idealized view of reality that itself resembled a pathological work of art In their unsanctioned poetry and prose the writers Joseph Brodsky Andrei Siniavskii and Venedikt Erofeev similarly engaged with psychiatric discourse to probe where creativity ended and insanity began Together these dissenters cast themselves as psychiatrists to a sick society By challenging psychiatry's right to declare

them or what they wrote insane dissenters exposed as a self serving fiction the state s renewed claims to rationality and modernity in the post Stalin years They were as they observed like the child who breaks the spell of collective delusion in Hans Christian Andersen s story The Emperor s New Clothes In a society where normality means insisting that the naked monarch is clothed it is the truth teller who is pathologized Situating literature s encounter with psychiatry at the center of a wider struggle over authority and power this bold interdisciplinary study will appeal to literary specialists historians of culture science and medicine and scholars and students of the Soviet Union and its legacy for Russia today
