Serial Forms Clare

Pettitt, 2020-06-04 **Serial Forms** The Unfinished Project of Modernity 1815 1848 proposes an entirely new way of reading the transition into the modern It is the first book in a series of three which will take the reader up to the end of the First World War moving from a focus on London to a global perspective **Serial Forms** sets out the theoretical and historical basis for all three volumes It suggests that as a serial news culture and a stadial historicism developed together between 1815 and 1848 seriality became the dominant form of the nineteenth century Through serial newsprint illustrations performances and shows the past and the contemporary moment enter into public visibility together **Serial Forms** argues that it is through seriality that the social is represented as increasingly politically urgent The insistent rhythm of the serial reorganizes time recalibrates and rescales the social and will prepare the way for the 1848 revolutions which are the subject of the next book By placing their work back into the messy print and performance culture from which it originally appeared **Serial Forms** is able to produce new and exciting readings of familiar authors such as Scott Byron Dickens and Gaskell Rather than offering a rarefied intellectual history or chopping up the period into Romantic and Victorian Clare Pettitt tracks the development of communications technologies and their impact on the ways in which time history and virtuality are imagined

Elizabeth Gaskell's Cranford Thomas Recchio, 2016-04-29 Tracing the publishing history of Elizabeth Gaskell's *Cranford* from its initial 1851 53 serialization in Dickens's *Household Words* through its numerous editions and adaptations Thomas Recchio focuses especially on how the text has been deployed to support ideas related to nation and national identity Recchio maps *Cranford*'s nineteenth century reception in Britain and the United States through illustrated editions in England dating from 1864 and their subsequent re publication in the United States US school editions in the first two decades of the twentieth century dramatic adaptations from 1899 to 2007 and Anglo American literary criticism in the latter half of the twentieth century Making extensive use of primary materials Recchio considers *Cranford* within the context of the Victorian periodical press contemporary reviews theories of text and word relationships in illustrated books community theater and digital media In addition to being a detailed publishing history that emphasizes the material forms of the book and its adaptations Recchio's book is a narrative of *Cranford*'s evolution from an auto ethnography of a receding mid Victorian English way of life to a novel that was deployed as a maternal model to define an American sensibility for early twentieth century Mediterranean and Eastern European immigrants While focusing on one novel Recchio offers a convincing micro history of the way English

literature was positioned in England and the United States to support an Anglo centric cultural project to resist the emergence of multicultural societies and to ensure an unchanging notion of a stable English culture on both sides of the Atlantic

Essays in the Economic History of the Atlantic World John McCusker, 2005-08-15 Written by one of the leading authorities on trade and finance in the early modern Atlantic world these fourteen essays

revised and integrated for this volume share as their common theme the development of the Atlantic economy especially British America and the Caribbean Topics treated range from early attempts in medieval England to measure the carrying capacity of ships through the advent in Renaissance Italy and England of business newspapers that reported on the traffic of ships cargoes and market prices to the state of the economy of France over the two hundred years before the French Revolution and of the British West Indies between 1760 and 1790 Included is the story of Thomas Irving who challenged and thwarted the likes of John Hancock Samuel Adams Alexander Hamilton George Washington and Thomas Jefferson

Politicians and Pamphleteers Jason Peacey, 2017-03-02 The English civil wars radically altered many aspects of mid seventeenth century life simultaneously creating a period of intense uncertainty and unheralded opportunity Nowhere was this more apparent than in the printing and publishing industry which between 1640 and 1660 produced a vast number of tracts and pamphlets on a bewildering variety of subjects Many of these where of a highly political nature the publication of which would have been unthinkable just a few years before Whilst scholars have long recognised the importance of these publications and have studied in depth what was written in them much less work has been done on why they were produced In this book Dr Peacey first highlights the different dynamics at work in the conception publication and distribution of polemical works and then pulls the strands together to study them against the wider political context In so doing he provides a more complete understanding of the relationship between political events and literary and intellectual prose in an era of unrest and upheaval By incorporating into the political history of the period some of the approaches utilized by scholars of book history this study reveals the heightened importance of print in both the lives of members of the political nation and the minds of the political elite in the civil wars and Interregnum Furthermore it demonstrates both the existence and prevalence of print propaganda with which politicians became associated and traces the processes by which it came to be produced the means of detecting its existence the ways in which politicians involved themselves in its production the uses to which it was put and the relationships between politicians and propagandists **Political Journalism in London, 1695-1720** Ashley Marshall, 2020 A major history of the evolution of political journalism in the late Stuart and early Hanoverian period

Street Literature of the Long Nineteenth Century David Atkinson, Steve Roud, 2017-08-21 For centuries street literature was the main cheap reading material of the working classes broadsides chapbooks songsters prints engravings and other forms of print produced specifically to suit their taste and cheap enough for even the poor to buy Starting in the sixteenth century but at its chaotic and flamboyant peak in the nineteenth street literature was on sale everywhere in urban streets and alleyways at country fairs and markets at major sporting events and holiday gatherings and under the gallows at public executions For this very reason it was often despised and denigrated by the educated classes but remained enduringly popular with the ordinary people Anything and everything was grist to the printers mill if it would sell A penny could buy you a celebrity scandal a report of a gruesome murder the last dying speech of a condemned criminal wonder tales riddles and

conundrums a moral tale of religious danger and redemption a comic tale of drunken husbands and shrewish wives a temperance tract or an ode to beer a satire on dandies an alphabet or reed a ma daisy reading made easy to teach your children an illustrated chapbook of nursery rhymes or the adventures of Robin Hood and Jack the Giant Killer Street literature long held its own by catering directly for the ordinary people at a price they could afford but by the end of the Victorian era it was in terminal decline and was rapidly being replaced by a host of new printed materials in the shape of cheap newspapers and magazines penny dreadful novels music hall songbooks and so on all aimed squarely at the burgeoning mass market Fascinating today for the unique light it shines on the lives of the ordinary people of the age street literature has long been neglected as a historical resource and this collection of essays is the first general book on the trade for over forty years

Royalism, Print and Censorship in Revolutionary England Jason McElligott, 2007 A study of the content and methods of royalist propaganda via newsbooks in the crucial period following the end of the first civil war This is a study of a remarkable set of royalist newsbooks produced in conditions of strict secrecy in London during the late 1640s It uses these flimsy ephemeral sheets of paper to rethink the nature of both royalism and Civil War allegiance *Royalism Print and Censorship in Revolutionary England* moves beyond the simple and simplistic dichotomies of absolutism versus constitutionalism In doing so it offers a nuanced innovative and exciting vision of a strangely neglected aspect of the Civil Wars Print has always been seen as a radical destabilizing force an agent of social change and revolution *Royalism Print and Censorship in Revolutionary England* demonstrates by contrast how lively vibrant and exciting the use of print as an agent of conservatism could be It seeks to rescue the history of polemic in 1640s and 1650s England from an undue preoccupation with the factional squabbles of leading politicians In doing so it offers a fundamental reappraisal of the theory and practice of censorship in early modern England and of the way in which we should approach the history of books and print culture JASON McELLIGOTT is the J P R Lyell Research Fellow in the History of the Early Modern Printed Book at Merton College Oxford
