Sermon Outlines For Invitations To Christ Beacon Sermon Outline Series:

Sermon Outlines for Invitations to Christ Gene Williams, 2003 Sermons for the busy pastor needing a place to start in sermon preparation or additional thoughts to add substance to Sunday s message Each book in the series provides 25 to 30 outlines While these outlines are designed to be used in series preaching most can be adapted for stand alone sermons Every sermon outline is directed to the needs of today s congregants to challenge inspire and motivate to service for Christ and His Kingdom As the pastor develops these outlines through further research and personal illustrations the resulting sermons will become effective channels for spiritual life and growth American Book Publishing Record ,2003 The Gospel magazine, and theological review. Ser. 5. Vol. 3, no. 1-July 1874 ,1871 The Variety of American Evangelicalism Donald W. Dayton, 2002-05 Those labeled as evangelicals commonly are assumed to constitute a large and fairly homogeneous segment of American Protestantism This volume suggests that in fact evangelicalism is better understood as a set of distinct subtraditions each with its own history organizations and priorities The differences among groups are so important that the question arises Is the term evangelical useful at all This book attempts to enter as sympathetically as possible into the self understandings of movements usually grouped under the evangelical umbrella For each of twelve major traditions a leading scholarly interpreter first articulates the group s theological orientation and then explores the relationship between that movement and broader evangelical issues and organizations Contributors develop remarkably useful and diverse conceptual strategies for charting the complex evangelical landscape In crisp summary chapters the editors draw differing conclusions from the many perspectives offered Donald Dayton wants to abandon the category evangelical altogether Robert Johnston sees the varied traditions as an extended family whose members embody common characteristics to greater or lesser degrees
