Alcohol Problems and Solutions Stephen Gislason, The Problem is drinking too much of the wrong drinks The Solution Stop Drinking Alcoholic Beverages Humans like to become intoxicated Fermented liquid foods that contain alcohol are used worldwide in parties celebrations and rituals It is common for fermented foods to be included in the daily diet Small doses of fermented foods relax inhibitions and can feel pleasant in social situations Larger doses are toxic to the brain and disable the drinker The regular abuse of alcoholic beverages is called alcoholism The stigma attached to the term alcoholism remains an obstacle to understanding this common problem There is a tendency to deny or to normalize excessive drinking The use of alcoholic beverages is woven into the fabric of society and excessive use of alcohol is often considered normal Ingestion of alcoholic beverage in excess produces many disease patterns

involving every part of the body Even moderate alcohol abuse distorts the personality emotions and intellect of the social drinker The cognitive impairments and personality distortion are a direct consequence of brain dysfunction cause by ethanol and other chemical pathogens in alcoholic beverages Alcohol abuse is considered to be an addiction and some argue about calling alcoholism a disease The term addiction refers both the compulsive aspect of drinking and also to the harm drinking causes The drinker harms himself his family and the community at large A reasonable person will notice the harm he or she is causing and will seek to remedy the problem An addict ignores the harm and remains devoted to ingesting alcoholic beverages no matter how much harm is caused Intoxication with alcoholic beverages generates behaviors that are regrettable and often destructive Drunk people do much harm to themselves and others The main drug effect is exerted by ethanol on the brain As blood levels of ethanol increase more and more brain functions are shut down rendering the intoxicant temporarily demented with inappropriate behavior incoordination and poor judgment Alcohol intoxication routinely promotes fighting assaults and death by accident or murder
