Contemporary Architects Ann Lee Morgan, Colin Naylor, 1987 To strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before World War II In making these decisions we have been assisted by an Advisory Board As in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating habitable spaces in our day Editor's note *Time Out Mallorca & Menorca* Editors of Time Out, 2009 Mallorca and Menorca two of Europe's most popular holiday resorts are often unfairly maligned as overdeveloped package tour playgrounds This guide seeks to redress the balance by revealing the variety to be found on these small islands **José Luis Sert** Josep M. Rovira i Gimeno, 2003 Jos Luis Sert 1902-1983 architect and town planner friend and collaborator of Le Corbusier member of CIAM and founder of the Grupo Este of the GATEPAC in Barcelona took the Spanish architectural avant garde of the thirties as the starting point for his work Sert left Spain in 1939 to settle in the United States where he eventually succeeded Walter Gropius as head of the Graduate School of Design at Harvard University Among Sert's most representative works are the Fundaci n Joan Mir and the Dispensari Antituberculosi in Barcelona the Fondation Maeght at Saint Paul de Vence in France the American Embassy in Baghdad and town plans for several cities in South America including Medell n Bogot Lima and Havana Through careful archival research the author has assembled the entire legacy of Sert's projects and has reconstructed the profile of one of the greatest Spanish architects of the twentieth century The book also conveys an excellent overview of the avant garde art and architecture movements of the time with illustrations of important CIAM meetings art sculpture and architecture by artists who influenced Sert **Architecture, 1970-1980** Jeanne M. Davern, 1980 Architecture Series: Bibliography, 1987 **The New Modernist in World Architecture** Patricia M. Snibbe, Richard W. Snibbe, 1999 The first major examination and evaluation of Modernism in architecture an eloquent informative text that places Modernism and its practitioners in context with the social philosophical and aesthetic principles that have informed their work Illustrated with beautiful color and black and white photographs of works by original and contemporary modern masters from Frank Lloyd Wright to Richard Meier Ideal for architects urban designers students and others *Process, Architecture*, 1982 **A Field Guide to Landmarks of Modern Architecture in Europe** Miriam F. Stimpson, 1985 **The Bookseller**, 1978 The AIA Gold Medal Richard Guy Wilson, 1984 **An Architecture of Ineloquence** J.K. Birksted, 2016-12-05 Set on a hillside near Cluny in a region associated with religious

institutions and sacred architecture including Le Corbusier's La Tourette Le Carmel de la Paix designed by Jos Luis Sert remains tranquilly unvisited and quietly erased from architectural history Why This unusual convent falls outside the standard categories of Sert's architecture and has been overlooked in most publications about his work As J K Birksted explains the design and construction process for this building proved nightmarish resulting in a building which at first sight appears to be ineloquent This first detailed examination of this building shows how the convent and the story of its creation offer valuable and important new insights into Sert his architecture and his life However the study also opens up discussions on wider subjects such as the relationships between modernist architecture and ecclesiastical architecture The design and construction of the Carmel de la Paix 1968 1972 followed the Second Ecumenical Council of the Vatican 1962 1965 which introduced fundamental changes and proposals for renewing the relationship between the Church and the changing modern world and the convent provides an interesting illustration of this period In addition it offers insights into the fascinating world of the Carmelite order and its specific liturgical requirements and reflecting on the nuns active involvement in the design and construction process it also explores wider issues of women in architecture *Barcelona* Suzanne Strum,2001 This guide looks at a broad range of architecture and urbanism in Barcelona providing an understanding of the historical and political contexts that have shaped it It focuses on significant projects built since 1990 as well as providing practical information for visitors **Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl** Avery Library,1990
