Sexual Bargaining Power Politics In The American Marriage Second Edition:

Sexual Bargaining John Scanzoni, 1982-04 Is the institution of marriage in America breaking down Is marriage as we have known it largely irrelevant Are the forms of marriage changing Are the changes in women's roles in society related to the breakdown irrelevance and formal alteration of marriage In this updated edition of his fundamental study of modern marriage John Scanzoni challenges the widespread assumption that marriage is a dying institution By analyzing the reward seeking which generates conflicts between males and females he shows that marriage indeed has a future but that its form will continue to change as sex role equality emerges both within and outside of marriage

Sexual Bargaining in the Digital Era John H. Scanzoni, 2021-10-05 Sexual Bargaining in the Digital Era follows the evolution of genders sexualities and so on away from their Old Normal ON pattern which prevailed during the Agricultural Age and the Industrial Age and into the New Normal NN pattern which is currently surfacing in concert with an emerging Digital Era ON was based on the ancient traditional script governing how women men children ought to behave within the spheres of genders marriages families relationships sexualities Over the centuries ON eventually modified into the familiar 1950s style nuclear patriarchal cisgender husband wife with children and family And now that style itself is fading away into NN NN is based not on script but on improvisation it is essentially a continual work in progress To make it function the partners engage in ongoing negotiation governed by the principle that everything is negotiable except the principle that everything is negotiable NN has thus far been pursued most frequently by persons New Lights who are educated and relatively advantaged ON has been pursued mostly by persons Old Lights who are less educated and relatively less advantaged ON is also strongly embraced by persons of a traditional religious bent persons who tend to be rigid and unbending in their religious views Currently they tend to be extremely right wing evangelicals and extremely right wing Catholics Importantly their political clout far exceeds their relatively modest numbers within the larger population In brief the shift from ON to NN is a move away from the sanctity of a particular structure to the primacy of persons engaged in ongoing processes of inventing and reinventing certain arrangements of genders marriages families relationships sexualities enabling them to fulfil their needs for primary intrinsic emotional satisfactions such as liking loving empathy companionship sexual and so forth Among other things this shift replaces the preeminence of the historic binary or cisgender approach heterosexual legal children and so on in favor of the diversity variety multiplicity approach which incorporates under one conceptual umbrella all persons of whatever genders sexualities and so on All persons are thus engaged in a common struggle to achieve personal satisfactions as well as contribute to the Greater Good
