Sexual Cultures In East Asia:

East Asian Sexualities Stevi Jackson, Jieyu Liu, Juhyun Woo, 2009-04-15 This book paints a vivid picture of women's active involvement in reshaping intimate and public sexual life in East Asia. In bringing together exciting new feminist research on sexuality from East Asia and making it available to a wider audience, *East Asian Sexualities* unsettles stereotypes, rectifies lack of awareness and demonstrates that East Asia matters. The chapters address the diversity and variety of everyday sexual lives and sexual politics in China, Hong Kong, Taiwan, Korea, and Japan. They range from workplace sexual cultures, transnational sexual relations, the conditions of sex work, and the emergence of new sexual desires, cultures, and movements. The contributors highlight the gendered and sexual consequences of globalization and rapid social change. In doing so, they engage with western debates on late modernity while also exploring the contested understandings of modernization and westernization in the East. This is a collection which illuminates the local situations in which women's sexual lives are lived and offers fresh perspectives on global issues. *Sexual Cultures in East Asia* Evelynne

Micollier, 2004-06-01 Using case studies from East and Southeast Asia, this book examines sexuality and AIDS-related sexual risk in the context of Asian cultures. It offers a complementary perspective documented with sociological and anthropological data to historical studies and looks at commercial sex work, kinship systems, matrimonial strategies, gender power relations, and the relevance of cultural constructs such as Confucianism and Taoism for the analysis of sexual cultures in Asia.

Routledge Handbook of Sexuality Studies in East Asia Mark McLelland, Vera Mackie, 2014-09-15 This collection brings together cutting edge work by established and emerging scholars focusing on key societies in the East Asian region: China, Taiwan, Hong Kong, Japan, North and South Korea, Mongolia, and Vietnam. This scope enables the collection to reflect on the nature of the transformations in constructions of sexuality in highly developed, developing, and emerging societies and economies. Both Japan and China have established traditions of sexuality studies reflecting longstanding indigenous understandings of sex as well as more recent developments which interface with Euro-American medical and psychological understandings. Authors reflect upon the complex colonial and economic interactions and cultural flows which have affected the East Asian region over the last two centuries. They trace local flows of ideas instead of defaulting to Euro-American paradigms for sexuality studies. Through looking at regional and global exchanges of ideas about sexuality, this volume adds considerably to our understanding of the East Asian region and contributes to wider discussions of social transformation, modernisation, and globalisation. It will be essential reading in undergraduate and graduate programs in sexuality studies, gender studies, women's studies, and masculinity studies, as well as in anthropology, sociology, history, cultural studies, area studies, and health sciences. *Sex Trafficking in Southeast Asia* Trude Jacobsen, 2016-11-10 This book brings an important new perspective to the study of sex trafficking by considering the different types of social contracts which existed in the past that had sexual labour or activity as an inherent component. It outlines the nature of these social institutions: marriage

temporary marriage debt bondage and slavery which were recognized in local law carried no stigma and endured for long periods It discusses how labour pledged in return for a loan of cash or as a result of a punishment dictated by the state often included sexual labour and how this could take the form of servicing the master of the house his guests or foreign travellers who paid the debt holder for the privilege and how even wives of different ranks temporary or permanent and children were pledged as sureties for loans The book which covers the modern states of Myanmar Thailand Laos Cambodia and Vietnam argues that cultural norms are not static that sexual contracts are more complicated than simply marriage or prostitution and that as trafficking for sexual purposes increases those engaging in humanitarian intervention should improve their knowledge of the historical underpinnings of cultural understandings of familial and contractual obligations **The**
