programs in the schools This translation of Zetterberg s study has been prepared by British sociologist Graham Fennell who also authored a new introduction positioning Zetterberg s work in the history of sex research and comparing its findings with contemporary studies in Scandinavia Western Europe and North America In light of the ongoing controversies about sex education its conclusions remain relevant to policy discussions today *Reproductive Health Behaviour of Young Europeans* Nathalie Bajos,Agnès Guillaume,Osmo Kontula,2003-01-01 This publication is the first volume of a report which examines the reproductive health behaviour of young people in Europe It focuses on contraceptive practices and the use of abortion amongst young adults and trends in teenage sexual behaviour in terms of pregnancies sexually transmitted diseases and HIV infections These discussions provide a background for research into the possible impact of legislation and government policy on the role of the welfare system the institutional framework of reproductive health services and education **HIV Epidemics in the European Region** Lucy Platt,Emma Jolley,Vivian Hope,Alisher Latypov,Peter Vickerman,Ford Hickson,Lucy Reynolds,Tim Rhodes,2015-02-12 This report describes the dynamics of HIV epidemics among vulnerable and high risk populations in the European region in particular people who inject drugs sex workers and men who have sex with men It aims to inform future HIV responses and guide HIV prevention surveillance and research **The Dutch Response to HIV** Theo Sandfort,1998 Using the Dutch example this book documents and discusses prevention policy and provides an instructive case study for other countries with relevance for policy makers now and in the future
