Sexual Textual Politics Feminist Literar:

Sexual/textual Politics Toril Moi, 2002 This book examines the strengths and limitations of the two main strands in feminist criticism the Anglo American and the French paying particular attention to the works of Cixous Irigaray and Kristeva What are the political implications of a feminist critical practice How do the problems of the literary text relate to the priorities and perspectives of feminist politics as a whole Sexual Textual Politics addresses these fundamental questions and examines the strengths and limitations of the two main strands in feminist criticism the Anglo American and the French It pays particular attention to the works of Cixous Irigaray and Kristeva and since publication this book has rightly attained the status of a classic Although written for readers with little knowledge of the subject Sexual Textual Politics makes its own intervention into key debates arguing provocatively for committedly political and theoretical criticism rather than a textual or apolitical approach With a new afterword in this edition Sexual Textual Politics is a brilliantly accessible must read for all those interested in feminist literary theory

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture
