across the world This will be valuable reading for those interested in cultural geography urban geography and urban culture as well as contemporary art theorists practitioners and policymakers *Japanese Firms in Contemporary Singapore* Hiroshi Shimizu, 2008 This pioneering work discusses the role of Japan in the economic development of Singapore since 1965 by looking at the nature and extent of the value added activities of Japanese multinational corporations MNCs in the manufacturing construction and retailing sectors Japan's economic presence and influence were very strong in Singapore during this period The city state was a major recipient of Japanese foreign direct investment in Asia and was also an important overseas customer for Japanese manufacturing and construction firms In this book Hiroshi Shimizu examines the value added activities of Japanese multinational corporations in Singapore drawing on case studies of leading companies such as Minebea Pokka Corporation Kikkoman Bridgestone and Isetan He uses this information to analyse Japanese foreign direct investment in Singapore as part of an Asian or global strategy explaining competition and co operation between Japanese MNCs and local firms and evaluating various factors that led to a decline of Japan and the rise in the importance of China in Singapore particularly since the late 1990s

Modern Marketing Communications Frank Jefkins, 2012-12-06 Marketing communications is a subject which has become popular in both marketing and public relations circles but sometimes with different parameters There are those who prefer to confine marketing communications to promotional activities which is mostly an academic point of view and there are those who see the subject in broader terms embracing every form of communication used in marketing which is how the subject is practised in the business world While the author has long experience as a teacher and examiner he also continues to be a professional practitioner Consequently the book aims to serve those concerned with both the academic and the professional in interpretations of marketing communications It is of course hoped that those who adopt the academic approach to the subject will eventually acknowledge that there is more to marketing communications than advertising sales promotion selling marketing research and public relations It is

also necessary to realise that public relations embraces much more than the publicity in the 4Ps promotion box Without wishing to be contentious this broad approach is proposed so that communications of all kinds throughout the marketing strategy can have maximum effect Very little has been published on this subject and the book is therefore a pioneer attempt to establish the practical parameters of modern marketing communications There are so many broad and narrow interpretations of marketing communications but it is hoped that this book will be useful to teachers students and practitioners of the subject
